Nixon Presents Shaky Surplus In \$200.8 Billion '71 Budget

Seek Accord In Rail Dispute Within 10 Days

Court Orders Workers Back; Talks Resume

WASHINGTON (AP) — Hoping to avert a nationwide rail shutdown before a court-ordered cooling off period expires next week, government officials worked today to arrange a settlement between industry and union negotiators.

Negotiators for both sides, however, saw little hope of a quick settlement from today's talks.

The dispute reached the brink of a nationwide shutdown Saturday night before a Washington, D.C., federal judge halted a strike against Union Pacific Railroad by four shopcraft unions and the threatened coast-to-coast retaliatory lockout by the railroads.

The 10-day postponement ordered by U.S. District Judge John J. Sirica gave the Labor Department time to call for more bargaining talks before it turns to other means to resolve the 14-month-old dispute.

Assistant Secretary of Labor W. J. Usery Sunday arranged for new talks—and top negotiators for both sides—William P. Wimpinger for the unions, John P. Hiltz for the railroads, agreed to come to any meeting called by the government.

The Labor Department gave no indication whether it would propose special legislation to resolve the dispute. Secretary of Labor George P. Shultz said he would use the 10-day postponement.

Pope Goes All Out For Celibacy

By EDWARD MAGRI
Associated Press Writer

VATICAN CITY (AP) — Pope Paul VI has put his authority at stake by trying to muzzle the growing demand within the Roman Catholic church for an end to the requirement that all priests be celibate.

Far from moving toward a softening of the mandatory rule for clerical celibacy that he restated in a 1967 encyclical, the Pope on Sunday told the world's half billion Roman Catholics they should not even discuss a change in the rule.

Celibacy, he said in a stern and uncompromising speech, "is a capital law of our Latin church. It cannot be abandoned or put into discussion."

The speech was a pointed rebuke to the primates of the Netherlands, Bernard Cardinal Al-

frink, and the six other Dutch bishops who had called publicly for a churchwide discussion of priestly celibacy after a council of Dutch priests and laymen voted overwhelmingly that sexual abstinence should no longer be mandatory for priests.

The Belgian primate, Leo of Cardinal Suenens, joined the Dutch bishops in calling for debate on the issue.

Cardinal Alfrink announced on Jan. 19 that he would come to Rome "soon" to discuss the matter with the Pope. But the pontiff said his "no" without waiting to confer with the cardinal.

The Vatican is tensely waiting for the reaction of the Dutch bishops, for what one prelate called "the next round in the shadow boxing between Rome and Amsterdam."

Many prelates think an open break between the Pope and the Dutch Catholic Church is a real possibility.

"Will the controversy between Rome and the church of Holland on the issue of celibacy end up in schism?" Rome's Il Messaggero asked today.

"Schism does not need to be proclaimed solemnly to become a reality in today's church," wrote Milan's Corriere della Sera last week.

Others recalled the recent speech in which the Pope said that "condemnation and excommunication" could still be necessary "when serious circumstances require it."

Priestly celibacy is a 1,600-year-old tradition of the Western Catholic Church. In the Eastern Church, married men can become priests, but single

or widowed priests cannot marry.

In the 4th century married men were still allowed to become priests in Western Europe, but they were prohibited "the use of their marital rights," as the New American Catholic Encyclopedia puts it. Single men who became priests could not marry. In 1075 Pope Gregory VII excluded married priests from all ecclesiastical functions.

St. Paul the Apostle, who never married, favored clerical celibacy although he allowed for married priests and bishops. In one of his letters he said married men were too busy pleasing their wives and could hardly spare time to be at the service of God.

Many in the church think that St. Paul's idea still holds true.

Opposition Could Erase Small Margin

WASHINGTON (AP) — President Nixon made good today his vow to deliver a balanced budget for fiscal 1971, but its shaky surplus—\$1.3 billion on a record \$200.8 billion spending total—was pinned on a doubtful prospect of cooperation by Congress.

Nixon's first budget message to Congress bore the marks of his cost-cutting ax. It chopped \$5.8 billion from overall defense outlays, down to \$73.6 billion for fiscal 1971, or \$71.2 billion for strictly military functions. It canceled or cut \$2.1 billion worth of domestic programs described as "low priority."

Space spending was squeezed to \$3.4 billion in a 12 per cent cutback. To help make ends meet, Nixon announced a speed-up, worth \$1.2 billion in fiscal 1971, in the Treasury's collection of excise taxes and income taxes withheld by employers.

Nixon asked for other revenue boosters, some sure to meet heavy resistance in Congress. They included a variety of "user charges," higher postal rates, a vast \$751 million disposal of commodities from the national defense stockpile, and the sale of the government-owned Alaska Railroad for upwards of \$100 million. The two controversial sales alone represented much more than half his planned surplus.

The 1971 budget was the nation's first to cross the \$200 billion mark. Bulging government costs have caused serious slippage in the current fiscal 1970 budget also, Nixon disclosed. With outlays pushing up to \$197.9 billion, Nixon said, the planned surplus of \$5.9 billion on next June 30 has shriveled to an estimated \$1.5 billion.

But Nixon named seven home-front programs including welfare, antiracketeering and antipollution efforts—"our most urgent domestic needs"—for increased funds in fiscal 1971.

"Reform is the watchword of this administration," the message proclaimed. The President went on:

"This anti-inflationary budget begins the necessary process of reordering our national priorities."

"For the first time in two decades, the federal government will spend more money on human resource programs than on national defense."

Despite the money squeeze on the Pentagon, Nixon said his budget will enable the administration "to meet our international responsibilities by seeking an honorable peace in Vietnam, by maintaining sufficient military power to deter potential aggressors, (and) by exploring with the Soviet Union possible limitations on strategic arms."

In acknowledging the government has missed by \$2.2 billion the \$195.7 billion budget ceiling decreed by Congress, in the last session, Nixon said the whole overrun was caused by the rise of "built-in costs for relatively uncontrollable programs"—that is, interest costs, welfare programs and others legally authorized spending programs which the executive lacks authority to curtail.

The seven domestic needs labeled "most urgent" were assigned these increases from fiscal 1970 budget totals:

—\$500 million to start the Family Assistance program payments, the core of Nixon's proposed massive overhaul of the welfare system. When and if enacted, and brought to full operation, it will cost \$4.4 billion a year.

—\$275 million to launch the sharing of federal revenues with the hard-pressed states and cities "before the end of 1971." Nixon unveiled the plan last summer with a promise of \$500 million in fiscal 1971. Some officials considered that sum almost embarrassingly small; now it has been cut almost in half.

—\$310 million for increased antiracketeering efforts, for a total of \$1.25 billion.

—\$330 million for air and water pollution abatement, parks and open spaces, for a total of \$1.115 billion.

—\$764 million for food assist-

Over 100 Killed As 2 Argentine Trains Collide

BUENOS AIRES (AP) — A speeding cross-country express slammed into the rear of a halted suburban train near Buenos Aires Sunday night, killing more than 100 persons in one of the worst railroad disasters in history.

Ninety-eight bodies had been taken to police stations by midnight and five suburban hospitals had received a number of others.

Railway officials estimated that more than 150 persons were killed and more than 400 injured.

Officials of the state-owned Argentine Railways Co. said the 21-car express en route from the northern city of San Miguel de Tucuman to Buenos Aires plowed into the rear of a 10-car

suburban train which had stopped due to mechanical trouble about a mile from a lonely stop on the pampas 25 miles west of the capital. The suburban train was jammed with passengers returning to Buenos Aires from a summer weekend in the country.

It was the worst train wreck in Argentine history. The worst ever recorded occurred at Modane, France, on Dec. 12, 1917, when 543 persons were killed in the derailment of a passenger train.

There was no official explanation for the crash.

An unofficial report said a signalman failed to warn the express, which was moving at an estimated 65 miles an hour, that the local train was stopped in its path. Another report said the express had been accidentally switched onto the same track as the local.

Officials of the General Mitre Line, which operated both of the trains, said the local train carried about 1,000 passengers and the express about 400.

Crime Cash \$6.3 Billion

WASHINGTON (AP) — The Nixon administration today earmarked \$6.3 billion to prevent crime, catch offenders and reform the criminal justice system during fiscal 1971.

The projected outlay—nearly double the fiscal 1969 figure—marked the largest amount in history to be budgeted for federal programs aimed at reducing the nation's spiraling crime rate.

By far the biggest beneficiary of the money transfusion will be the Law Enforcement Assistance Administration, the Justice Department agency created in 1968 to direct the Safe Streets Act.

LEAA will get an outlay of \$363 million, a \$190 million increase over the current year, for broad purpose block grants to assist the 50 states in their crime reduction efforts.

Other major increases were specified for the FBI, \$10.1 million; the Bureau of Prisons, \$14 million; and the Bureau of Narcotics and Dangerous Drugs, \$5 million.

U.S. military spokesmen, assessing the battlefield reports, said the enemy command had launched a pre-Tet "highpoint" of activity along the populous coastal lowlands south of Da Nang and in the Central Highlands.

Two American helicopters were downed, with five U.S. and six South Vietnamese killed and seven Americans wounded.

The surge of enemy activity came only a few days before the 40th anniversary Tuesday of the founding of the Vietnamese Communist party and the start Thursday of a four-day ceasefire that the Viet Cong proclaimed for Tet, the festival of the lunar new year.

Ellenberg Denies Links With Mafia

CLEVELAND, Ohio (AP) — Police Chief William P. Ellenburger called a news conference today to answer charges leveled by Detroit Lawyer Lawrence Burns that he has Mafia connections.

Ellenburger, a retired Detroit police inspector, had been special director of Grosse Pointe Park, Mich., for a year before he was named police chief last week.

Mayor Carl B. Stokes went on television Sunday night to personally defend his appointment and denied the Mafia allegations published in a copy-right story in the Detroit Free Press and also by the Cleveland Plain Dealer.

Stokes said Ellenburger has "categorically denied" the charges. The mayor said he would not fire the chief on the basis of Burns' story. Stokes added, however, that he had sent investigators to Detroit to check Ellenburger's background.

According to the Plain Dealer, Burns said he paid "bribes" averaging \$1,000 a month for a period of several years to keep police officers—including Ellenburger.

"Ellenburger and other policemen received money, Burns said, to protect a notorious abortion mill—which grossed \$250,000 a year," the Plain Dealer continued.

Nice Weather Boosts Ohio Weekend Traffic Toll To 19

By THE ASSOCIATED PRESS

Warmer weather and sunny skies brought Ohio motorists onto the state's highways in droves over the weekend and the traffic death toll showed it.

At least 19 persons were killed on Ohio's highways, roads and streets between 6 p. m. Friday and Sunday midnight. The death toll was up sharply from last weekend, when only five persons died.

The dead: NEW PHILADELPHIA — Darold Dennis, 15, of New Philadelphia, in a single-car crash near his home.

CIRCLEVILLE — Sharon Marie Lambert, 23, and Teresa Sue Underwood, 20, both of Washington Court House, in a two-car crash on U.S. 22 in Pickaway County about one mile west of Circleville.

COLUMBUS — John L. Hillgrove, 35, of Columbus, in a one-car accident on Alum Creek Drive in Columbus.

CAMBRIDGE — John F. Frazier, 17, of Coshocton, of injuries he received in a two-car accident Friday night on I-77 about eight miles north of Cambridge in Guernsey County.

COLUMBUS — Joseph Wiseman, 37, of Reynoldsburg, when

he was struck while pouring gas into his stalled car at Livingston and Barnett Aves.

DAYTON — David Gibson, 25, of near Dayton, in a two-car collision on Ohio 202 in Wayne Township, Montgomery County.

CLEVELAND — Melvin A. Juchnowski, 29, of Middleburg Heights, early Saturday in a two-car crash on U.S. 21 in the Cleveland suburb of Independence.

CLEVELAND — Loretta Rackel, 31, of Cleveland, early Saturday when the car in which she was a passenger struck a pole at 112th and Madison streets.

CLEVELAND — John W. Chappell, 50, of Cleveland, when his car struck a tree on Cleveland's southwest side.

MANSFIELD — Thomas F. Day, 88, of Mansfield, when he was hit by a car southwest of Mansfield.

AKRON — Gary N. Gool-night, 17, of Akron, when his car slammed into a utility pole

on a southwest Akron street. WARREN—Dennis R. Culver, 18, of Bristolville, hit by a car on Ohio 45 in Bristolville.

CINCINNATI — Lulu Harris, 58, Cincinnati, injured fatally when hit by a car while crossing a Cincinnati street.

SUNDAY AKRON — George T. Matthews, 56, Akron, struck by a car in downtown Tallmadge.

CINCINNATI — Clarence Richardson, 54, Cincinnati, when his car slammed into a utility pole along I-75 in Cincinnati.

NEWARK — Bonnie Walker, 13, and Karen Fullen, 16, both of Newark, when the car in which they were riding was struck by a freight train at a Newark crossing and knocked into the path of a second freight which hit it, causing the car to explode. The girls were trapped inside.

AKRON — Vicky Opphile, 15, Akron, of injuries received Saturday when she was hit by a car in Akron.

ABM Foes Back In Action As Nixon Urges Expansion

WASHINGTON (AP) — President Nixon has breathed new life into the anti-ABM coalition by emphasizing expansion of the Safeguard defense system to guard against a possible Red Chinese attack.

As a result, Senate opponents are prepared to make an issue of the President's change in reasoning.

Nixon has resurrected the argument used by the Johnson administration for its Sentinel ABM and dropped some he used last year for Safeguard.

"It leaves us dizzy," one key aide said after Nixon's announcement at his news conference Friday night, adding "I don't know how many times the rationale can be shifted and still have any sense of reality."

Nixon said the ABM expansion he is seeking this year involves area defense as well as the defense of Minuteman intercontinental ballistic missile (ICBM) sites that was at issue in the 1969 fight over the first two ABM sites.

The site defense aspect was a major difference between Safeguard and the Johnson administration's Sentinel ABM that emphasized area defense, especially relating to the nation's major cities.

Although details of the new ABM expansion are to be revealed later by Secretary of Defense Melvin R. Laird, defense of at least one city—Washington—is likely to be included.

Opponents were resigned to waging a token fight if the administration merely went ahead with protection of more ICBM or bomber bases.

Both arguments for the ABM were outlined last March by the President and top defense officials.

But the fact that funds were only being asked to protect the two ICBM bases had the effect of playing down the main rationale for an area defense, the potential Red Chinese threat.

Senate Democratic Leader Mike Mansfield charged Saturday that "the President has resurrected the Chinese threat which he said, about a year ago, I remember correctly, he 'couldn't buy.'"

Mansfield also questioned how an ABM expansion would affect the Strategic Arms Limitation Talks (SALT) with the Soviet Union which reopen in April.

Both arguments for the ABM were outlined last March by the President and top defense officials.

Final Hearing On Carswell

Bayh May Ask Delay In Vote

WASHINGTON (AP) — Senate hearings on the Supreme Court nomination of G. Harrold Carswell moved into their fourth and perhaps last session today with civil rights spokesmen taking the stand against the Southern judge.

Waiting to testify before Chairman James O. Eastland, D-Miss., called the hearings to order were Joseph L. Rauh Jr., counsel for the Leadership Conference on Civil Rights, and Clarence Mitchell, director of the Washington office of the NAACP.

Eastland had said today's hearings would be the last with a vote perhaps Tuesday.

However, Sen. Birch Bayh, D-Ind., indicated he might invoke his prerogative to force a week's delay in the committee action.

Carswell, now a judge on the 5th U.S. Court of Appeals and for 11 years a U.S. District Court judge in Tallahassee, Fla., had been under sharp attack from civil rights groups even before the hearing.

Rauh told newsmen last week the Leadership Conference, composed of about 125 organizations, is even more opposed to Carswell than it was to Judge Clement F. Haynsworth, Jr., President Nixon's first nominee for the Supreme Court post vacated by Abe Fortas.

Labor leaders joined with civil rights forces in battling Haynsworth's nomination, rejected by a 55-45 Senate vote last November, but there were no signs of active opposition against Carswell despite a critical statement last week by AFL-CIO President George Meany.

Carswell denied any racial bias in his testimony last week, and Eastland and Republican leaders have predicted his nomination will be overwhelming confirmed by the Senate.

Cartoonist Donahay Dies

CHICAGO (AP) — William Donahay, 86, cartoonist who created and for more than a half a century drew The Teenie Weenies, a syndicated comic strip for children, died Sunday.

Donahay drew his last strip in November and had planned to retire soon. The final strip will appear Feb. 15.

The Teenie Weenies, featuring the characters of The Dunces and Mr. Chinaman, ran longer than any other strip drawn by one person.

Miller Announces He'll Run Again

WASHINGTON (AP) — Rep. Clarence Miller, R-Ohio, said today that he will be a candidate for re-election.

Miller, a member of the House Agriculture and Public Works Committees, will be seeking his third term in Congress.

Over 100 Killed As 2 Argentine Trains Collide

BUENOS AIRES (AP) — A speeding cross-country express slammed into the rear of a halted suburban train near Buenos Aires Sunday night, killing more than 100 persons in one of the worst railroad disasters in history.

Ninety-eight bodies had been taken to police stations by midnight and five suburban hospitals had received a number of others.

Railway officials estimated that more than 150 persons were killed and more than 400 injured.

Officials of the state-owned Argentine Railways Co. said the 21-car express en route from the northern city of San Miguel de Tucuman to Buenos Aires plowed into the rear of a 10-car

suburban train which had stopped due to mechanical trouble about a mile from a lonely stop on the pampas 25 miles west of the capital. The suburban train was jammed with passengers returning to Buenos Aires from a summer weekend in the country.

It was the worst train wreck in Argentine history. The worst ever recorded occurred at Modane, France, on Dec. 12, 1917, when 543 persons were killed in the derailment of a passenger train.

There was no official explanation for the crash.

An unofficial report said a signalman failed to warn the express, which was moving at an estimated 65 miles an hour, that the local train was stopped in its path. Another report said the express had been accidentally switched onto the same track as the local.

Officials of the General Mitre Line, which operated both of the trains, said the local train carried about 1,000 passengers and the express about 400.

January Was Cold

The month of January left the calendar picture Saturday with moderate temperatures of a high 43 degrees and a low at two degrees above the freezing mark at 34, but will be long remembered as one of the most severe on record.

It snowed on 19 of January's 31 days and snow or ice appeared on the ground on all but two days of the entire month. A balmy 63 degrees recorded as the high on January 23, erased all except isolated traces of winter precipitation until snow and sleet left additional snow on the ground.

Area residents shivered through probably the coldest 24 hours on record when the thermometer dipped to an overnight low of minus five degrees on January 7 and rose to a high of only one degree above zero on the following day.

Average high temperature for the month, January, was 28.45 degrees. Average low readings were 12.05 degrees.

Precipitation, mostly in the form of melted snow or ice, measured 1.22 inches, a deficit from the normal monthly accumulation of 3.14 inches.

Current predictions are that the ground will not see his shadow today, thus bringing a speedier end to winter. The local forecast is for continued rain mixed with snow as temperatures drop in the onset of another cold wave. The thermometer is expected to drop to 5-10 degrees above zero tonight as cold, strong winds enter the area. Tuesday's high will be near the 20 mark.

Nice Weather Boosts Ohio Weekend Traffic Toll To 19

By THE ASSOCIATED PRESS

Warmer weather and sunny skies brought Ohio motorists onto the state's highways in droves over the weekend and the traffic death toll showed it.

At least 19 persons were killed on Ohio's highways, roads and streets between 6 p. m. Friday and Sunday midnight. The death toll was up sharply from last weekend, when only five persons died.

The dead:

NEW PHILADELPHIA — Darold Dennis, 15, of New Philadelphia, in a single-car crash near his home.

CIRCLEVILLE — Sharon Marie Lambert, 23, and Teresa Sue Underwood, 20, both of Washington Court House, in a two-car crash on U.S. 22 in Pickaway County about one mile west of Circleville.

COLUMBUS — John L. Hillgrove, 35, of Columbus, in a one-car accident on Alum Creek Drive in Columbus.

CAMBRIDGE — John F. Frazier, 17, of Coshocton, of injuries he received in a two-car accident Friday night on I-77 about eight miles north of Cambridge in Guernsey County.

COLUMBUS — Joseph Wiseman, 37, of Reynoldsburg, when

he was struck while pouring gas into his stalled car at Livingston and Barnett Aves.

DAYTON — David Gibson, 25, of near Dayton, in a two-car collision on Ohio 202 in Wayne Township, Montgomery County.

CLEVELAND — Melvin A. Junchowski, 29, of Middleburg Heights, early Saturday in a two-car crash on U.S. 21 in the Cleveland suburb of Independence.

CLEVELAND — Loretta Rackel, 31, of Cleveland, early Saturday when the car in which she was a passenger struck a pole at 112th and Madison streets.

CLEVELAND — John W. Chappell, 50, of Cleveland, when his car struck a tree on Cleveland's southwest side.

MANSFIELD — Thomas F. Day, 88, of Mansfield, when he was hit by a car southwest of Mansfield.

AKRON — Gary N. Gool-night, 17, of Akron, when his car slammed into a utility pole

on a southwest Akron street.

WARREN — Dennis R. Culver, 18, Bristolville, hit by a car on Ohio 45 in Bristolville.

CINCINNATI — Lulu Harris, 58, Cincinnati, injured fatally when hit by a car while crossing a Cincinnati street.

SUNDAY

AKRON — George T. Matthews, 56, Akron, struck by a car in downtown Tallmadge.

CINCINNATI — Clarence Richardson, 54, Cincinnati, when his car slammed into a utility pole along I-75 in Cincinnati.

NEWARK — Bonnie Walker, 13, and Karen Fuller, 16, both of Newark, when the car in which they were riding was struck by a freight train at a Newark crossing and knocked into the path of a second freight which hit it, causing the car to explode. The girls were trapped inside.

AKRON — Vicky Opphie, 15, Akron, of injuries received Saturday when she was hit by a car in Akron.

ABM Foes Back In Action As Nixon Urges Expansion

WASHINGTON (AP) — President Nixon has breathed new life into the anti-ABM coalition by emphasizing expansion of the Safeguard defense system to guard against a possible Red Chinese attack.

As a result, Senate opponents are prepared to make an issue of the President's change in reasoning.

Nixon has resurrected the argument used by the Johnson administration for its Sentinel ABM and dropped some he used last year for Safeguard.

"It leaves us dizzy," one key aide said after Nixon's announcement at his news conference Friday night, adding "I don't know how many times the rationale can be shifted and still have any sense of reality."

Nixon said the ABM expansion he is seeking this year involves area defense as well as the defense of Minuteman intercontinental ballistic missile (ICBM) sites that was at issue in the 1969 fight over the first two ABM sites.

The site defense aspect was a major difference between Safeguard and the Johnson administration's Sentinel ABM that emphasized area defense, especially relating to the nation's major cities.

Although details of the new ABM expansion are to be revealed later by Secretary of Defense Melvin R. Laird, defense of at least one city—Washington—is likely to be included.

Opponents were resigned to waging a token fight if the administration merely went ahead with protection of more ICBM or bomber bases.

Both arguments for the ABM were outlined last March by the President and top defense officials.

But the fact that funds were only being asked to protect the two ICBM bases had the effect of playing down the main rationale for an area defense, the potential Red Chinese threat.

Senate Democratic Leader Mike Mansfield charged Saturday that "the President has resurrected the Chinese threat which he said, about a year ago, 'I remember correctly, he couldn't buy.'"

Mansfield also questioned how an ABM expansion would affect the Strategic Arms Limitation Talks (SALT) with the Soviet Union which reopen in April.

Final Hearing On Carswell

Bayh May Ask Delay In Vote

WASHINGTON (AP) — Senate hearings on the Supreme Court nomination of G. Harrold Carswell moved into their fourth and perhaps last session today with civil rights spokesmen taking the stand against the Southern judge.

Waiting to testify before Chairman James O. Eastland, D-Miss., called the hearings to order were Joseph L. Rauh Jr., counsel for the Leadership Conference on Civil Rights, and Clarence Mitchell, director of the Washington office of the NAACP.

Eastland had said today's hearings would be the last with a vote perhaps Tuesday.

However, Sen. Birch Bayh, D-Ind., indicated he might invoke his prerogative to force a week's delay in the committee action.

Carswell, now a judge on the 5th U.S. Court of Appeals and for 11 years a U.S. District Court judge in Tallahassee, Fla., had been under sharp attack from civil rights groups even before the hearings.

Rauh told newsmen last week the Leadership Conference, composed of about 125 organizations, is even more opposed to Carswell than it was to Judge Clement F. Haynsworth, Jr., President Nixon's first nominee for the Supreme Court post vacated by Abe Fortas.

Labor leaders joined with civil rights forces in battling Haynsworth's nomination, rejected by a 55-45 Senate vote last November, but there were no signs of active opposition against Carswell despite a critical statement last week by AFL-CIO President George Meany.

Carswell denied any racial bias in his testimony last week, and Eastland and Republican leaders have predicted his nomination will be overwhelmingly confirmed by the Senate.

Cartoonist Donahay Dies

CHICAGO (AP) — William Donahay, 86, cartoonist who created and for more than a half a century drew The Teenie Weenies, a syndicated comic strip for children, died Sunday.

Donahay drew his last strip in November and had planned to retire soon. The final strip will appear Feb. 15.

The Teenie Weenies, featuring the characters of The Dunces and Mr. Chinaman, ran longer than any other strip drawn by one person.

Miller Announces He'll Run Again

WASHINGTON (AP) — Rep. Clarence Miller, R-Ohio, said today that he will be a candidate for re-election.

Miller, a member of the House Agriculture and Public Works Committees, will be seeking his third term in Congress.

Allies Kill More Than 500 Reds In Attacks

SAIGON (AP) — Allied forces claimed they killed more than 500 North Vietnamese and Viet Cong troops over the weekend in the heaviest fighting in six months. The allies reported 21 Americans and 20 South Vietnamese killed, with 160 Americans and 99 South Vietnamese wounded in more than 100 enemy rocket, mortar and ground attacks.

U.S. military spokesmen, assessing the battlefield reports, said the enemy command had launched a pre-Tet "highpoint" of activity along the populous

coastal lowlands south of Da Nang and in the Central Highlands.

Two American helicopters were downed, with five U.S. and six South Vietnamese killed and seven Americans wounded.

The surge of enemy activity came only a few days before the 40th anniversary Tuesday of the founding of the Vietnamese Communist party and the start Thursday of a four-day ceasefire that the Viet Cong proclaimed for Tet, the festival of the lunar new year.

The South Vietnamese govern-

ment is expected to announce a 24-hour cease-fire in the next few days.

Allied intelligence officers had said they anticipated an increase in enemy attacks either before or after Tet. Such temporary increases, which fall short of a sustained, countrywide offensive, are called "highpoints" by intelligence officers.

Seventy enemy rocket and mortar attacks were reported Saturday night and another 44 Sunday night, the U.S. Command said. Most were centered in the Central Highlands and the

coastal lowlands, and about two-thirds of them were directed at South Vietnamese troops and bases.

Battlefield communiques said that many of the 505 North Vietnamese and Viet Cong reported killed over the weekend were slain by allied bombers, helicopter gunships and artillery.

Spokesmen said some of the enemy dead were reported by aerial observers and others by ground units. This raised the possibility that the number was exaggerated—deliberately, through duplication, or by

Syrian, Israeli Tank Units Clash Near Golon Heights

TEL AVIV (AP) — Syrian and Israeli tank forces duelled today along the occupied Golan Heights for the fourth straight day, and the Syrians claimed two Israeli tanks were destroyed and an Israeli observation post and mortar battery destroyed.

There was no immediate report from the Israeli military command. It had denied nearly all Syrian claims of casualties and damage in the earlier fighting.

It was the heaviest fighting along the Israeli-Syrian border since the 1967 war.

A second Syrian communiqué reported that Israeli planes had strafed front-line Syrian positions, but that Syrian anti-aircraft guns scored a direct hit on one Israeli jet.

Syrian and Israeli tanks battled for nearly two hours Sunday.

Amid denials by each side of the other's damage and casualty claims, the Syrians also reported a series of aerial dogfights in which they said one Israeli jet was downed. The Israelis said no air battle took place.

The Israelis also denied a Syrian claim that five Israeli tanks were knocked out.

An Israeli military spokesman said the Syrians started the shooting Sunday along the southern sector of the heights. United Nations observers were able eventually to work out a truce.

At the same time as the Golan Heights action Sunday, Egyptian and Israeli warplanes exchanged raids in the Suez Canal area.

The Israelis reported two enemy raids at the north and south ends of the canal but said the Egyptian bombs did no damage.

A spokesman in Cairo claimed an Israeli jet was hit by Egyptian gunners and seen "crashing in flames" during an Israeli

raid on the southern sector of the canal.

Tel Aviv made no mention of any plane losses.

Cairo also claimed a formation of Israeli aircraft was driven off in the northern sector of the canal by Egyptian fighters.

Fire Destroys Farm Building Near Ashville

Fed by 1,000 bales of hay and 500 bales of straw, fire destroyed a barn on the South Bloomfield - Royaltown Road at 6 p.m. Saturday.

Harrison Township Fire Department, aided by the Lockbourne Air Base Fire Department, were unable to control the blaze. The barn and contents were a total loss.

In addition to the straw and hay the building contained a combine, lime spreader, four row cultivator and a variety of small tools. Value of the barn and contents was set at \$27,000.

The Harrison Fire Department attributed the blaze to an exploding light bulb.

Mrs. Roger Hedges of Ashville is the owner of the property.

Deaths

MRS. RUTH E. HUGHES
Mrs. Ruth E. Hughes, 53, of Chillicothe, died 11:50 p.m. Saturday at her residence.

Born Aug. 15, 1916 in Chillicothe, she was the daughter of Hobart and Bertha Fitch.

She formerly operated the Art Mart beauty parlor.

Survivors include her husband, Carroll Hughes, a daughter, Mrs. Carol Smith, Bainbridge, Md.; two grandchildren; three sisters, Mrs. Leona Leedom and Miss Irene Fitch, both of Chillicothe; Mrs. Geraldine McLeod, Galena; brothers, Virgil, Mexico City, Mex. and Donald of Galena.

She was a member of Franklin United Methodist Church.

Services will be 10:30 a.m. Wednesday at the Fawcett-Oliver and Glass Funeral Home, Chillicothe. Burial will be in Greenlawn Cemetery.

Friends may call at the funeral home 4-9 p.m. Tuesday. Memorial contributions may be made to the Ross County Cancer Society.

MRS. FLORENCE J. SIGLER
Mrs. Florence J. Sigler, 79, Route 4, died 10:05 a.m. Saturday in Doctor's Hospital, Columbus.

She was born Nov. 30, 1890 in Pike County, the daughter of Samuel and Margaret Peters Jackson.

She was a member of the East Ringgold United Methodist Church.

Surviving are her husband, Carl C. Sigler; four sons, Wayne and Gilbert, Columbus; Eugene, Route 4, Junior, Miami, Fla.; five daughters, Mrs. Opal Hedges, Route 4; Mrs. Virginia Cenci and Mrs. Mary Eckard, Lancaster; Mrs. Ruth Francis, 618 Renick Ave.; Mrs. Jean Weaver, Miami, Fla.; 24 grandchildren; 30 great-grandchildren; one sister, Mrs. Bess Cash, Route 2, Chillicothe.

Services will be held 1:30 p.m. Tuesday at the East Ringgold United Methodist Church with the Rev. John Redman and the Rev. Cecil Rice officiating. Burial will be in Floral Hills Cemetery.

Friends may call at the Defenbaugh Funeral Home.

MRS. MARGUERITE SMITH
Mrs. Marguerite Smith, 68, Bradenton, Fla., died 7:45 a.m. Sunday in Bradenton.

Born January 1904 in Stoughton, she was the daughter of Frank and Anna Stout Smith.

She was preceded in death by her first husband, Ray L. Smith.

Survivors include her husband, William H. Smith; three sons, Deryl and Lyle, both of Florida; Clyde, Columbus; two brothers, Edwin Smith, Stoughton; Harry Smith, Baltimore; and one sister, Mrs. Guy (Adeline) Chambers, Columbus.

Services will be 2 p.m. Wednesday at the Taylor Funeral Home, Amanda with burial in Dutch Hollow Cemetery.

Friends may call at the funeral home beginning 7 p.m. Tuesday.

Vehicle Pilfered
Hubert Stevens of the Adelphi-Tarleton Road notified the Pickaway County Sheriff's Department of the theft of his car Saturday.

He stated the car was parked in front of his house at 5:30 p.m. but he noticed it was missing at 7 p.m.

Traffic Slogan Contest Opens In County

February marks the opening of the 8th Ohio Annual Traffic Slogan-Essay Contest according to information received today from the Pickaway County deputy registrar.

Open to any Ohio resident, prizes will be awarded in adult and juvenile (under 16) categories.

Grand prize winner in the adult category will be presented a 1970 safety-equipped Ford Maverick automobile and Ohio license number 1. License tags this year have scarlet numbers on a grey background in honor of Ohio State University's centennial celebration.

Top winner in the juvenile division will also receive a set of special numbered license plates and \$35 cash. Second and third place winners in this division will also receive a set \$10 respectively.

Transistor radios will be presented to each county adult winner and \$5 cash to each county "under 16" winner. All will be given inscribed certificates.

Rules are as follows:
No contestant may have a driver license under suspension or have had a driver point conviction in the last 12 months.

Entrants under 16 must list their age and name of school.

Entries should name the county of residence include a slogan and brief essay. All entries must be postmarked no later than midnight March 31.

Entry blanks are available now at the deputy registrar's office in the basement of the courthouse. They may also be obtained from all Ford dealerships, all members of the Ohio Association of Insurance Agents and the Ohio Department of Highway Safety, cosponsors of the contest.

Winners will be invited to receive their awards from Gov. James A. Rhodes, Highway Safety Director Warren Nelson and representatives of cosponsoring organizations at the annual spring Traffic Safety Day luncheon, April 16, at the Columbus - Sheraton Motor Hotel, Columbus.

Local Legion Members At Conference

American Legion National Commander J. Milton Patrick, Skiatook, Oklahoma, briefed over 1500 Legionnaires and Ladies of its Auxiliary from throughout Ohio on his recent trip to Vietnam and his national program emphasizing "Unity and Service for America" during his address at the Ohio American Legion's annual Mid-Winter Conference in Columbus, Sunday.

The Conference was attended by officers and members of Hall-Adkins Post No. 134 of Circleville.

Commander Patrick stated that only a unified people who are willing to serve their country in anyway possible, will solve America's problems.

He urged members of The Legion to get involved in programs of assistance in their respective communities.

Other prominent speakers included Col. Robert M. Chiamonte, Supt. Ohio State Highway Patrol; Bill Buckingham, free lance war correspondent from Stroudsburg, Pa.; American Legion Boys Nation President, Gregory Gray, Gary, Ind.; and Ohio Legion Commander Arthur Euler, Bowling Green.

Members of the local post attending were: Roger L. Smith, Department of Ohio 1st Vice Commander; Dudley G. Radcliff, District 7 Commander; MacDonald Schumm, Post 134 Commander; Walter Pickel Jr., Post 134 Adjutant; James Price, Richard McAbee, Glenn Cook, and James McGowan.

Armed Forces Enlistees Noted

The following men from Circleville and Pickaway County enlisted for duty with various branches of the Armed Forces during the month of January. Enlisting for service with the U.S. Marines were Gregory A. Groves, Ashville; Mack Shaw Jr. and Bobby W. Young, both of Circleville.

Navy enlistees are Rudy J. Sayre, Amanda; James C. Steck, Orient; Nicholas E. Cain, Williamsport and David L. Miller, Circleville.

Walter R. Jenkins, Circleville, enlisted for duty with the U.S. Air Force and Ronald L. Clifton, Ashville, enlisted in the Army.

Stock List Stages Rally

NEW YORK (AP) — The stock market rallied sharply in moderately active trading this afternoon on the heels of President Nixon's statement Friday about easing of monetary restraints.

Analysts attributed the broad advance to the President's comments Friday he would hope that Federal Reserve Board could ease monetary restrictions. The restraints, implemented to stem inflation, have been a major market dampener in the last year.

The Dow Jones industrial average, up over 6 points earlier, flitted to 748.94, up 4.88 at noon.

Showing strength in midday trading were steels, motors, rubber issues, farm implement issues were ahead around utilities, metals, chemicals, rails, oils, airlines, tobaccos, and drugs.

Thirteen of the New York Stock Exchange's 20 most-active issues were aad around noon, with 6 on the decline and 1 unchanged. Pacing the actives was American General Insurance, up 1 to 21c on a midday volume of 91,800 shares.

Seven of the 20 active issues on the Big Board were oils. The American Stock Exchange also advanced broadly, with 15 of its 20 most-active issues ahead in midday trading. Topping the active list was LA Maur Inc., off 1 1/2 to 33, on a noontime volume of 63,200 shares, including a 62,500-share block.

Burglars Strike Area Residences

Two breaking and enterings are under investigation by the Pickaway County Sheriff's Department.

Clinton D. Lester, Mt. Sterling-Commercial Point Road, notified the sheriff someone entered his mobile home Saturday evening and took a television set, four radios, a clock and various pieces of jewelry. Value of the items is \$715.90.

The home of Terry Lee Morris, Perry Township, was also entered Saturday night and a piggy bank, clock radio and bedding were taken. Value was approximately \$120.

Judge Weds Couple

Homier Ronald Leach, Chillicothe and Alverna Lee Leach, Ashville were remarried by Judge Sterling Lamb Friday in his chambers.

COMING THURS.

Today In Washington

By THE ASSOCIATED PRESS

WASHINGTON (AP) — Sen. Edward M. Kennedy says the Transportation Department has displayed a lack of interest in the nation's school children by failing to set standards for the buses they ride.

In a letter to Transportation Secretary John A. Volpe Sunday, the Massachusetts Democrat said authority to establish such standards had been given the department by the 1966 Highway Safety Act but nothing had been done.

He also said the department had failed to offer direction in the establishment of minimum requirements for the training and qualifying of drivers.

Kennedy made eight recommendations, including performance standards for seats and the padding of seat backs and research into other safety measures.

WASHINGTON (AP) — Sen. Edmund Muskie of Maine is the frontrunning Democratic presidential prospect but President Nixon is ahead of the over-all field, says Senate Majority Leader Mike Mansfield.

Mansfield said Muskie, the Democratic vice presidential nominee in 1968, is now the party's leading candidate for the presidential nomination in 1972. He said Muskie's lead over other Democrats is "at the moment quite wide."

Asked if he thought Nixon is unbeatable, Mansfield replied, "Well, he looks like he's in the lead."

Mansfield was interviewed Sunday on ABC's television-radio program "Issues and Answers."

WASHINGTON (AP) — The Office of Economic Opportunity has reinstated a \$158,000 contract with an Atlanta consulting firm owned in part by Julian Bond, Georgia Negro legislator.

The reinstatement followed a three-month probe by the FBI. The inquiry focused on whether two of the firm's officers, Charles Black and Lonnie King, were involved in conflict-of-in-

terest situations because of government connections.

Bond had charged the investigation was racially and politically inspired.

Frontiers Unlimited was awarded the contract last July to provide technical assistance to OEO-funded programs. But it was advised in October that it would get no more assignments until the FBI and OEO had investigated several members of the firm. The reinstatement came Friday.

Black is a former employee of the Department of Health, Education and Welfare and King is still with HEW.

Capital Quote

"A lot of criminals, when they are talking among themselves, do a lot of name-dropping. They would like you to believe they know everybody—the governor and everyone else."—Sen. Hugh Scott, R-Pa., decrying name-dropping by criminals in FBI wiretaps.

Capital Footnote

All nine major U.S. trunk airlines have reached a fare-sharing agreement enabling them to keep present fares at least through April 30. The agreement, reached over the weekend, came in the face of a Civil Aeronautics Board order to cut back their fares by 6.35 per cent unless they entered such an agreement.

Woman Hurt In Accident

Mrs. Daisy B. Long, 33, 224 Third Ave., sustained a whiplash injury when the car in which she was a passenger was struck in the rear 3:45 p.m. Saturday in the intersection of Washington and Ohio Sts.

David L. Evans, 22, Meade, operator of the other vehicle, told Circleville Police he had swerved to avoid striking a child who ran onto the street. When he looked back to see if the child was all right he hit the Long vehicle, which was operated by Marsha Long, 13.

Mrs. Long was treated for her injury at Berger Hospital.

OU Campus Calm Again After Uproar

ATHENS, Ohio (AP) — Relative calm has returned to the Ohio University campus today following three minor fires, a tear gas bomb explosion and six false fire alarms Sunday.

"It's very quiet here today by comparison. There's nothing out of the ordinary," said William Steinhardt, public affairs director of the university.

Three fires erupted almost simultaneously Sunday in the library, a student union washroom and a residence hall, but all were quickly extinguished without causing damage.

A tear gas bomb exploded harmlessly outside the security police office shortly after the fires, Steinhardt said. No arrests have been made nor disciplinary action taken so far in the latest incidents.

The Sunday troubles are believed to be a result of demonstrations last Thursday and Friday when about 500 students protested a \$10 tuition hike. Forty-eight students were arrested and six have so far pleaded innocent.

Minor damage to windows and grounds was caused during the demonstrations.

Nine Receive Armed Forces Discharge

Nine Pickaway County men received a discharge from the Armed Forces in the month of January. The registrants and the branch of the service in which they completed their tour of duty are as follows:

Army — John E. Smith, Ashville; Michael A. Roof, Ashville; Michael R. Greeno, 121 1/2 S. Scioto St.; Charles R. Whaley, Williamsport; Carl E. W. Zehner, 131 E. Mount St.; and Thomas W. Diltz, 310 Crites Road;

Air Force — David A. Greene, 1077 Mulberry Road; and Michael A. Langley, Ashville; Marines — Paul F. King, Route 1.

New Citizens

MASTER GRAY
Mr. and Mrs. Harold Gray (Betty Gillian) Route 2, are the parents of a 7-pound 6-ounce son born 10:23 a.m. Sunday in Berger Hospital.

Two-Car Accident Causes Injuries

Four persons received injuries in a two-car collision shortly after midnight Saturday on Circleville-Lockbourne Road, just north of Ashville.

John J. Coffing, 33, Lockbourne Trailer Court, Ashville, was cited by Highway Patrol for failure to yield the right of way when he made a left turn in front of a vehicle driven by Lewis Schreck, 18, Ashville.

Both drivers and passengers in their autos were injured. Crencil Lazo Jr., Coffing's brother-in-law, was admitted to Berger Hospital for forehead lacerations. Schreck and his passenger, William Ratliffe, 18, also of Ashville, were treated in the emergency room for injuries to their arms and elbows.

Damage was set at \$900 to the Coffing auto and \$300 to the front of the Schreck vehicle.

Mainly About People

John Steinhauser, Williamsport, has been dismissed from Grant Hospital, Columbus.

Paul Dwight Gaines, Route 2, Logan, formerly of Circleville, is a surgical patient in Riverside Methodist Hospital, Columbus. He is in room 606.

The Pickaway Country Club annual membership meeting is scheduled for Wednesday, February 4, 1970 at 8 p.m. in the Club House. —ad.

Label Tax Forms To Avoid Errors

Many income tax errors, particularly those that delay refunds, can be eliminated by using the pre-addressed label on forms received in the mail.

Income tax returns with labels can be quickly identified and processed since they contain necessary identifying information, Paul A. Schuster, district director of Internal Revenue for Southern Ohio, said Monday.

If your name or address has changed, make the necessary corrections on the label and lightly strike through the wrong pre-printed information. If you have a refund due, this will help insure delivery of the check to the correct address.

Taxpayers should also verify that their correct social security number is entered on the return file.

The filing deadline for 1969 tax returns is April 15, 1970.

Keys Taken
Harold Hewitt, 351 E. Franklin St., reported to Circleville Police that an estimated 25 keys were taken from the local YMCA recently.

**The
Physical
Side of
"Nervousness"**

Many people are unaware that nervousness might be due to a physical disorder. By and large, the nervous patient is aware of his nervousness but wants to blame it on such things as overwork, pressure of personal problems, or just believes it is his nature to be nervous.

Such persons often undergo needless suffering and expense that could have been avoided if they had had chiropractic care at the beginning of their nervous symptoms.

In many instances nervous disorders may be readily traced to some pressing matter or emotional disturbance, and they may disappear when this cause is removed. But when the nervousness is due to some organic disorder, it is virtually impossible for the person to relax and become calm regardless of how hard he may try.

Emotional tensions, frustrations or environmental pressures often lead to the breaking point, but the nervous breakdown is usually due to physical tensions resulting from interference with the nervous system.

We find that irritations of the spinal nerves and muscles are one of the prime causes of a hypersensitive nervous system. Spinal adjustment, in most cases, offers effective relief and often permits Nature to heal the condition.

We also find that symptoms which result from such nerve irritations are in many instances very similar to those due to thorough examination can the cause be determined. We remove such tensions by locating and removing the nerve irritations which cause them.

For instance, a 41 year old housewife was referred to the chiropractor by her brother, a former chiropractic patient. In an extremely nervous, jittery voice she related that her nerves were on edge, constantly "keyed up," tired and tense all the time. She suffered nervous indigestion, had a lump in her throat she couldn't swallow and an awful taste in her mouth. She had sweating spells followed by chills. Her arms and legs often grew numb and tingled. She had a tightness in her chest that made breathing difficult. She had been told that she had bladder, rectal, and female trouble.

A nerve analysis and x-rays revealed compressed and irritated nerves in her spine. Spinal adjustments corrected and removed these nerve interferences and her miserable symptoms disappeared as Nature restored normal function. Her amazement was surpassed only by her gratitude.

You, too, may be suffering needlessly. The chiropractic profession recommends regular spinal check-ups to prevent needless illness.

Presented in the public interest for better health through chiropractic by the Circleville Chiropractic Center under the auspices of the Central Ohio Chiropractic Association.

Veal calves steady; choice and prime veals 36-43; choice and good 32

Syrian, Israeli Tank Units Clash Near Golan Heights

TEL AVIV (AP) — Syrian and Israeli tank forces duelled today along the occupied Golan Heights for the fourth straight day, and the Syrians claimed two Israeli tanks were destroyed and an Israeli observation post and mortar battery destroyed.

There was no immediate report from the Israeli military command. It had denied nearly all Syrian claims of casualties and damage in the earlier fighting.

It was the heaviest fighting along the Israeli-Syrian border since the 1967 war.

A second Syrian communiqué reported that Israeli planes had strafed front-line Syrian positions, but that Syrian anti-aircraft guns scored a direct hit on one Israeli jet.

Syrian and Israeli tanks battled for nearly two hours Sunday.

Amid denials by each side of the other's damage and casualty claims, the Syrians also reported a series of aerial dog-fights in which they said one Israeli jet was downed. The Israelis said no air battle took place.

The Israelis also denied a Syrian claim that five Israeli tanks were knocked out.

An Israeli military spokesman said the Syrians started the shooting Sunday along the southern sector of the heights. United Nations observers were able eventually to work out a truce.

At the same time as the Golan Heights action Sunday, Egyptian and Israeli warplanes exchanged raids in the Suez Canal area.

The Israelis reported two enemy raids at the north and south ends of the canal but said the Egyptian bombs did no damage.

A spokesman in Cairo claimed an Israeli jet was hit by Egyptian gunners and seen "crashing in flames" during an Israeli

raid on the southern sector of the canal.

Tel Aviv made no mention of any plane losses.

Cairo also claimed a formation of Israeli aircraft was driven off in the northern sector of the canal by Egyptian fighters.

Fire Destroys Farm Building Near Ashville

Fed by 1,000 bales of hay and 500 bales of straw, fire destroyed a barn on the South Bloomfield - Royalton Road at 6 p.m. Saturday.

Harrison Township Fire Department, aided by the Lockbourne Air Base Fire Department, were unable to control the blaze. The barn and contents were a total loss.

In addition to the straw and hay the building contained a combine, lime spreader, four row cultivator and a variety of small tools. Value of the barn and contents was set at \$27,000.

The Harrison Fire Department attributed the blaze to an exploding light bulb.

Mrs. Roger Hedges of Ashville is the owner of the property.

Deaths

MRS. RUTH E. HUGHES
Mrs. Ruth E. Hughes, 53, of Chillicothe, died 11:50 p.m. Saturday at her residence.

Born Aug. 15, 1916 in Chillicothe, she was the daughter of Hobart and Bertha Lowry Pich.

She formerly operated the Art Mart beauty parlor.

Survivors include her husband, Carroll Hughes, a daughter, Mrs. Carol Smith, Bainbridge, Md.; two grandchildren; three sisters, Mrs. Leona Leedom and Miss Irene Fitch, both of Chillicothe; Mrs. Geraldine McLeod, Galena; brothers, Virgil, Mexico City, Mex. and Donald of Galena.

She was a member of Frankfort United Methodist Church.

Services will be 10:30 a.m. Wednesday at the Fawcett-Oliver and Glass Funeral Home, Chillicothe. Burial will be in Greenlawn Cemetery.

Friends may call at the funeral home 4-9 p.m. Tuesday. Memorial contributions may be made to the Ross County Cancer Society.

MRS. FLORENCE J. SIGLER
Mrs. Florence J. Sigler, 79, Route 4, died 10:05 a.m. Saturday in Doctor's Hospital, Columbus.

She was born Nov. 30, 1890 in Pike County, the daughter of Samuel and Margaret Peters Jackson.

She was a member of the East Ringgold United Methodist Church.

Surviving are her husband, Carl C. Sigler; four sons, Wayne and Gilbert, Columbus; Eugene, Route 4; Junior, Miami, Fla.; five daughters Mrs. Opal Hedges, Route 4; Mrs. Virginia Cenci and Mrs. Mary Eckard, Lancaster; Mrs. Ruth Francis, 618 Renick Ave.; Mrs. Jean Weaver, Miami, Fla.; 24 grandchildren; 30 great-grandchildren; one sister, Mrs. Bess Cash, Route 2, Chillicothe.

Services will be held 1:30 p.m. Tuesday at the East Ringgold United Methodist Church with the Rev. John Redman and the Rev. Cecil Rice officiating. Burial will be in Floral Hills Cemetery.

Friends may call at the Defenbaugh Funeral Home.

MRS. MARGUERITE SMITH
Mrs. Marguerite Smith, 66, Bradenton, Fla., died 7:45 a.m. Sunday in Bradenton.

Born January 1904 in Stoutsville, she was the daughter of Frank and Anna Stout Smith.

She was preceded in death by her first husband, Ray L. Smith.

Survivors include her husband, William H. Smith; three sons, Deryl and Lyle, both of Florida; Cloyce, Columbus; two brothers, Edwin Smith, Stoutsville; Harry Smith, Baltimore; and one sister, Mrs. Guy (Adeline) Chambers, Columbus.

Services will be 2 p.m. Wednesday at the Taylor Funeral Home, Amanda with burial in Dutch Hollow Cemetery.

Friends may call at the funeral home beginning 7 p.m. Tuesday.

Vehicle Pilfered
Hubert Stevens of the Adelphi-Tarleton Road notified the Pickaway County Sheriff's Department of the theft of his car Saturday.

He stated the car was parked in front of his house at 5:30 p.m. but he noticed it was missing at 7 p.m.

Traffic Slogan Contest Opens In County

February marks the opening of the 8th Ohio Annual Traffic Safety Slogan-Essay Contest according to information received today from the Pickaway County deputy registrar.

Open to any Ohio resident, prizes will be awarded in adult and juvenile (under 16) categories.

Grand prize winner in the adult category will be presented a 1970 safety-equipped Ford Maverick automobile and Ohio license number 1. License tags this year have scarlet numbers on a grey background in honor of Ohio State University's centennial celebration.

Top winner in the juvenile division will also receive a set of special numbered license plates and \$35 cash. Second and third place winners in this division will also receive a set \$10 respectively.

Transistor radios will be presented to each county adult winner and \$5 cash to each county "under 16" winner. All will be given inscribed certificates.

Rules are as follows:
No contestant may have a driver license under suspension or have had a driver point conviction in the last 12 months.

Entrants under 16 must list their age and name of school. Entries should name the county of residence include a slogan and brief essay. All entries must be postmarked no later than midnight March 31.

Entry blanks are available now at the deputy registrar's office in the basement of the courthouse. They may also be obtained from all Ford dealerships, all members of the Ohio Association of Insurance Agents and the Ohio Department of Highway Safety, cosponsors of the contest.

Winners will be invited to receive their awards from Gov. James A. Rhodes, Highway Safety Director Warren Nelson and representatives of co-sponsoring organizations at the annual spring Traffic Safety Day luncheon, April 16, at the Columbus Sheraton Motor Hotel, Columbus.

Local Legion Members At Conference
American Legion National Commander J. Milton Patrick, Skiatook, Oklahoma, briefed over 1500 Legionnaires and Ladies of its Auxiliary from throughout Ohio on his recent trip to Vietnam and his national program emphasizing "Unity and Service for America" during his address at the Ohio American Legion's annual Mid-Winter Conference in Columbus, Sunday.

The conference was attended by officers and members of Hall-Adkins Post No. 134 of Circleville.

Commander Patrick stated that only a unified people who are willing to serve their country in any way possible, will solve America's problems.

He urged members of The Legion to get involved in programs of assistance in their respective communities.

Other prominent speakers included Col. Robert M. Chlamonte, Supt. Ohio State Highway Patrol; Bill Buckingham, free lance war correspondent from Stroudsburg, Pa.; American Legion Boys Nation President, Gregory Gray, Gary, Ind.; and Ohio Legion Commander Arthur Euler, Bowling Green.

Members of the local post attending were: Roger L. Smith, Department of Ohio 1st Vice Commander; Dudley G. Radcliff, District 7 Commander; MacDonald Schumm, Post 134 Commander; Walter Pickel Jr., Post 134 Adjutant; James Price, Richard McAbee, Glenn Cook, and James McGowan.

Armed Forces Enlistees Noted
The following men from Circleville and Pickaway County enlisted for duty with various branches of the Armed Forces during the month of January. Enlisting for service with the U.S. Marines were Gregory A. Groves, Ashville; Mack Shaw Jr. and Bobby W. Young, both of Circleville.

Navy enlistees are Rudy J. Sayre, Amanda; James C. Steck, Orient; Nicholas E. Cain, Williamsport and David L. Miller, Circleville.

Walter R. Jenkins, Circleville, enlisted for duty with the U.S. Air Force and Ronald L. Clifton, Ashville, enlisted in the Army.

Stock List Stages Rally

NEW YORK (AP) — The stock market rallied sharply in moderately active trading this afternoon on the heels of President Nixon's statement Friday about easing of monetary restraints.

Analysts attributed the broad advance to the President's comments Friday he would hope that Federal Reserve Board could ease monetary restrictions. The restraints, implemented to stem inflation, have been a major market dampener in the last year.

The Dow Jones industrial average, up over 6 points earlier, flitted to 748.94, up 4.88 at noon.

Showing strength in midday trading were steels, motors, rubber issues, farm implements, metals, chemicals, rails, oils, airlines, tobaccos, and drugs.

Thirteen of the New York Stock Exchange's 20 most-active issues were ahead around noon, with 6 on the decline and 1 unchanged. Pacing the actives was American General Insurance, up 1 to 21c on a midday volume of 91,800 shares.

Seven of the 20 active issues on the Big Board were oils. The American Stock Exchange also advanced broadly, with 15 of its 20 most-active issues ahead in midday trading. Topping the active list was LA Maur Inc., off 1 1/2 to 33, on a noontime volume of 63,200 shares, including a 62,500-share block.

Asked if he thought Nixon is unbeatable, Mansfield replied, "Well, he looks like he's in the lead."

Mansfield was interviewed Sunday on ABC's television-radio program "Issues and Answers."

WASHINGTON (AP) — The Office of Economic Opportunity has reinstated a \$158,000 contract with an Atlanta consulting firm owned in part by Julian Bond, Georgia Negro legislator.

The reinstatement followed a three-month probe by the FBI. The inquiry focused on whether two of the firm's officers, Charles Black and Lonnie King, were involved in conflict-of-interest situations because of government connections.

Bond had charged the investigation was racially and politically inspired.

Frontiers Unlimited was awarded the contract last July to provide technical assistance to OEO-funded programs. But it was advised in October that it would get no more assignments until the FBI and OEO had investigated several members of the firm. The reinstatement came Friday.

Black is a former employee of the Department of Health, Education and Welfare and King is still with HEW.

Capital Quote
"A lot of criminals, when they are talking among themselves, do a lot of name-dropping. They would like you to believe they know everybody—the governor and everyone else."—Sen. Hugh Scott, R-Pa., decrying name-dropping by criminals in FBI wiretaps.

Capital Footnote
All nine major U.S. trunk airlines have reached a fare-sharing agreement enabling them to keep present fares at least through April 30. The agreement, reached over the weekend, came in the face of a Civil Aeronautics Board order to cut back their fares by 6.35 per cent unless they entered such an agreement.

Woman Hurt In Accident
Mrs. Daisy B. Long, 33, 224 Third Ave., sustained a whiplash injury when the car in which she was a passenger was struck in the rear 3:45 p.m. Saturday in the intersection of Washington and Ohio Sts.

David L. Evans, 22, Meade, operator of the other vehicle, told Circleville Police he had swerved to avoid striking a child who ran onto the street. When he looked back to see if the child was all right he hit the Long vehicle, which was operated by Marsha Long, 13.

Mrs. Long was treated for her injury at Berger Hospital.

OU Campus Calm Again After Uproar
ATHENS, Ohio (AP) — Relative calm has returned to the Ohio University campus today following three minor fires, a tear gas bomb explosion and six false fire alarms Sunday.

"It's very quiet here today by comparison. There's nothing out of the ordinary," said William Steinhardt, public affairs director of the university.

Three fires erupted almost simultaneously Sunday in the library, a student union washroom and a residence hall, but all were quickly extinguished without causing damage.

A tear gas bomb exploded harmlessly outside the security police office shortly after the fires, Steinhardt said. No arrests have been made nor disciplinary action taken so far in the latest incidents.

The Sunday troubles are believed to be a result of demonstrations last Thursday and Friday when about 500 students protested a \$10 tuition hike. Forty-eight students were arrested and six have so far pleaded innocent.

Minor damage to windows and grounds was caused during the demonstrations.

Today In Washington

By THE ASSOCIATED PRESS
WASHINGTON (AP) — Sen. Edward M. Kennedy says the Transportation Department has displayed a lack of interest in the nation's school children by failing to set standards for the buses they ride.

In a letter to Transportation Secretary John A. Volpe Sunday, the Massachusetts Democrat said authority to establish such standards had been given the department by the 1966 Highway Safety Act but nothing had been done.

He also said the department had failed to offer direction in the establishment of minimum requirements for the training and qualifying of drivers.

Kennedy made eight recommendations, including performance standards for seats and the padding of seat backs and research into other safety measures.

WASHINGTON (AP) — Sen. Edmund Muskie of Maine is the frontrunning Democratic presidential prospect but President Nixon is ahead of the over-all field, says Senate Majority Leader Mike Mansfield.

Mansfield said Muskie, the Democratic vice presidential nominee in 1968, is now the party's leading candidate for the presidential nomination in 1972. He said Muskie's lead over other Democrats is "at the moment quite wide."

Asked if he thought Nixon is unbeatable, Mansfield replied, "Well, he looks like he's in the lead."

Mansfield was interviewed Sunday on ABC's television-radio program "Issues and Answers."

Nine Receive Armed Forces Discharge

Nine Pickaway County men received a discharge from the Armed Forces in the month of January. The registrants and the branch of the service in which they completed their tour of duty are as follows:

Army — John E. Smith, Ashville; Michael A. Roof, Ashville; Michael R. Greene, 121 1/2 S. Scioto St.; Charles R. Whaley, Williamsport; Carl E. W. Zehner, 131 E. Mound St.; and Thomas W. Diltz, 310 Crites Road.

Air Force — David A. Greene, 1077 Mulberry Road; and Michael A. Langley, Ashville; Marines — Paul F. King, Route 1.

New Citizens
MASTER GRAY
Mr. and Mrs. Harold Gray (Betty Gillian) Route 2, are the parents of a 7-pound 6-ounce son born 10:23 a.m. Sunday in Berger Hospital.

Two-Car Accident Causes Injuries
Four persons received injuries in a two-car collision shortly after midnight Saturday on Circleville-Lockbourne Road, just north of Ashville.

John J. Coffing, 33, Lockbourne Trailer Court, Ashville, was cited by Highway Patrol for failure to yield the right of way when he made a left turn in front of a vehicle driven by Lewis Schreck, 18, Ashville.

Both drivers and passengers in their autos were injured. Crecencil Lazo Jr., Coffing's brother-in-law, was admitted to Berger Hospital for forehead lacerations. Schreck and his passenger, William Ratliffe, 18, also of Ashville, were treated in the emergency room for injuries to their arms and elbows.

Damage was set at \$900 to the Coffing auto and \$300 to the front of the Schreck vehicle.

Page Rank Set At K Of P Lodge
Page Rank will be conferred on Carl Hawks during ceremonies tonight at Phillos Lodge 64, Knights of Pythias, according to chancellor commander Raymond Winner.

Milo Wise, master of work, will conduct the initiatory work. Business session will get underway at 8 p.m. with the initiation to follow. Lunch will be served at the close of the evening's activities.

Policeman Resigns Local Department
Curtis Reed, Kingston, has resigned from the Circleville Police Force it was announced today by Chief of Police Robert Temple.

Chief Temple said that Reed gave no reason for the resignation, which was effective Sunday. The local department is now one man short of its authorized strength.

Reed was one of the newer members of the force.

School Completed
Circleville Patrolman Francis Smallwood has completed a week-long sex offense school at Case Western Reserve University, Cleveland, Chief of Police Robert Temple announced today.

Mainly About People
John Steinhauser, Williamsport, has been dismissed from Grant Hospital, Columbus.

Paul Dwight Gaines, Route 2, Logan, formerly of Circleville, is a surgical patient in Riverside Methodist Hospital, Columbus. He is in room 606.

The Pickaway Country Club annual membership meeting is scheduled for Wednesday, February 4, 1970 at 8 p.m. in the Club House.

Keys Taken
Harold Hewitt, 351 E. Franklin St., reported to Circleville Police that an estimated 25 keys were taken from the local YMCA recently.

A THOUGHT FOR TODAY
He who fears he will suffer, already suffers because of his fear.

—Montaigne
Presented As A Public Service Every Day By FIRST NATIONAL BANK Circleville

The Physical Side of "Nervousness"

Many people are unaware that nervousness might be due to a physical disorder. By and large, the nervous patient is aware of his nervousness but wants to blame it on such things as overwork, pressure of personal problems, or just believes it is his nature to be nervous.

Such persons often undergo needless suffering and expense that could have been avoided if they had had chiropractic care at the beginning of their nervous symptoms.

In many instances nervous disorders may be readily traced to some pressing matter or emotional disturbance, and they may disappear when this cause is removed. But when the nervousness is due to some organic disorder, it is virtually impossible for the person to relax and become calm regardless of how hard he may try.

Emotional tensions, frustrations or environmental pressures often lead to the breaking point, but the nervous breakdown is usually due to physical tensions resulting from interference with the nervous system.

We find that irritations of the spinal nerves and muscles are one of the prime causes of a hypersensitive nervous system. Spinal adjustment, in most cases, offers effective relief and often permits Nature to heal the condition.

We also find that symptoms which result from such nerve irritations are in many instances very similar to those due to emotional upsets or environment and only through a thorough examination can the cause be determined. We re-irritations which cause them.

For instance, a 41 year old housewife was referred to the chiropractor by her brother, a former chiropractic patient. In an extremely nervous, jittery voice she related that her nerves were on edge, constantly "keyed up," tired and tense all the time. She suffered nervous indigestion, had a lump in her throat she couldn't swallow and an awful taste in her mouth. She had sweating spells followed by chills. Her arms and legs often grew numb and tingled. She had a tightness in her chest that made breathing difficult. She had been told that she had bladder, rectal, and female trouble.

A nerve analysis and x-rays revealed compressed and irritated nerves in her spine. Spinal adjustments corrected and removed these nerve interferences and her miserable symptoms disappeared as Nature restored normal function. Her amazement was surpassed only by her gratitude.

You, too, may be suffering needlessly. The chiropractic profession recommends regular spinal check-ups to prevent needless illness.

Presented in the public interest for better health through chiropractic by the Circleville Chiropractic Center under the auspices of the Central Ohio Chiropractic Association.

Benner Scholarship; Jonah Mitchell, Swartz Scholarship; Wayne Reynolds, Harlan Himes Scholarship; Ed Biggs, Springer Scholarship. Not shown and receiving scholarships are: Chris Meenach, Ira Swearingen Scholarship and Art Penird, Frisbie Grant.

Bible College News

Revivals Are Traditional At Semester

It is traditional at CBC to have special services the first week of each semester. The administration feels that for a college which specializes in training young people for church vocations, this is both desirable and beneficial.

Through the years these meetings have served to help students settle spiritual issues and evaluate their life goal. In this age of rebellion and revolt from tradition, students feel this is a good beginning.

"It gets us off on the right foot," commented one sophomore.

Three freshmen interviewed gave these comments. "It helps us get acquainted and puts us all on the same level." "It helps students adjust to the atmosphere of a Christian school." "It's great!"

"Settling spiritual questions clears your mind for academic things," another student, a junior, added.

With faculty and student support as strong as it is and with CBC the kind of school it is, revivals will continue to be a vital part of campus life.

"THE GUY'S GOT STYLE" was a young woman's comment when Dr. Wernher Von Braun made this "with it" appearance at a recent NASA meeting in Washington. The mustache and beard are fairly new. So is his job, beginning in March when he will be 58—new NASA post of deputy administrator for planning (future space exploration). Von Braun, "looted" from Hitler's lost legions after World War II, has been director of Marshall Spaceflight Center, Huntsville, Ala.

Students Record Winter Activities At Bible College

December and January have been busy ones at Circleville Bible College. December began with a decorating party on Dec. 5, which left the campus in a beautiful holiday dress.

The Christmas concert was Dec. 12 at the Junior High auditorium. This excellent program, under the direction of Mrs. Glenna Brown, beautifully portrayed both the excitement that precedes this most celebrated of all holidays, and the deep religious significance surrounding the advent of the Son of God.

December 18 was the all-school Christmas party featuring Mr. Amos H. Santa Claus. All good children (and a few who were not so good) received something from St. Nick. The night's program ended with a Christmas message by Rev. Thomas Hermiz, Lancaster.

From Dec. 19 to Jan. 5, students vacated the campus to spend the holidays with their families.

Two weeks later, students began taking exams, a sign held Dec. 12 at the Junior High semester on Jan. 23.

January 16-27 students began for second semester. To date 184 have been enrolled. Among these are two foreign students.

CBC Campus Center Opens

January 6 marked an important event at CBC — the opening of the Campus Center.

Although not luxurious, it is adequate for the recreational needs of the college. The lower floor contains a snack bar, shower facilities, office and storage facilities for equipment and a gymnasium. Besides a basketball court, two shuffleboard courts and a portable stage are provided.

On the second story there is a women's lounge, a work room for the yearbook staff, lounge area, ping pong tables and a mailroom.

For the last several years, the physical education classes have rented the YMCA and the Coliseum to provide for winter sports. Instructors are well agreed that it is great not having to spend the time traveling to another gym. This building has been largely built through the support of the youth department of Churches of Christ in Christian Union.

Mrs. P. K. Sam of Kerala, India and Mr. Jean Albert, Haiti.

Revival week was held Jan. 27-30 with Rev. Thomas Hermiz, CBC alumnus and pastor in Lancaster, as the evangelist.

How Weather Looks Today

OHIO WEATHER SUMMARY
COLUMBUS, Ohio (AP)—The official weather bureau summary:

Ohio's fine weather came to an end rather abruptly overnight as a mixture of rain and snow which began in the southwest portion of the state Sunday spread to all corners of the state by morning. Cold wave warnings have been issued for all of Ohio by Tuesday morning as temperatures tumble to 5 below northwest to 10 above southeast. Strong northwesterly winds of 25 to 35 m.p.h. are forecast to add to the discomfort of the cold blast expected to reach western Ohio this afternoon. The mixture of rain and snow this morning will change to light snow or flurries as the colder air arrives this afternoon and evening. Snow flurries will be most persistent in the northeast portion of the state near Lake Erie tonight and Tuesday. High temperatures on Tuesday are forecast mostly in the teens except the low 20s along the Ohio River.

FORECASTS

OHIO — Cold wave warning. Snow flurries, windy and turning much colder west this afternoon and east tonight with a cold wave entire state by Tuesday morning. Temperatures falling to 5 below northwest to 10 above southeast Tuesday morning. Partly cloudy, windy and much colder Tuesday with snow flurries northeast.

NORTHWEST INLAND AND WEST LAKE SHORE OHIO—Cold wave warning. Snow flurries, windy and turning much colder this afternoon and tonight with a cold wave by Tuesday morning. Temperatures falling to 5 below to 5 above by Tuesday morning. Partly cloudy, windy and much colder Tuesday with a chance of snow flurries. High in the teens.

WEST CENTRAL & SOUTHWEST OHIO—Cold wave warning. Snow flurries, windy and turning much colder this after-

Sign - Carrying Secretary Protests Cincinnati Strike

CINCINNATI, Ohio (AP) — "I have absolutely no group behind me, but I've got a beef as a citizen," says Ida Born, a sign-carrying secretary who strolled about town protesting the 29-day-old strike by city employees.

"I'm not a nut, simply a scared secretary who can't afford to pay taxes on these new salaries," said the 49-year-old woman, obviously irked about marking the end of the first 1,500 striking members of the Municipal Employees Union.

Virtually no one in this city of 500,000 has been able to escape the effects of the strike by sanitation, street, waterworks, sewage and maintenance workers.

However, most Cincinnati seem to be taking it in stride.

"I hit one hole the other day and thought I would have to wage demands being made by wagon out of it," mused Gary

Standord about the growing chuckholes in the city streets.

"Many people in the city are apparently taking garbage and dumping it along county roads," said George Bailey, director of environmental health for the Hamilton County Health Board.

"It's probably going to be months before we get this cleaned up."

Miss Born, who did her picketing Sunday, apparently is the first Cincinnati to actively protest.

"This thing hits me right in the pocketbook," she said.

"They'll be making more money than I do, with less qualifications, and that's not fair."

Negotiations between the city and union, directed by a federal mediator, broke off last Friday. City Manager Richard

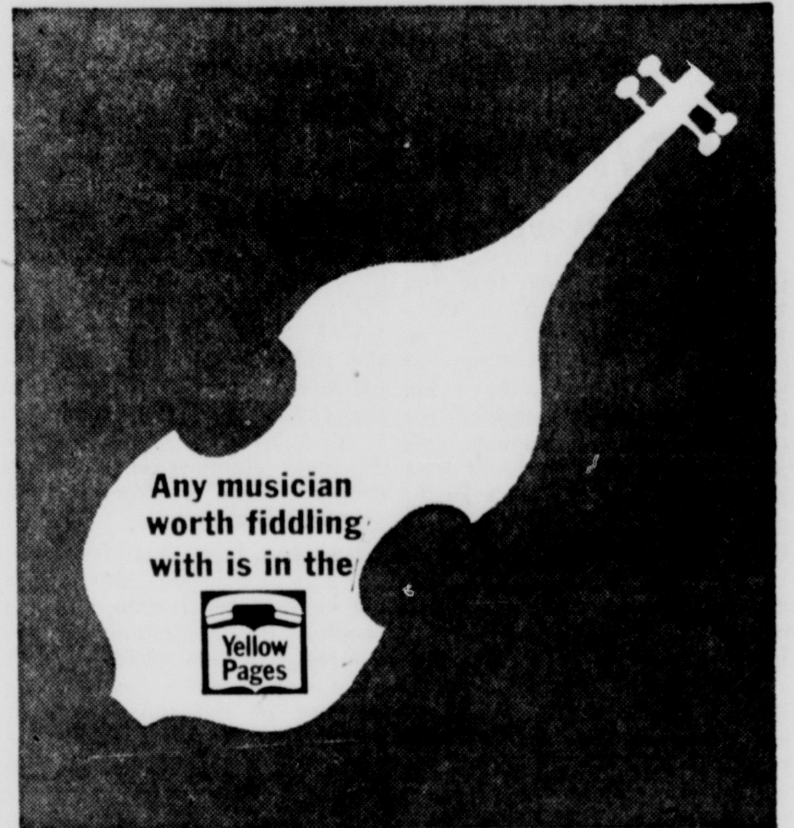

Krabach called the union's demands unrealistic.

At the last session, the union rejected the city's latest wage proposal — hourly increases ranging from 21 to 26 cents. The union countered with demands of 29 to 39 cents hourly.

The apricot is native of China and Japan.

GETTING UP NIGHTS MAKES MANY FEEL OLD

Common Kidney or Bladder Irritations make many men and women feel tense and nervous from frequent, burning or itching urination night and day. Secondly, you may lose sleep and have Headache, Backache and feel older, tired, depressed. In such cases, CYSTEX usually brings relaxing comfort by curbing irritating germs in acid urine and quickly easing pain. Get CYSTEX at drugists.

SCHOLARSHIP RECIPIENTS — Awarded scholarships during the first semester were 15 students of the Circleville Bible College, based on need, scholastic achievement, and other special requirements. Recipients shown from the left and their awards are: Theresa Hamilton, Harold Middletown Scholarship; Elaine Goble and Carol Martin, L. C. Benner Scholarship; Jane Zendi, Christian Service Scholarship; Vicki Krautter, Barco Chemicals Maintenance Award; Beverly Shaw, Ford and Edgington Scholarship. Standing, from the left are: John Meadows, Hilltop Mission Scholarship; Earl Blair and David Buffong, L. C. Benner Scholarship; Jonah Mitchell, Swartz Scholarship; Wayne Reynolds, Harlan Himes Scholarship; Ed Biggs, Springer Scholarship. Not shown and receiving scholarships are: Chris Meenach, Ira Swearingen Scholarship and Art Penird, Frisbie Grant.

Bible College News

Revivals Are Traditional At Semester

It is traditional at CBC to have special services the first week of each semester. The administration feels that for a college which specializes in training young people for church vocations, this is both desirable and beneficial.

Through the years these meetings have served to help students settle spiritual issues and evaluate their life goal. In this age of rebellion and revolt from tradition, students feel this is a good beginning.

"It gets us off on the right foot," commented one sophomore.

Three freshmen interviewed gave these comments. "It helps us get acquainted and puts us all on the same level." "It helps students adjust to the atmosphere of a Christian school." "It's great!"

"Settling spiritual questions clears your mind for academic things," another student, a junior, added.

With faculty and student support as strong as it is and with CBC the kind of school it is, revivals will continue to be a vital part of campus life.

Students Record Winter Activities At Bible College

December and January have been busy ones at Circleville Bible College. December began with a decorating party on Dec. 5, which left the campus in a beautiful holiday dress.

The Christmas concert was Dec. 12 at the Junior High auditorium. This excellent program, under the direction of Mrs. Glenna Brown, beautifully portrayed both the excitement that precedes the most celebrated of all holidays, and the deep religious significance surrounding the advent of the Son of God.

December 18 was the all-school Christmas party featuring Mr. Amos H. Santa Claus. All good children (and a few who were not so good) received something from St. Nick. The night's program ended with a Christmas message by Rev. Thomas Hermiz, Lancaster.

From Dec. 19 to Jan. 5, students vacated the campus to spend the holidays with their families.

Two weeks later, students began taking exams, a sign held Dec. 12 at the Junior High semester on Jan. 23.

January 16-27 students began for second semester. To date 184 have been enrolled. Among these are two foreign students.

CBC Campus Center Opens

January 6 marked an important event at CBC — the opening of the Campus Center.

Although not luxurious, it is adequate for the recreational needs of the college. The lower floor contains a snack bar, shower facilities, office and storage facilities for equipment and a gymnasium. Besides a basketball court, two shuffleboard courts and a portable stage are provided.

On the second story there is a women's lounge, a work room for the yearbook staff, lounge area, ping pong tables and a mailroom.

Tipsy Pilots

Pilots are a more responsible group of drivers than motorists. The standards they must meet to receive a pilot's license are more exacting than those required for a motorist. And there are few pilots who would think of taking to the air after a stop at the neighborhood tavern, a precaution many motorists have not learned.

But there are a few licensed pilots who do take the controls of a plane after drinking, and that is too many. Statistics compiled by the Federal Aviation Agency for 1967, the latest available, reveal there were 1,228 fatal general aviation accidents. Of these, 375 victims were tested for blood alcohol.

Ninety of those tested were found to have positive levels, and 42 were found to have sufficient levels to be intoxicated. Thus of all the fatalities, 4 per cent are known to have been intoxicated, twice that number had been drinking to some extent and a large number were not tested for alcohol.

With this knowledge before it, the FAA's aero medical division should make every effort to extend its post-accident testing to discover the full extent of the problem. And the FAA should take sterner action to keep such pilots on the ground.

The Aircraft Owners and Pilots Association (representing 150,000 pilots) has recommended a change in federal regulations concerning the drinking pilot. Present rules prohibit a pilot from flying while under the influence of alcohol, an ambiguous statement which can lead to disputes over when an individual is intoxicated.

The AOPA wants the rules changed to prohibit any person from flying within eight hours after consuming alcoholic beverages or drugs which could impair his judgment. Coming from the pilots' own association, the FAA should have little cause not to give the recommendation urgent consideration. In an age of increasing congestion, the air ways do not need pilots not in command of their faculties.

From Russia, Without Love?

By JOHN CHAMBERLAIN

President Richard Nixon still maintains his hopes that the Era of Confrontation in U.S.-Russian relations will be replaced by the Era of Negotiation. He may have his reasons for feeling sanguine, for the Soviets, facing troubles with the Red Chinese on their long Asiatic border, are obviously not anxious to pick fights on their western front. But if there are to be significant negotiations, they will be taking place in a pretty chilly atmosphere.

The truth is that the "to Russia with love" gambit is becoming increasingly barren of results. Our cultural exchanges with the Soviet Union must be close to an all-time low. Where are the Russian poets who, a few years ago, were touring U.S. campuses and reading from their works? Some young friends of mine who had signed up for a student tour of western

Russia next summer have had their project cancelled. Only a few Soviet engineers and technologists, including a few in the field of atomic energy applications, have been coming to the U.S. during the last year. I am told that the number of graduate students in exchange programs has dwindled to the smallest in a decade.

So there is a deep freeze in the sort of relations that makes for easy fraternization between peoples. But something new is evidently in the works, and it has sinister connotations because of the uncertainty it introduces. I have it on good authority, from a friend who speaks Russian as fluently as he speaks English, that hundreds of "unofficial visitors" from the Soviet Union have been coming to the U.S. in recent weeks. They get visas good for a three-to-six months stay. Many of them are young.

They come ostensibly to visit relatives who are now U.S. citizens and residents. Many of the hosts of the new tourists are listed in the Soviet Union as "traitors," or as "Nazi collaborators," which could be taken as a surface indication that the "unofficial visitors" from Russia are not going to receive any significant help in spying. But my friend who speaks Russian and has been sought out by some of the visitors pose a disturbing question.

Why, he asks, has Moscow cleared young Russians for passports in situations which, one or two years ago, would have resulted in a cold and clammy turn-down?

My friend guesses that Moscow is exploiting humanitarian considerations for political ends. He says we could be dealing "with a large scale KGB (secret police) operation aimed at finding out who is recruitable for their needs among the ex-Soviet citizens."

The reason for this presumed turn in Soviet spy tactics could be rooted in the success of the FBI in infiltrating the ranks of the U.S. Communist Party.

"The comrades" says my friend, "are exploring a new 'mass base.' I am sure every visitor is carefully debriefed upon his return to Russia by KGB guys, to find out the frame of mind of their American hosts. If, in this way, they bag a dozen or two useful contacts, the operation would prove worthwhile especially since the costs of the visitors' staying in this country are borne by their hosts. Since Aeroflot has instituted the flights between Moscow and New York, no dollars (which are scarce) are needed for the travel: it can be paid in rubles."

My friend is not of a suspicious nature. The prime reason for his conjectures about a Russian secret police operation is that, though he himself has long been on the Moscow black list as a "defector," he has found himself being questioned by Russian visitors about such things as the true status of U.S.-Red Chinese relations. It wasn't so long ago that he would have been shunned like the plague by any visitor from the Soviet Union.

Dad, 2 Children Killed In Blaze

DAYTON, Ohio (AP) — Mrs. Jerry R. Krug came home from work late Saturday to find her home at nearby Union filled with smoke. Her husband and two children were inside, dead.

Officials said Krug, 31, his 3-year-old stepson Lawrence R. McDonnell and 6-month-old son William died of smoke inhalation. Firemen said the blaze started in an overheated stove, causing extensive damage to the ranch-style house.

McBride Case Given To Jury

ATHENS, Ohio (AP) — First-degree murder charges against Barbara McBride, 26, of Marietta, will be presented to the Athens County grand jury today.

Mrs. McBride is accused in the deaths of her two sons, Bryan, 3, and 3-month-old Chris. Their bodies were found in a rural area north of Athens Jan. 1 after Mrs. McBride told police she abandoned them.

Autopsy reports returned Saturday confirmed the coroner's preliminary report which said the older boy died of suffocation and the infant of exposure.

Mrs. McBride currently is being held for observation at Lima State Hospital.

Laff-A-Day

Try and Stop Me

By BENNETT CERF

A BADLY bruised lady staggered into a police station, sporting a black eye and numerous abrasions to support her contention that she had been beaten up by a particularly brutal assailant.

"Don't you worry, lady," the police lieutenant assured her. "Just describe this bum to me and we'll have him behind bars in no time at all."

"But I don't want him behind bars," waited the complainant. "Just find him for me. He promised to marry me!"

Henry Fielding, the great English novelist, way back in the 1740's, anticipated the trend of fiction of the 1960's. In his still-widely-read "Jonathan Wild," for example, there occurs this memorable sentence: "He in a few moments ravished this fair creature, or at least would have ravished her, if she had not, by a timely compliance, prevented him."

DIALOGUE:

- Husband: "It must be time to get up."
Wife: "How can you tell?"
Husband: "The baby has fallen asleep at last."
- Customer: "How much are your tomatoes today?"
Grocer: "Thirty cents a pound."
Customer: "Did you raise them yourself?"
Grocer: "Yes, they were twenty-eight cents yesterday."

Speaking Of Your Health

By Lester L. Coleman, M.D.

Our 16-year-old son has just joined a mountain climbing club. We have not dissuaded him from this, but we wonder if climbing can affect his heart in later life.

Mr. and Mrs. H.K., Colorado Dear Mr. and Mrs. K.: The sport of mountain climbing is an invigorating one and has many exciting aspects. The modern mountain climber, especially those who affiliate with a club, slowly condition themselves to this rigorous sport and use new and excellent scientific equipment for safety. Mountain climbing probably has fewer accidents than the body-contact sports, but all sports carry with them some degree of injury. Most injuries in all sports can usually be traced to poor training, inadequate conditioning, bad equipment and personal carelessness. Unless these factors are taken into consideration, accidents are invited.

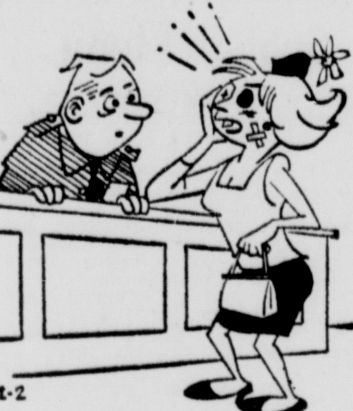

I believe you will gain a great sense of security if your son will first have a complete medical examination. The absence of any heart, lung or circulatory conditions will allow him to enjoy this sport. There is no chance that it will in any way affect his later health other than to give him greater strength, agility and confidence. As one who climbed a great deal during medical school, I recall the tremendous joy and gratification it gave me. I hope you encourage your son to seek this pleasure. His coach undoubtedly will keep him within the bounds of safety.

Is there more than one type of high blood pressure?

Mrs. J.M., Maryland Dear Mrs. M.: It is a mistake to believe that high blood pressure, or hypertension, is in itself a disease. It is not. High blood pressure is a symptom of some underlying condition, and therefore its control must necessarily depend on finding that basic disorder. Only then can high blood pressure be properly kept in check.

From a technical point of view, physicians think of high blood pressure, or hypertension, as being of two types. Organic hypertension may be traced to conditions that involve the circulatory system, the kidneys and the hormone or endocrine system. Attention, therefore, is devoted to these organs and corrected whenever possible. The other type of hypertension is known as the "essential" type. By far the largest group falls into this category.

There was a time not many

NEW YORK (AP) — Many economists saw their shadows today.

Rising from piles of statistics, they noted that the very sunshine that warmed the nests of Americans for several years was now brewing a dark and troubling storm. If not frightened, they were disturbed.

The bad news, they noted, is a compound of an economic expansion that is slowing almost to a halt simultaneously with an acceleration in the rate of price increases—a somewhat unforeseen and completely unsought complicity of factors.

A slowdown is far more tolerable if prices decline at the same time. In this slowdown, any prospect of price stability is apparently a distant one. The consensus seems to be that few declines will occur for several months.

This means that while the ability of Americans to maintain their standards is being weakened—in the extreme, by factors such as layoffs—the evil of rising prices is making their job even more difficult.

It is easy, however, to look at the shadow and forget that it couldn't be cast without the sun. There are bright areas of the picture:

More Americans are better off than ever before; unemployment is near what some economists feel is the minimum; most goods are in abundant supply; the middle class continues to expand with graduates from the lower ranks.

But there are great patches of grey:

While goods are available, services that range from garbage collecting to medical aid often are lacking; the environment has been polluted by the uninhibited belchings of prosperity; some cities are decaying.

And there exists a great conflict that threatens to cloud the bright areas and blacken the dark:

The rising demand for money remains on a collision course with a supply the government feels must not grow if the battle with inflation is to be won at all. This demand for money is not simply for the satisfaction of luxurious appetites. It is for decent housing, better factories, slum control, the cleaning of rivers, better education, more competitive businesses, defense. However, at this dizzying economic height, a peak that began with an ascent from a trough early in the 1960s, there seemingly is not enough strength in the economy to correct the deficiencies. Inflation has sapped it.

New Comet

WASHINGTON (AP) — The new year, 1970, is riding in aboard a comet, a huge "space snowball" flashing across January's dark winter skies.

The newly discovered comet is the first in two years that can be seen with the naked eye, the National Geographic Society says.

On New Year's Day it should be just south of the constellation Sagittarius, and visible in the southern United States at sunset slightly above the southwestern horizon.

By mid-January, the new comet will be within view just south of the constellation Sagittarius, and will be visible throughout most of the United States, though probably difficult to see at twilight because of closeness to the sun.

The comet was discovered independently by three Japanese astronomers on October 10 and named Tago-Sato Kosaka for them.

At Christmas time the new comet was about as bright as the North Star, but could be seen only in the Southern Hemisphere. It is growing dimmer and after the first of February probably will only be visible with binoculars or a telescope.

TODAY In History

By THE ASSOCIATED PRESS
Today is Monday, Feb. 2, the 33rd day of 1970. There are 332 days left in the year.

This is ground hog day. If the ground hog emerge and sees his shadow, the winter will be a long one.

Today's highlight in history: On this date in 1848, Mexico signed a treaty with the United States, agreeing to cede a vast area for payment of \$15 million. Included was what is now Texas, New Mexico, Arizona and California.

On this date: In 1535, the Argentine city of Buenos Aires was founded. In 1635, New Amsterdam (now New York) was incorporated by the Dutch.

In 1870, doctors disclosed that the so-called "Cardi" giant—discovered on a farm near Cardiff, N.Y.—was not a petrified man but a hoax.

In 1876, eight baseball teams banded together to organize the National League.

Five years ago — President Lyndon B. Johnson sent his special assistant, McGeorge Bundy, to South Vietnam to reassess the situation in the war-torn country.

One year ago — French President Charles de Gaulle announced a national referendum on a plan to reorganize government control.

The Business World

By JOHN CUNIFF

The antidote to inflation is to reduce demand, or more precisely, to thwart the ability to make demands on the economy by taking away the means, which is money.

In the present environment, however, the needs obviously are so great that they continue fighting. The tug-of-war for the available money is intense: to fight a war, to win contracts, to buy cars—by government, business and individuals.

As the scrap evolves, interest rates—which are the prices of money—are soaring to all-time highs, with these results:

Municipalities cannot afford to borrow for social needs; the housing industry, unable to compete for money at such high rates, is failing to meet its goals; money is being drained from the stock market.

In recent weeks, securities analysts have recommended cer-

tain companies as good investments because their earnings were solid and their prospects bright. Stocks of these companies, however, have failed to respond. Why?

Some economists answer that many millions of dollars are being drained from the stock market for those higher returns elsewhere, and suggest that as long as interest rates rise the stock market, despite good values, will fall.

In other words, the money shortage is showing up in falling stock prices, in schools and houses unbuilt, in cities that remain unrepaired. The battle to beat inflation is building dark clouds all its own.

That's why the very bright sun that shines on so much of American life also casts long shadows that make economists cringe and bundle up for a long winter.

SAFETY BRAKING BY RADAR—Two brothers demonstrate in Washington their new radar device designed to aid emergency stops plus keeping a safe distance. Radar impulses are sent out and received by a gear on the grill, and the impulses received trigger an electromagnetic driver which takes control of brake and throttle. The brothers are (rear) John V. Flannery, 40, president of Bentley Associates, Chelmsford, Mass., and Paul Flannery.

FEBRUARY, 1965
5 YEARS AGO

Tom Gilliland and Robert L. Brehmer Sr. were named as Outstanding Senior Citizens by Circleville Jaycees.

City Council passed a law prohibiting the passing of school buses when loading or unloading children within the city. Fines would range from \$5 to \$50 against motorists who violated the ordinance. In a previous ordinance passed in 1958 no amount of fines was provided for.

City schools, in cooperation with the Vocational Education Division of the State Department of Education, offered a course for adults in income tax preparation for individuals and small businesses.

Mrs. Walter Heine presented the program, "Life Begins at 65," to Lions Club members at the Wardell Party Home. Principal person in her story was Mrs. Letta Roberson, Mrs. Heine's sister who retired at 65, and with financial help from members of the Farm Bureau where she retired, went to India to work with the impoverished there.

Mr. and Mrs. Ray Badger, Ashville, celebrated their 50th wedding anniversary.

A group of thieves, thought to be operating out of Dayton, stumbled into Circleville in their operations. A man cashed an \$80 check at a local business for a non-existence firm from a non-existent bank in Laurelville.

Bruce Chelikowsky, son of Mr. and Mrs. Rudolph Chelikowsky, Circleville, left for Hawaii where he was to receive training in the Peace Corps program. Upon completion of the training, Bruce hoped to be assigned to Malaysia for the two years of service.

Mrs. Frank Moore, Coach Paul Starr, Robert Litter and Walter Gilmore made up an all-Circleville cast on one session of Traffic Court, originating from Columbus.

PFC Raymond Winner was reported wounded in Vietnam action from a grenade attack. His wounds were listed as minor. Winner was the son of Mr. and Mrs. Charles Winner, Circleville.

New fluorescent ceiling lamps were installed in the first floor corridor of the court house leading to the annex.

Unseasonably warm weather struck the Roundtown with temperatures in the mid to high 50's.

On display at the Columbus Gallery of Fine Arts were selected entries from more than 800 photographs submitted by the Central Ohio Camera Club. One of the photographs on display, a color portrait, was the work of a former Circleville resident, Mrs. Julia Meadows, the daughter of Mr. and Mrs. Fred Bowsher.

Twenty-nine new registrants were added to the Pickaway County Selective Service Board since the beginning of 1965.

Hatlo's They'll Do It Every Time

Tippy Pilots

Pilots are a more responsible group of drivers than motorists. The standards they must meet to receive a pilot's license are more exacting than those required for a motorist. And there are few pilots who would think of taking to the air after a stop at the neighborhood tavern, a precaution many motorists have not learned.

But there are a few licensed pilots who do take the controls of a plane after drinking, and that is too many. Statistics compiled by the Federal Aviation Agency for 1967, the latest available, reveal there were 1,228 fatal general aviation accidents. Of these, 375 victims were tested for blood alcohol.

Ninety of those tested were found to have positive levels, and 42 were found to have sufficient levels to be intoxicated. Thus of all the fatalities, 4 per cent are known to have been intoxicated, twice that number had been drinking to some extent and a large number were not tested for alcohol.

With this knowledge before it, the FAA's aero medical division should make every effort to extend its post-accident testing to discover the full extent of the problem. And the FAA should take sterner action to keep such pilots on the ground.

The Aircraft Owners and Pilots Association (representing 150,000 pilots) has recommended a change in federal regulations concerning the drinking pilot. Present rules prohibit a pilot from flying while under the influence of alcohol, an ambiguous statement which can lead to disputes over when an individual is intoxicated.

The AOPA wants the rules changed to prohibit any person from flying within eight hours after consuming alcoholic beverages or drugs which could impair his judgment. Coming from the pilots' own association, the FAA should have little cause not to give the recommendation urgent consideration. In an age of increasing congestion, the air ways do not need pilots not in command of their faculties.

From Russia, Without Love?

By JOHN CHAMBERLAIN

President Richard Nixon still maintains his hopes that the Era of Confrontation in U.S.-Russian relations will be replaced by the Era of Negotiation. He may have his reasons for feeling sanguine, for the Soviets, facing troubles with the Red Chinese on their long Asiatic border, are obviously not anxious to pick fights on their western front. But if there are to be significant negotiations, they will be taking place in a pretty chilly atmosphere.

The truth is that the "to Russia with love" gambit is becoming increasingly barren of results. Our cultural exchanges with the Soviet Union must be close to an all-time low. Where are the Russian poets who, a few years ago, were touring U.S. campuses and reading from their works? Some young friends of mine who had signed up for a student tour of western

Russia next summer have had their project cancelled. Only a few Soviet engineers and technologists, including a few in the field of atomic energy applications, have been coming to the U.S. during the last year. I am told that the number of graduate students in exchange programs has dwindled to the smallest in a decade.

So there is a deep freeze in the sort of relations that makes for easy fraternization between peoples. But something new is evidently in the works, and it has sinister connotations because of the uncertainty it introduces. I have it on good authority, from a friend who speaks Russian as fluently as he speaks English, that hundreds of "unofficial visitors" from the Soviet Union have been coming to the U.S. in recent weeks. They get visas good for a three-to-six months stay. Many of them are young.

They come ostensibly to visit relatives who are now U.S. citizens and residents. Many of the hosts of the new tourists are listed in the Soviet Union as "traitors," or as "Nazi collaborators," which could be taken as a surface indication that the "unofficial visitors" from Russia are not going to receive any significant help in spying. But my friend who speaks Russian and has been sought out by some of the visitors pose a disturbing question.

Why, he asks, has Moscow cleared young Russians for passports in situations which, one or two years ago, would have resulted in a cold and clammy turn-down?

My friend guesses that Moscow is exploiting humanitarian considerations for political ends. He says we could be dealing "with a large scale KGB (secret police) operation aimed at finding out who is recruitable for their needs among the ex-Soviet citizens." The reason for this presumed turn in Soviet spy tactics could be rooted in the success of the FBI in infiltrating the ranks of the U.S. Communist Party. "The comrades" says my friend, "are exploring a new 'mass base.' I am sure every visitor is carefully debriefed upon his return to Russia by KGB guys, to find out the frame of mind of their American hosts. If, in this way, they bag a dozen or two useful contacts, the operation would prove worthwhile especially since the costs of the visitors' staying in this country are borne by their hosts. Since Aeroflot has instituted the flights between Moscow and New York, no dollars (which are scarce) are needed for the travel: it can be paid in rubles."

My friend is not of a suspicious nature. The prime reason for his conjectures about a Russian secret police operation is that, though he himself has long been on the Moscow black list as a "defector," he has found himself being questioned by Russian visitors about such things as the true status of U.S.-Red Chinese relations. It wasn't so long ago that he would have been shunned like the plague by any visitor from the Soviet Union.

Laff-A-Day

Try and Stop Me

By BENNETT CERF

A BADLY bruised lady staggered into a police station, sporting a black eye and numerous abrasions to support her contention that she had been beaten up by a particularly brutal assailant.

"Don't you worry, lady," the police lieutenant assured her. "Just describe this bum to me and we'll have him behind bars in no time at all."

"But I don't want him behind bars," wailed the complainant. "Just find him for me. He promised to marry me!"

Henry Fielding, the great English novelist, way back in the 1740's, anticipated the trend of fiction of the 1960's. In his still-widely-read "Jonathan Wild," for example, there occurs this memorable sentence: "He in a few moments ravished this fair creature, or at least would have ravished her, if she had not, by a timely compliance, prevented him."

DIALOGUE:

1. Husband: "It must be time to get up."
Wife: "How can you tell?"
Husband: "The baby has fallen asleep at last."
2. Customer: "How much are your tomatoes today?"
Grocer: "Thirty cents a pound."
Customer: "Did you raise them yourself?"
Grocer: "Yes, they were twenty-eight cents yesterday."

Speaking Of Your Health

By Lester L. Coleman, M.D.

Our 16-year-old son has just joined a mountain climbing club. We have not dissuaded him from this, but we wonder if climbing can affect his heart in later life.

Mr. and Mrs. H.K., Colorado. Dear Mr. and Mrs. K.: The sport of mountain climbing is an invigorating one and has many exciting aspects. The modern mountain climber, especially those who affiliate with a club, slowly condition themselves to this rigorous sport and use new and excellent scientific equipment for safety. Mountain climbing probably has fewer accidents than the body-contact sports, but all sports carry with them some degree of injury. Most injuries in all sports can usually be traced to poor training, inadequate conditioning, bad equipment and personal carelessness. Unless these factors are taken into consideration, accidents are invited.

I believe you will gain a great sense of security if your son will first have a complete medical examination. The absence of any heart, lung or circulatory conditions will allow him to enjoy this sport. There is no chance that it will in any way affect his later health other than to give him greater strength, agility and confidence. As one who climbed a great deal during medical school, I recall the tremendous joy and gratification it gave me. I hope you encourage your son to seek this pleasure. His coach undoubtedly will keep him within the bounds of safety.

Is there more than one type of high blood pressure? Dear Mrs. M.: It is a mistake to believe that high blood pressure, or hypertension, is in itself a disease. It is not. High blood pressure is a symptom of some underlying condition, and therefore its control must necessarily depend on finding that basic disorder. Only then can high blood pressure be properly kept in check.

From a technical point of view, physicians think of high blood pressure, or hypertension, as being of two types. Organic hypertension may be traced to conditions that involve the circulatory system, the kidneys and the hormone or endocrine system. Attention, therefore, is devoted to these organs and corrected whenever possible. The other type of hypertension is known as the "essential" type. By far the largest group falls into this category. There was a time not many

The Business World

By JOHN CUNIFF

NEW YORK (AP) — Many economists saw their shadows rising from piles of statistics, they noted that the very sunshine that warmed the nests of Americans for several years was now brewing a dark and troubling storm. It not frightened, they were disturbed.

The bad news, they noted, is a compound of an economic expansion that is slowing almost to a halt simultaneously with an acceleration in the rate of price increases—a somewhat unforeseen and completely unsought complicity of factors.

A slowdown is far more tolerable if prices decline at the same time. In this slowdown, any prospect of price stability is apparently a distant one. The consensus seems to be that few declines will occur for several months.

This means that while the ability of Americans to maintain their standards is being weakened—in the extreme, by factors such as layoffs—the evil of rising prices is making their job even more difficult.

It is easy, however, to look at the shadow and forget that it couldn't be cast without the sun. There are bright areas of the picture:

More Americans are better off than ever before; unemployment is near what some economists feel is the minimum; most goods are in abundant supply; the middle class continues to expand with graduates from the lower ranks.

But there are great patches of grey:

While goods are available, services that range from garbage collecting to medical aid often are lacking; the environment has been polluted by the uninhibited belchings of prosperity; some cities are decaying.

And there exists a great conflict that threatens to cloud the bright areas and blacken the dark:

The rising demand for money remains on a collision course with a supply the government feels must not grow if the battle with inflation is to be won at all. This demand for money is not simply for the satisfaction of luxurious appetites. It is for decent housing, better factories, slum control, the cleaning of rivers, better education, more competitive businesses, defense.

However, at this dizzying economic height, a peak that began with an ascent from a trough early in the 1960s, there seemingly is not enough strength in the economy to correct the deficiencies. Inflation has sapped it.

New Comet

WASHINGTON (AP) — The new year, 1970, is riding in aboard a comet, a huge "space snowball" flashing across January's dark winter skies.

The newly discovered comet is the first in two years that can be seen with the naked eye, the National Geographic Society says.

On New Year's Day it should be just south of the Constellation Sagittarius, and visible in the southern United States at sunset slightly above the southwestern horizon.

By mid-January, the new comet will be within view just south of the Constellation Sagittarius, and will be visible throughout most of the United States, though probably difficult to see at twilight because of closeness to the sun.

The comet was discovered independently by three Japanese astronomers on October 10 and named Tago-Sato Kosaka for them.

At Christmas time the new comet was about as bright as the North Star, but could be seen only in the Southern Hemisphere. It is growing dimmer and after the first of February probably will only be visible with binoculars or a telescope.

The antidote to inflation is to reduce demand, or more precisely, to thwart the ability to make demands on the economy by taking away the means, which is money.

In the present environment, however, the needs obviously are so great that they continue fighting. The tug-of-war for the available money is intense: to fight a war, to win contracts, to buy cars—by government, business and individuals.

As the scrap evolves, interest rates—which are the prices of money—are soaring to all-time highs, with these results:

Municipalities cannot afford to borrow for social needs; the housing industry, unable to compete for money at such high rates, is failing to meet its goals; money is being drained from the stock market.

In recent weeks, securities analysts have recommended cer-

tain companies as good investments because their earnings were solid and their prospects bright. Stocks of these companies, however, have failed to respond. Why?

Some economists answer that many millions of dollars are being drained from the stock market for those higher returns elsewhere, and suggest that as long as interest rates rise the stock market, despite good values, will fall.

In other words, the money shortage is showing up in falling stock prices, in schools and houses unbuilt, in cities that remain unrepaired. The battle to beat inflation is building dark clouds all its own.

NIXON'S POLLUTION SQUAD—These are the three named by President Nixon as a council to find ways to end pollution of the environment. From left: Russell E. Train, Interior undersecretary, chairman; Dr. Gordon J. F. MacDonald, University of California at Santa Barbara, environmental expert; Robert Cahn, Pulitzer Prize winning reporter of the Christian Science Monitor.

Nixon . . .

(Continued from Page 1)

ance programs, to a total of \$2.278 billion.

—\$468 million for transportation facilities, including a modest \$80 million start on a proposed 12-year, \$10 billion program to aid urban mass transit systems.

—\$352 million for manpower training programs.

The precarious balance for fiscal 1971 would be topped into deficit if Congress should reject the sale of stockpile commodities—described by Nixon as "far in excess of foreseeable needs"—and, in addition, should refuse to approve any of these further requested revenue-raising efforts.

—Imposition of the Social Security tax on the first \$9,000 of earnings, instead of the present \$7,800, as of next Jan. 1.

—A \$880 million postal rate increase which, with other Post Office proposals, would reduce the current \$1.25 billion postal deficit to \$382 million in 1971.

—New or higher transportation user charges totaling \$653 million, including an increase in the excise tax on airline passenger tickets from 5 to 8 per cent, plus a \$3 tax on each overseas flight.

—Extending the 7 per cent excise on new cars and the 10 per cent telephone excise to Jan. 1, 1972.

At \$73.6 billion the national defense budget—a broad category that includes foreign military aid, stockpiling, and outlays by several agencies other than the Pentagon—was the smallest since 1967. The department's military outlays alone, at \$71.2 billion, would be \$5.3 billion below this year's figure.

Nixon said national defense now pre-empted 37 per cent of the budget, a smaller percentage than in any year since 1950. Human resource programs—including education, health, manpower and income maintenance—commanded 41 per cent, other programs 23 per cent.

A special presidential message to Congress shortly will outline "major proposals to improve and protect our surroundings," Nixon said. The clean water program, when combined with state and local matching funds, will provide \$10 billion worth of sewage plant construction beyond that already appropriated, he predicted. Federal outlays on air pollution will rise 30 per cent in 1971, he added.

Nixon announced he will propose an "environmental financing authority" to help state and local governments obtain funds for water pollution abatement plants. Tight money in the municipal bond market has hampered their financing.

The budget included these further proposals: Despite a \$486 million cut in space funds from fiscal 1970, Nixon said the nation will extend its capability in space "consistent with other national priorities."

Health Nixon announced plans to increase federal aid for the construction of clinics and outpatient facilities, to ease the patient load on hospitals under the Medicare and Medicaid programs.

More health centers in low income areas are provided for 1971, Nixon said, as well as "significant increases" in local programs for drug addiction, alcoholism and family planning.

"I am also recommending substantial increases in research on cancer, heart disease, serious childhood illnesses, and dental health."

Consumers A new Office of Consumer Affairs was proposed, in the executive office of the President, as well as an assistant attorney general for consumer protection in the Justice Department.

Post Office Nixon made a new push for his plan to reorganize the Post Office into a public corporation, a measure stalled in a House committee last year.

Foreign Aid Only \$1.72 billion was asked for outlays of the Agency for International Development; the figure has diminished year by year.

A total of \$2.1 billion for total "foreign economic assistance" was posted, including outlays of international lending institutions.

SST The President asked \$275 million to further the supersonic-SST—jet air transport program, a boost from \$163 million this year. Total cost of the SST giant prototype commercial craft is estimated at \$1.2 billion.

Merchant Marine

A \$330 million outlay for assistance to the merchant marine was proposed. This was only slightly above the 1970 figure, although Nixon gave strong endorsement to a drive to revitalize the merchant fleet with a building program of as many as 30 new ships a year.

For the first time in official memory, the President sent Congress a long range budget forecast—a five year look ahead to see how much room for new programs will be allowed by rising federal revenues. The conclusion: Not much.

Despite a \$1.4 trillion national output in 1975, compared with \$932 billion last year and an estimated \$985 billion this year, there will be only a \$22 billion "nest egg" to finance all new programs begun now and then, the President said. For 1972 there is "little if any margin."

Even the \$22 billion may never materialize, Nixon added.

Table Shows Budget Income And Outgo

WASHINGTON (AP) — The table from the fiscal 1971 budget, sent to Congress Monday by President Nixon, shows where government funds come from and how they will be spent, with comparisons for this fiscal year (1970) and fiscal 1969: (in millions of dollars):

	1969	1970	1971
Actual	Est.	Est.	
Receipts By Source			
Individual income taxes	87,249	92,200	91,000
Corporation income taxes	36,678	37,000	35,000
Employment taxes and contributions	34,236	38,914	42,842
Unemployment ins.	3,328	3,340	3,335
Premiums for other insurance and retirement	2,353	2,551	2,931
Excise taxes	15,222	15,940	17,520
Estate and gift taxes	3,492	3,500	3,600
Customs duties	2,319	2,260	2,260
Miscellaneous Receipts	2,916	3,681	3,614
Total receipts	187,792	199,386	202,103
Outlays By Function			
National defense	81,240	79,432	73,585
International affairs and finance	3,785	4,133	3,589
Space research and technology	4,247	3,886	3,400
Agriculture and rural development	6,221	6,343	5,364
Natural resources	2,129	2,485	2,503
Commerce and transportation	7,873	9,436	8,785
Community development and housing	1,961	3,046	3,781
Education and manpower	6,825	7,538	8,129
Health	11,696	13,265	14,957
Income security	37,399	43,832	50,384
Veterans Benefits and services	7,640	8,681	8,475
Interest	15,791	17,821	17,779
General government	2,866	3,620	4,064
Allowances For			
Revenue sharing	---	---	275
Civilian and military pay increases	---	675	1,400
Contingencies	---	300	90
Undistributed Intragovernmental Transactions			
Employer share, employee retirement	2,018	-2,307	-2,366
Interest received by trust funds	3,099	-3,781	4,273
Total outlays	184,556	197,885	200,771
Surplus	3,236	1,501	1,331

Logan Elm Riding Club Has Membership Of 17

A new riding club has organized in the community that is quickly becoming active in various ways.

The Logan Elm Riding Club was started by students who had enthusiasm and interest in horsemanship, and wanted to share their knowledge with others.

It has grown in size and activity, and has a present membership of 17 students directed by three adult advisers. Parents play an active part in club functions and are encouraged to participate.

The club year began in August with the election of officers for 1969-70, Tom Skinner was elected president; Judy Roundhouse, vice-president; Karen Matesky, secretary; Elizabeth Schumm, treasurer; Janice Kerns, news reporter; and Laura Kerns, safety director.

The members agreed that the purpose of the Logan Elm Riding Club would be to learn breeds and diseases of horses give reports, practice good

horsemanship, and follow general safety rules. During the fall and winter the club held riding meetings at members homes, discussed and exhibited English and Western riding equipment, escorted the Logan Elm homecoming court, and had a speaker on emergency first-aid treatment during trail rides. A winter campout was planned, but cancelled due to bad weather.

The plans for 1970 include spring, midsummer, and fall campouts; riding meets; a broom polo team; and a trip to Louisville to visit horse museums, Wiener roasts, club picnics, and field trips will also be scheduled.

The Logan Elm Riding Club offers a chance for responsible students to gain greater enjoyment from horses, develop leadership qualities, and participate in club activities. Eligible members not owning a horse are invited to join the club and participate at meetings.

Persons interested in joining the Logan Elm Riding Club should contact Tom Spiller, adviser, or Tom Skinner, president, for further information.

William F. and Mildred Y. Weller to Jack W. and Alyce E. Mills, part lot 1118, Circleville.

Divorce Filed

Evelyn M. Dunkle, Williamsport vs. Isaac (Leo) Dunkle, Williamsport; couple was married April 21, 1947; one child; plaintiff alleges gross neglect and extreme cruelty.

Money Suit Dismissed

Larry Dietrich, 164 E. High St. vs. William Dietrich, Route 1; plaintiff sought settlement on payment made as guarantor of note for defendant; amount settled.

Earl R. Shaffer, 22, Lockbourne, was cited when he ran an auto off a private lane on the Dr. Cromley farm, near Ashville.

Traveling at a high rate of speed the vehicle tore up two fences, traveled 270 feet into the woods, finally coming to a stop when it hit a tree.

Leaving the car in the field, Shaffer acquired a pickup truck and proceeded to back it through another fence and into a field on the Cromley farm.

Shaffer was not injured in the mishaps.

Last week commissioners authorized a one-half mill operating levy for the Brooks-Yates School for Retarded placed on the May primary ballot.

Earlier this year the Pickaway County Board of Mental Retardation had asked that a bond issue for construction of a school be placed on the ballot also. However, they withdrew the request because of a legal technicality which prohibited it from being placed on the primary ballot.

Southern School Systems In Chase; Court Blamed

By THE ASSOCIATED PRESS

Many Southern school systems facing a Feb. 1 integration deadline from the Supreme Court were in a confused state today and some schools were closed.

School officials and judges, many saying they lack an exact definition from the Supreme Court of what a "unitary" school system is supposed to be, made 11th hour attempts over the weekend toward some sort of compliance.

It has been the individual judges of the U.S. District Courts who have had to interpret whether a school system is in compliance with the law.

The Supreme Court, overruling a decision by the 5th U.S. Circuit Court of Appeals on Jan. 14, ordered complete desegregation of both faculties and student bodies in 14 Southern school districts by Feb. 1. The lower court had set Sept. 1 as the date.

The appeals court, after the reversal, said the Feb. 1 deadline also applied to 17 other districts in the same states—Georgia, Alabama, Mississippi, Florida and Louisiana.

Seek Accord

(Continued from Page 1) ment to seek a voluntary settlement.

But Shultz said this does not rule out the possibility the administration will ask Congress to act to halt a nationwide shutdown.

On the surface, the administration remained optimistic that the parties will reach a settlement without congressional intervention.

If the Saturday shutdown had not been halted by court action, sources said, the administration stood ready to seek immediate congressional action, presumably compulsory arbitration.

The four shopcraft unions, representing machinists, electricians, boilermakers and sheet metal workers, earlier rejected a two-year, 68-cent wage increase after sheet metal workers objected to a proposed change in working rules.

The unions had agreed that all must accept any contract or none would.

Rejection of the earlier settlement led to the Union Pacific strike and then the call for a nationwide lockout by the railroads Saturday night. However, the unions went to court to block the coast-to-coast shutdown.

In Nebraska, meantime, pickets Sunday had been removed from key points along the Union Pacific Railroad. A railroad spokesman said "service is just about normal."

Car In Field; Driver Cited

Reckless operation of a vehicle on private property resulted in the arrest of a Lockbourne man by the Pickaway County Sheriff's Department Saturday night.

Earl R. Shaffer, 22, Lockbourne, was cited when he ran an auto off a private lane on the Dr. Cromley farm, near Ashville.

Traveling at a high rate of speed the vehicle tore up two fences, traveled 270 feet into the woods, finally coming to a stop when it hit a tree.

Leaving the car in the field, Shaffer acquired a pickup truck and proceeded to back it through another fence and into a field on the Cromley farm.

Shaffer was not injured in the mishaps.

Last week commissioners authorized a one-half mill operating levy for the Brooks-Yates School for Retarded placed on the May primary ballot.

Earlier this year the Pickaway County Board of Mental Retardation had asked that a bond issue for construction of a school be placed on the ballot also. However, they withdrew the request because of a legal technicality which prohibited it from being placed on the primary ballot.

Some judges issued Feb. 1 orders in cases under their jurisdiction. Many didn't, choosing other deadlines and specifications they thought were compatible with the individual situation under their consideration.

Judge W. A. Bootle of Macon ruled in three Georgia cases that integration of school faculties was all that was required by the law as he understood it. He ordered schools in Bibb and Washington counties to integrate faculties by Feb. 1 and granted Houston County a delay until September to do it.

Judge Daniel H. Thomas ordered one school closed and eliminated freedom of choice at nine high schools to integrate the Mobile County school system, Alabama's largest.

Two Mississippi House members—Reps. Thomas G. Abernethy and G. V. Montgomery, both Democrats—asked President Nixon's personal help in the state, saying Mississippi schools "are trying to operate under such intolerable conditions they might as well be closed."

In Tunica, Miss., registration under a new plan was held last week. Two white pupils registered, and were assigned to a school with an enrollment of 750 blacks.

In Florida, attorneys for the Volusia County schools are going back to court this week to seek clarification of Gov. Claude Kirk's executive order prohibiting the busing of pupils under a new plan to achieve integration.

All-black Lincoln High School in another Florida county, Alachua, has been closed, with more than 1,000 pupils being transferred to other schools. Bay County schools will be closed this week while adjusting to new attendance plans.

Schools in Concordia, East Feliciana and West Feliciana parishes in Louisiana were to be closed today, and several other parishes planned to keep schools closed for varying periods of time while preparing to implement integration plans.

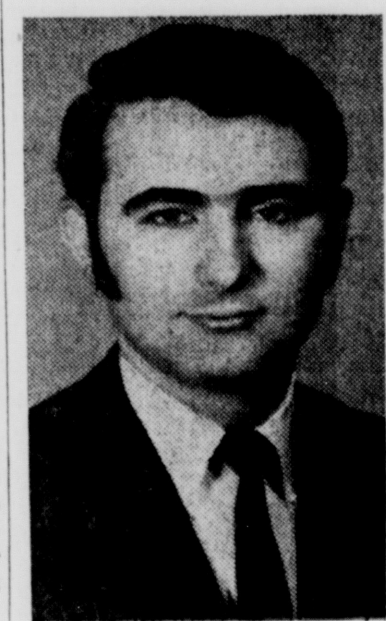

In North Carolina, Gov. Robert Scott has urged citizens to comply with court orders, saying that "we might as well get on with it."

Gov. Robert McNair of South Carolina has also urged compli-

ance. The 4th U.S. Circuit Court of Appeals, headed by Chief Justice Clement F. Haynsworth, has ruled that Greenville and Darlington County schools must desegregate by mid-February.

Georgia Gov. Lester Maddox, in weekend appearances around Georgia, urged parents to keep their children out of schools if transferred, and called on teachers to refuse being reassigned to satisfy racial quotas.

Local Man Promoted In New York Firm

D. KEITH TURVEY

D. Keith Turvey, son of Mr. and Mrs. Edgar Turvey Sr. of Turlington, has been promoted to the position of assistant manager of Field Operations in the corporate headquarters of Technicon Corp. in Tarrytown, N. Y. Since joining the company in 1967, he served as the field Quality Control Engineer for the Columbus and northern Ohio area.

Following graduation from Salt Creek Twp. High School, Turvey served four years in the U.S. Navy and attended Ohio University.

He and his wife, the former Patricia Watson of Circleville, will reside in the vicinity of Westchester County, N. Y.

Science Shrinks Painful Hemorrhoids Stops Itch—Relieves Pain Finds Way That Both Relieves Pain and Shrinks Piles In Most Cases

New York, N.Y. (Special): Science has found a special formula with the ability, in most cases—to shrink hemorrhoids, stop itching and relieve pain. In case after case doctors proved, while gently relieving pain, actual reduction (shrink-

age) took place. The secret is Preparation H®. There is no other formula for hemorrhoids like it. Preparation H also soothes irritated tissues and helps prevent further infection. In ointment or suppository form.

NIXON'S POLLUTION SQUAD—These are the three named by President Nixon as a council to find ways to end pollution of the environment. From left: Russell E. Train, Interior undersecretary, chairman; Dr. Gordon J. F. MacDonald, University of California at Santa Barbara, environmental expert; Robert Cahn, Pulitzer Prize winning reporter of the Christian Science Monitor.

Nixon . . .

(Continued from Page 1)

ance programs, to a total of \$2.278 billion.

—\$468 million for transportation facilities, including a modest \$80 million start on a proposed 12-year, \$10 billion program to aid urban mass transit systems.

—\$332 million for manpower training programs.

The precarious balance for fiscal 1971 would be topped into deficit if Congress should reject the sale of stockpile commodities—described by Nixon as "far in excess of foreseeable needs"—and, in addition, should refuse to approve any of these further requested revenue-raising.

—Imposition of the Social Security tax on the first \$9,000 of earnings, instead of the present \$7,800, as of next Jan. 1.

—A \$880 million postal rate increase which, with other Post Office proposals, would reduce the current \$1.25 billion postal deficit to \$382 million in 1971.

—New or higher transportation user charges totaling \$653 million, including an increase in the excise tax on airline passenger tickets from 5 to 8 per cent, plus a \$3 tax on each overseas flight.

—Extending the 7 per cent excise on new cars and the 10 per cent telephone excise to Jan. 1, 1972.

At \$73.6 billion the national defense budget—a broad category that includes foreign military aid, stockpiling, and outlays by several agencies other than the Pentagon—was the smallest since 1967. The department's military outlays alone, at \$71.2 billion, would be \$3.3 billion below this year's figure.

Nixon said national defense now pre-empted 37 per cent of the budget, a smaller percentage than in any year since 1950. Human resource programs—including education, health, manpower and income maintenance—commanded 41 per cent, other programs 23 per cent.

A special presidential message to Congress shortly will outline "major proposals to improve and protect our surroundings," Nixon said. The clean water program, when combined with state and local matching funds, will provide \$10 billion worth of sewage plant construction beyond that already appropriated, he predicted. Federal outlays on air pollution will rise 30 per cent in 1971, he added.

Nixon announced he will propose an "environmental financing authority" to help state and local governments obtain funds for water pollution abatement plants. Tight money in the municipal bond market has hampered their financing.

The budget included these further proposals:

Despite a \$486 million cut in space funds from fiscal 1970, Nixon said the nation will extend its capability in space "consistent with other national priorities."

Health

Nixon announced plans to increase federal aid for the construction of clinics and outpatient facilities, to ease the patient load on hospitals under the medicare and medicaid programs.

More health centers in low income areas are provided for 1971, Nixon said, as well as "significant increases" in local programs for drug addiction, alcoholism and family planning.

"I am also recommending substantial increases in research on cancer, heart disease, serious childhood illnesses, and dental health."

Consumers

A new Office of Consumer Affairs was proposed, in the executive office of the President, as well as an assistant attorney general for consumer protection in the Justice Department.

Post Office

Nixon made a new push for his plan to reorganize the Post Office into a public corporation, a measure stalled in a House committee last year.

Foreign Aid

Only \$1.72 billion was asked for outlays of the Agency for International Development; the figure has diminished year by year.

A total of \$2.1 billion for total "foreign economic assistance" was posted, including outlays of international lending institutions.

SST

The President asked \$275 million to further the supersonic SST—jet air transport program, a boost from \$163 million this year. Total cost of the SST giant prototype commercial craft is estimated at \$1.2 billion.

Merchant Marine

A \$330 million outlay for assistance to the merchant marine was proposed. This was only slightly above the 1970 figure, although Nixon gave strong endorsement to a drive to revitalize the merchant fleet with a building program of as many as 30 new ships a year.

For the first time in official memory, the President sent Congress a long range budget forecast—a five year look ahead to see how much room for new programs will be allowed by rising federal revenues. The conclusion: Not much.

Despite a \$1.4 trillion national output in 1975, compared with \$932 billion last year and an estimated \$965 billion this year, there will be only a \$22 billion "nest egg" to finance all new programs begun now and then, the President said. For 1972 there is "little if any margin."

Even the \$22 billion may never materialize, Nixon added.

Some judges issued Feb. 1 orders in cases under their jurisdiction. Many didn't, choosing other deadlines and specifications they thought were compatible with the individual situation under their consideration.

Judge W. A. Bootle of Macon ruled in three Georgia cases that integration of school faculties was all that was required by the law as he understood it. He ordered schools in Bibb and Washington counties to integrate faculties by Feb. 1 and granted Houston County a delay until September to do it.

Judge Daniel H. Thomas ordered one school closed and eliminated freedom of choice at nine high schools to integrate the Mobile County school system, Alabama's largest.

Two Mississippi House members—Reps. Thomas G. Abernethy and G. V. Montgomery, both Democrats—asked President Nixon's personal help in the state, saying Mississippi schools "are trying to operate under such intolerable conditions they might as well be closed."

In Tunica, Miss., registration under a new plan was held last week. Two white pupils registered, and were assigned to a school with an enrollment of 750 blacks.

In Florida, attorneys for the Volusia County schools are going back to court this week to seek clarification of Gov. Claude Kirk's executive order prohibiting the busing of pupils under a new plan to achieve integration.

All-black Lincoln High School in another Florida county, Alachua, has been closed, with more than 1,000 pupils being transferred to other schools. Bay County schools will be closed this week while adjusting to new attendance plans.

Schools in Concordia, East Feliciana and West Feliciana parishes in Louisiana were to be closed today, and several other parishes planned to keep schools closed for varying periods of time while preparing to implement integration plans.

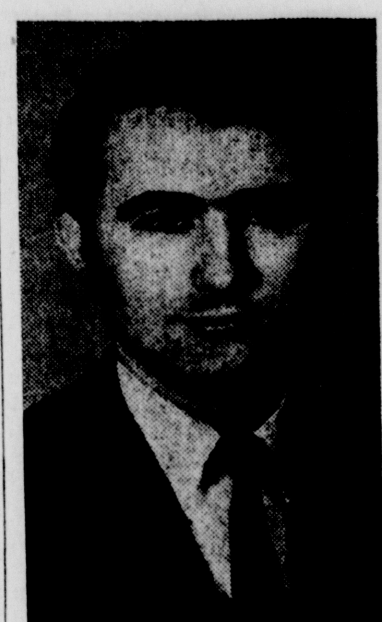

In North Carolina, Gov. Robert Scott has urged citizens to comply with court orders, saying that "we might as well get on with it."

Gov. Robert McNair of South Carolina has also urged compli-

ance. The 4th U.S. Circuit Court of Appeals, headed by Chief Justice Clement F. Haynsworth, has ruled that Greenville and Darlington County schools must desegregate by mid-February.

Georgia Gov. Lester Maddox, in weekend appearances around Georgia, urged parents to keep their children out of schools if transferred, and called on teachers to refuse being reassigned to satisfy racial quotas.

Local Man Promoted In New York Firm

D. KEITH TURVEY

D. Keith Turvey, son of Mr. and Mrs. Edgar Turvey Sr. of Tarrytown, has been promoted to the position of assistant manager of Field Operations in the corporate headquarters of Technicon Corp. in Tarrytown, N. Y. Since joining the company in 1967, he served as the field quality control engineer for the Columbus and northern Ohio area.

Following graduation from Salt Creek Twp. High School, Turvey served four years in the U.S. Navy and attended Ohio University.

He and his wife, the former Patricia Watson of Circleville, will reside in the vicinity of Westchester County, N. Y.

Allies . . .

(Continued from Page 1)

The heaviest fighting was in the northern provinces, but action also was reported in the Central Highlands, along the Cambodian border north of Saigon and in the Mekong Delta.

American troops fared badly in several battles.

A small Marine patrol assessing the results of an American artillery strike 44 miles southeast of Da Nang apparently walked into an ambush. Four Marines were killed and four wounded in a hail of rifle and machine-gun fire.

Two American infantrymen from the 25th Division were killed and nine wounded when about 30 enemy soldiers attacked a night defensive position 34 miles northwest of Saigon with rocket grenades, rifles and machine guns. Three enemy soldiers were killed in the 90-minute fight.

American troop strength in Vietnam increased for the second successive week, the U.S. Command reported.

The weekly report put U.S. troop strength as of last Thursday at 472,500, an increase of 2,600 over the previous week but still below the authorized ceiling of 484,000.

Spokesmen said the increase continues to reflect the normal flow of replacements.

President Nixon's third troop withdrawal of 50,000 men, began last Wednesday, but spokesmen said this would not begin to show up in the weekly summaries until at least next week.

The withdrawal will lower the authorized American strength in Vietnam to 434,000 by April 15.

Members Of Auxiliary Attend Conference

The forty-fifth annual mid-winter conference of all Ohio Units of the American Legion Auxiliary was held Jan. 30-31 at the Neil House Motor Hotel, Columbus. Mrs. Melvin Junge, department president, presided.

Members representing local Unit 134 were Mrs. Stenobe Stonerock, Mrs. Roseann Stinson, Mrs. Muri Campbell and Mrs. Robert Stephens.

They heard Miss Jane Harrison, who was elected Adjutant General at Buckeye Girls State in June 1969, tell of her trip to Girls Nation in Washington D. C., where she won the office of vice president. She was elected as a delegate to accompany Miss Mary Lee Martello, governor of Buckeye Girls State. She helped place a wreath at the Lincoln Memorial and visited Arlington Cemetery which made quite an impression on her. She hopes

GOP Boosters Hold Session

Members of GOP Boosters met Friday evening in the home of Mrs. Roy Dumm and Miss Lucille Dumm 340 Walnut St.

The group held an old fashioned carry-in dinner preceding the business hour.

Miss Dumm conducted the meeting, which opened with the pledge of allegiance, led by Mrs. John Steinhauer followed by singing of "The Battle Hymn of the Republic."

President Richard M. Nixon's news conference was discussed and "Crime and Narcotics — Their Effect on Our Teenagers" was also discussed.

Games followed and each member received a gift for this special games party.

Mrs. Howard Clark, 520 Elm Ave., will be hostess for the February meeting.

Tour Is Scheduled For Local Group

Members of Xi Eta Epsilon Chapter of Beta Sigma Phi will meet 8 p.m. Tuesday at General Telephone Company, 113 Pinckney St., for a tour.

Following the tour, they will go to the home of Mrs. Charles Curlett, Monticello Ave.

Lions Auxiliary To Meet Sunday

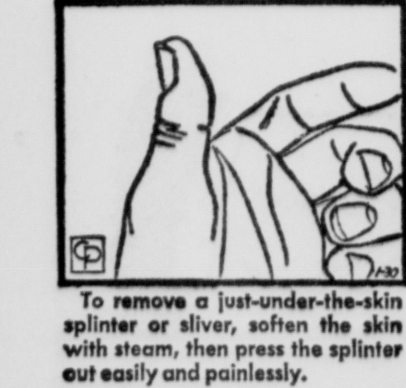

Members of the Circleville Lions Auxiliary will honor their husbands for Valentine's Day when they meet 5:30 p.m. Sunday at the Wardell Party Home, Route 2.

Mrs. R. E. Nau and Mrs. Frank Woodward are hostesses.

Pythian Sisters Schedule Meeting

Pythian Sisters of Majors Temple 516 will meet 7:30 p.m. in the K of P Lodge Hall, 114½ N. Court St.

Wife Preservers

To remove a just-under-the-skin splinter or sliver, soften the skin with steam, then press the splinter out easily and painlessly.

Group Feted With Dinner

Mr. and Mrs. Clarence Willoughby, 217 W. Mill St., entertained at their home Friday evening as special dinner guests those experiencing training in The Pickaway County Sheltered Workshop Inc.

Attending from this training center were Raymond Ross, Jack Kuhn, Elmer McFarland, George W. Tootle, Frank Hampp, Charles Hampp, Bob Brooks, Bobby Burchett, Bob Zahard, Carol Fout, Joyce Ramey and Faye Hettinger.

Other guests present were Mrs. Fannie Brooks, Mrs. Leora Sayre, Carl Burgoon, Bill Hill, Mrs. Max Woods and Regina Woods, Mrs. Bill Dountz and Terry, Rebecca, Teresa, Donald, Susan and Mary Dountz.

As the workshop representatives knew that the day was the birthday anniversary of Mrs. Willoughby their instructor assistant, a surprise inclusion at this event was a shower of gifts.

Personals

The Rev. and Mrs. Marvin Paxton, Baltimore, O., and Mr. and Mrs. Emmett Crites, Route 4, were Sunday dinner guests of Mr. and Mrs. Cliff Hedges, Washington Twp.

Study Group Slates Meeting Wednesday

Mission Study of First Baptist Church will meet 10:30 a.m. Wednesday in the home of Marvin McCoskey, Henn Road.

15-Year-Old Boy Slain By Police

COLUMBUS, Ohio (AP) — A 15-year-old boy was killed by a shotgun blast fired by police late Saturday as he ran from an elementary school here. Two other boys were wounded and a fourth was captured.

Police said Fred Crews, 15, was shot in the face and upper back when he failed to heed an order to stop. Police said a soft drink vending machine in the school had been broken open and seven bottles of pop were taken.

FIRST LADIES LAUNCH HEART FUND DRIVE — Mrs. Richard Nixon presents the 1970 Distinguished Volunteer Service Award of the American Heart Association to Mrs. Mamie Eisenhower in a White House ceremony marking the opening of the 1970 Heart Fund Campaign Feb. 1-28.

L. M. BUTCH CO. has

Special Grand Jury To Study Crime Activities

CLEVELAND, Ohio (AP) — Impaneling of a special federal grand jury is set for Feb. 16 as federal officials attempt to speed up the crackdown on organized crime activities in Ohio.

"All I can say is that this new grand jury will be utilized for our expanding work load in addition to matters that may be presented to it by the strike force," U.S. Atty. Robert B. Krupansky said Sunday.

The strike force was established in Cleveland by the U.S. Justice Department last November. The strike force is to investigate political corruption and organized crime's infiltration of the labor movement.

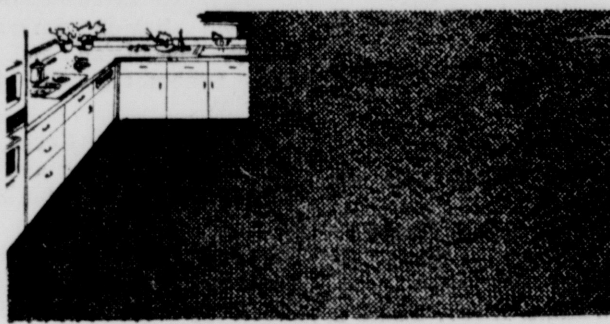

Federal officials say they believe there may be a resurgence of organized crime in Ohio. Officials said they don't expect "major results" from the strike force for from 12 to 18 months.

To remove cellophane tape from the walls without pulling off bits of paint or wallpaper press a warm iron against the tape before removal.

If you rest your cooking spoon or fork on a kitchen sponge, the sponge will be handy to tidy up and little spills on the stove.

Dear Abby:

By Abigail Van Buren

Make Use Of Your Christmas Gifts

DEAR ABBY: I don't know when the smell of a man who has done an honest day's work went out of style, but I am from the old school, and I have no intentions of changing.

I put in a good day's work, and naturally I perspire, but that doesn't bother me. I shower every morning and I know I'm clean. At Christmastime I got some perfumed-tissue and perfumed that and a fancy kit with all kinds of deodorants from some people I work with. If that was supposed to be a hint, it didn't work. In Europe, real he-men don't use perfume and deodorants. They smell like MEN!

Do me a favor, Abby, and back me up. I say men should smell like men, not like a flower garden.

ALL MAN

DEAR ALL: I think I've heard from some of your co-workers. A real "he-man" needn't smell like a flower garden, neither should he smell like a mountain goat. There are many nonfragrant deodorants on the market especially for "he-men," so pick up the scent and smell good, like a gentleman should.

DEAR ABBY: I read with an aching heart the letter from "TROUBLED OUT WEST" who is married to a homosexual. She has my heartfelt sympathy. I have lived in her situation for 20 years. The first 10 trying to make it work, and the second 10 in hell.

Because of the possible publicity attending a divorce,

plus the fact that I could never have supported my children alone, I stayed married to him, but the price is almost too much to bear.

If "TROUBLED" is still young and has parents or someone to help support her children, my advice to her would be to get out and never look back.

If she thinks things are bad now, wait until he gets older. Her daily lot will be humiliation, loneliness and fear of exposure. And she'll never know the luxury of being able to confide in a living soul.

As TROUBLED no doubt knows, the homosexual is a crippled personality in other ways than sex. This is not text book talk. I've been there.

TWENTY YEAR STRETCH DEAR STRETCH: If, as you say, "a homosexual is a crippled personality," who can blame him? All his life he's heard that he's a "SICK, PERVERTED, ABOMINABLE, LOATH-SOME CREATURE," or some kind of freak. He has had to live like a criminal much of the time—for fear someone would "find out" about him. He feels guilty for having "failed" his family. (Is it any wonder the suicide rate for homosexuals is so high?)

I do not know whether homosexuals can be "cured." My medical experts insist that if they are sufficiently motivated, they can. ("A large 'if.'") But almost all my mail from homosexuals, themselves, says that the most they can hope for is "understanding" on the part of others, and the ability to accept themselves as they are, and learn to live with it.

DEAR ABBY: I just read the letter from "NO TIME TO DANCE AROUND THE TABLE," and I must share some advice an old widow gave me 26 years ago—just before my marriage. It went like this:

"Never put anything ahead of your husband. If he wants you to go fishing, with him go!"

"If he wants to dance around the table—dance! The dishes will wait, and the kids will love you more for making their father happy. I don't believe a marriage ever succeeded because the wife was first of all a good housekeeper."

"You see, my dear, I always put a clean house first. Then one day my husband died suddenly of a heart attack. Now I have plenty of time. But for what?"

She concluded her advice by saying that the day her husband died he had asked her to go fishing with him, but she had said, "No, it's Monday, and that's washday."

I have followed that woman's advice. I've raised a family, too, and I never had to worry about my husband finding a "back alley romance." I romanced him at home, whenever HE felt like it, and not after the dishes were done.

ADVICE FROM MINNEAPOLIS DEAR ABBY: Sound advice! I'll pass it along to "Mrs. Clean" to keep her husband from heading for the "back alley" in search of romance.

Views on Television

By CYNTHIA LOWRY
AP Television-Radio Writer

NEW YORK (AP) — CBS and ABC demonstrated Sunday that the TV networks have learned from viewers' howls to finish any sports event they start.

On CBS, the hockey game in which Boston defeated Toronto 7-6 was allowed to continue to the finish, chewing away half of the season premier of Jean-Claude Killy's taped ski series.

On ABC, coverage of the Andy Williams-San Diego Open Golf Tournament went right on to the sudden death playoff required when Los Angeles' Pete Brown tied England's Tony Jacklin.

Brown won by a single putt on the first playoff hole, but it meant that viewers in the eastern part of the nation were plunged into the middle of the regularly scheduled "Land of the Giants" program.

NBC on Saturday morning presented the second in its "American Rainbow" series of children's programs, a sort of introduction to the performing arts by way of a tour through New York's Lincoln Center.

One standard method of conducting a worthy children's program is to go on a TV trip—this time it was a trip to culture-land.

Opera stars Robert Merrill and Richard Tucker sang arias; actor Robert Symonds did lines from "Cyrano"; Julie Harris read Emily Dickinson; and so on.

It was all very pleasant, not very imaginative but an improvement over the usual Saturday morning fare. The show's commercials, tied closely to the series title, do come on pretty strong and sell pretty hard.

On Saturday night, a number of stations in the nation broadcast a 90-minute adaptation of the 1928 stage hit "The Front Page." After 42 years, it was played in the rollicking spirit of the pre-Depression period by an all-star cast.

Some portions weathered the years better than others, but it was still lusty, raffish and funny. And the show's final line, which always brought down the house, was permitted to go on uncensored although that combination of three words is, under

other conditions, strictly forbidden.

On Friday, CBS substituted a new comedy series, "The Tim Conway Show," for an old comedy series, "The Good Guys." The mystery is why it bothered.

This one has the star playing the bumbling pilot of a shoe-string deadline. The humor consists of such devices as having the pilot and copilot locked in the passenger compartment while the plane is looping wildly through the sky.

Conway, who has been seen on assorted variety hours, is a talented comedian when he has some material. He seems wasted in this.

Also on Friday night, NBC presented a delightful nature study, "The World of the Beaver." The excellent photography showed the animals in all stages of development. Henry Fonda handled the warm and perceptive script with just the right touches of humor and sentiment. It was one of those rare programs that the whole family can enjoy together.

ABC will broadcast "The Journey of Robert F. Kennedy," a 90-minute film about the senator, on Feb. 17. It was produced by David Wolper, written by Arthur Schlesinger Jr., and narrated by John Huston. It draws on family photographs and home movies as well as film clips made during his years in the public eye.

Too Much Life

LONDON (AP) — A distinguished British physicist says "too much has been done to prolong life when it has lost most of its value."

Sir George Thompson, 77-year-old Nobel prize winner, made what he called "an appeal to doctors" in the medical journal Lancet. Thomson cited pneumonia as the "old man's friend" which has deserted him — driven away by antibiotics, and leaving him to a life he might no longer desire.

Dear Abby: By Abigail Van Buren

Make Use Of Your Christmas Gifts

DEAR ABBY: I don't know when the smell of a man who has done an honest day's work went out of style, but I am from the old school, and I have no intentions of changing.

I put in a good day's work, and naturally I perspire, but that doesn't bother me. I shower every morning and I know I'm clean. At Christmastime I got some perfumed-tissue and a perfume bottle and a fancy kit with all kinds of deodorants from some people I work with. If that was supposed to be a hint, it didn't work. In Europe, real he-men don't use perfume and deodorants. They smell like MEN!

Do me a favor, Abby, and back me up. I say men should smell like men, not like a flower garden.

ALL MAN: I think I've heard from some of your co-workers. A real "he-man" needn't smell like a flower garden, neither should he smell like a mountain goat. There are many nonfragrant deodorants on the market especially for "he-men," so pick up the scent and smell good, like a gentleman should.

DEAR ABBY: I read with an aching heart the letter from "TROUBLED OUT WEST" who is married to a homosexual. She has my heartfelt sympathy. I have lived in her situation for 20 years. The first 10 trying to make it work, and the second 10 in hell.

Because of the possible publicity attending a divorce,

plus the fact that I could never have supported my children alone, I stayed married to him, but the price is almost too much to bear.

If "TROUBLED" is still young and has parents or someone to help support her children, my advice to her would be to get out and never look back.

If she thinks things are bad now, wait until he gets older. Her daily lot will be humiliation, loneliness and fear of exposure. And she'll never know the luxury of being able to confide in a living soul.

As TROUBLED no doubt knows, the homosexual is a crippled personality in other ways than sex. This is not text book talk. I've been there.

TWENTY YEAR STRETCH DEAR STRETCH: If, as you say, "a homosexual is a crippled personality," who can blame him? All his life he's heard that he's a "SICK, PERVERTED, ABOMINABLE, LOATHSOME CREATURE," or some kind of freak. He has had to live like a criminal much of the time—for fear someone would "find out" about him. He feels guilty for having "failed" his family. (Is it any wonder the suicide rate for homosexuals is so high?)

I do not know whether homosexuals can be "cured." My medical experts insist that if they are sufficiently motivated, they can. ("A large 'if.'") But almost all my mail from homosexuals, themselves, says that the most they can hope for is "understanding" on the part of others, and the ability to accept themselves as they are, and learn to live with it.

DEAR ABBY: I just read the letter from "NO TIME TO DANCE AROUND THE TABLE" and I must share some advice an old widow gave me 26 years ago—just before my marriage. It went like this:

"Never put anything ahead of your husband. If he wants you to go fishing, with him go!

"If he wants to dance around the table—dance! The dishes will wait, and the kids will love you more for making their father happy. I don't believe a marriage ever succeeded because the wife was first of all a good housekeeper.

"You see, my dear, I always put a clean house first. Then one day my husband died suddenly of a heart attack. Now I have plenty of time. But for what?"

She concluded her advice by saying that the day her husband died he had asked her to go fishing with him, but she had said, "No, it's Monday, and that's washday."

I have followed that woman's advice. I've raised a family, too, and I never had to worry about my husband finding a "back alley romance." I romanced him at home, whenever HE felt like it, and not after the dishes were done.

ADVICE FROM MINNEAPOLIS DEAR ABBY: Sound advice! I'll pass it along to "Mrs. Clean" to keep her husband from heading for the "back alley" in search of romance.

Views on Television

By CYNTHIA LOWRY
AP Television-Radio Writer

NEW YORK (AP) — CBS and ABC demonstrated Sunday that the TV networks have learned from viewers' howls to finish any sports event they start.

On CBS, the hockey game in which Boston defeated Toronto 7-6 was allowed to continue to the finish, chewing away half of the season premier of Jean-Claude Kilby's taped ski series.

It draws on family photographs and home movies as well as film clips made during his years in the public eye.

ELECTRIFYING NEWS — J. Curtis Counts, director of the Federal Mediation and Conciliation Service, announces in New York that the General Electric Co. strike involving 13,000 GE employees—longest strike in the company's history—has been tentatively settled. The rank and file union members must approve the settlement, which reportedly calls for a 25 per cent wage increase over 40 months.

New Wave Of Arctic Cold Brings Storms Across U.S.

By THE ASSOCIATED PRESS
A fresh outbreak of zero cold pushed into the midcontinent along a wide front today while thunderstorms lashed portions of the Southeast with wind and rain.
Cold-wave warnings were posted in parts of 11 states from Montana to Michigan and south to Missouri. Temperatures plunged far below zero in the northern plains where the cold was intensified by winds of 40 to 50 miles an hour.
Wind also accompanied the heavy weather in the Southeast. The Weather Bureau reported 11 tornadoes were counted Sunday as a storm system swept along the Gulf Coast from near Houston, Tex., to northeastern Florida.
Hurricane-force winds hit

New Orleans during an afternoon Mardi Gras parade and injured 11 persons. Several floats were tipped over and the parade was canceled.
Seventeen other persons also were injured, either in twisters or high winds, in other areas of southern Louisiana and in Mississippi.
The storms dumped 1 to 2 inches of rain over a wide stretch of the Southeast and scattered snow into the southern Appalachians. Two to 3 inches of snow fell during the night along the Tennessee-North Carolina border.
Drops in temperature frequently were sudden. Duluth, Minn., had a reading of 30 at 6 p.m. Sunday; at midnight the mercury had fallen to -5.
Unseasonably mild weather

continued from the eastern Great Lakes into New England with overnight lows in the 30s and 40s.
Temperatures before dawn ranged from 24 below zero at International Falls, Minn., to 72 at Key West Fla.
Some other reports: Boston 38 partly cloudy, New York 39 partly cloudy, Philadelphia 34 partly cloudy, Washington 44 cloudy, Atlanta 50 cloudy, Miami 70 clear, Detroit 38 cloudy, Chicago 40 cloudy, Minneapolis-St. Paul 41 clear, St. Louis 38 rain, Kansas City 42 cloudy, Dallas 45 cloudy, Denver 26 snow, Phoenix 54 clear, Los Angeles 69 clear, San Francisco 49 clear, Seattle 43 cloudy, Anchorage 18 cloudy, Honolulu 74 partly cloudy.

Cities Get \$30 Million Hike In Anticrime Funds

WASHINGTON (AP) — The nation's cities will get a \$30 million financial boost from the federal government in their efforts to solve pressing crime problems and launch special crime-control activities.
The money, available over the next five months from the Law Enforcement Assistance Admin-

istration, comes from special action funds that the crime-fighting agency may award at its own discretion during the current fiscal year.
Atty. Gen. John N. Mitchell said 112 cities, including the 69 largest and others with high crime rates, will be eligible to apply for assistance from a spe-

cial \$10 million crime control fund of the LEAA.
Mitchell also said another \$20 million fund will provide grants to cities and states seeking to develop more effective programs in several criminal justice fields.
LEAA Director Charles H. Rogovin said the agency expects to award from 60 to 90 grants from the \$10 million fund, ranging from a maximum \$250,000 for cities of more than 1 million population to a maximum of \$150,000 for other eligible cities.

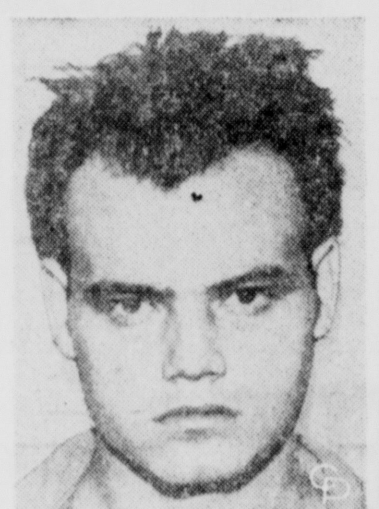

News Association Provides Forum For Senate Hopefuls

COLUMBUS, Ohio (AP)—The Ohio Newspaper Association's annual convention opening here Thursday, Feb. 12, will provide a platform for at least three of the major candidates for U.S. Senator from Ohio.
During a Friday, Feb. 13 breakfast session, John H. Glenn Jr., Howard Metzenbaum, the Democratic candidates for the nomination, and Robert Taft Jr., a Republican contender for the nomination, will participate in a panel program.
Gov. James A. Rhodes, who will be Taft's opponent, has a schedule conflict and won't be on the panel, but he will attend the ONA banquet Feb. 14 and present awards to outstanding Ohioans.

Washington: Richard C. Steele, Worcester, Mass., publisher and president of the American Newspaper Publishers Association Research Institute; Dr. Werner von Braun, director of Space Agency center at Huntsville, Ala.; Jurate Kazickas, Associated Press Newsfeatures writer on youth, fashion, the home and consumer; B. E. Wright, vice president of staff operations, Lindsay - Schaub Newspapers, Decatur, Ill.; and Ohio Congressmen Samuel L. Devine of Columbus, Wayne L. Hays of Flushing, and J. William Stanton of Painesville.

Among programs to be funded are special efforts against street crime, improvement of police-community cooperation, special narcotics control programs, anti-organized crime projects, improved misdemeanor court operations, and special councils to coordinate citywide law enforcement improvements.
The 112 target cities, as well as other city, county and state governments, will be eligible to seek money under the \$20 million program. The largest amount—4.75 million—would go for police improvement programs.

The panel plan calls for each of the three candidates to speak briefly, then answer questions from a panel of newsmen. Raymond E. Dix, publisher of the Wooster Daily Record and ONA board chairman, will be moderator.
Among speakers during sessions will be John W. Fisher, special assistant on international relations to the president of Abitibi Paper Co., Toronto; Kenneth A. Cox of the Federal Communications Commission.

YABLONSKI KEY — James C. Phillips (above), who reportedly gave information to the FBI on the three men indicted in Cleveland in the murders of UMW leader Joseph Yablonski and his wife and daughter, has been named as a co-conspirator in the case. Phillips, 23, reportedly backed out of the conspiracy before the murders.

Pomona Grange Program Announced
"When, What and Where of Success" is the theme selected for the Winter Session of Pomona Grange No. 26 scheduled to start 11 a.m. Saturday at the 4-H Grange building on the county fairgrounds.
The sharing of host responsibilities by Saltcreek Valley Grange 2314 is being arranged by Francis Fraunfelder, master and Mrs. Fred DeLong, chairman of women's activities.

Continue Probe Of Yablonski Family Slayings

CLEVELAND, Ohio (AP)—A federal grand jury resumes digging Tuesday into what U.S. Attorney Robert Krupansky calls the "broadening aspects" of the Joseph Yablonski family murder investigation.

The grand jury, before recessing last Thursday, returned conspiracy indictments against three Cleveland men in the slayings of Yablonski, 59, a United Mine Workers insurgent, his wife and daughter Dec. 31 at the family's home near Clarksville, Pa.
The three, Paul E. Gilly, 36, Claude E. Vealey, 26, and Aubran W. Martin, 21, have been charged with murder in the slayings by Pennsylvania authorities.
They were to be arraigned here today on the conspiracy charges and Pennsylvania authorities planned to begin extradition proceedings on the murder charges sometime this week.
The grand jury detailed an alleged murder-for-hire plot and named two other persons, Gilly's wife, Annette, 29, and James C. Phillips, 23, as co-conspirators. They were not indicted, however.
When the jury reconvenes Tuesday it is expected to hear testimony from Mrs. Gilly's father, retired miner Silious Huddleston of LaFollette, Tenn.
The indictments, issued after three days of testimony, said the conspirators traveled to LaFollette Nov. 12 and met Mrs. Gilly and "other persons unknown to the grand jury."
Phillips, also of Cleveland, was named as one of the original conspirators but, according to the indictment, backed out 10 days before the murders.

Head Start Failing In Purpose?

WASHINGTON (AP) — Head Start, the federal program designed to increase opportunities for children of the poor, nears the beginning of its fifth year with its top officials wondering whether it's headed in the right direction.
In human terms, Head Start has brought special training in cleanliness, nutrition and health to more than 200,000 preschool children annually. There have been eye-opening field trips for youngsters who had never been out of squalid neighborhoods. And there have been a myriad of other activities intended to give the disadvantaged children an even break.
To this end, just over one billion dollars has been budgeted

since the program began in 1965. Yet it has become increasingly clear that the money and the good will behind Head Start have not been enough. Head Start still is trying to get off the ground.
"There is mounting evidence that Head Start has not proved as effective as had earlier been thought," President Nixon told Congress last year.
"But the program still is experimental," he said. "If there is one clear lesson... it is that such intervention is more complicated and difficult than had been expected, and more fraught with frustration."
An evaluation by the Westinghouse Learning Corp. at Ohio University, carried out for the Office of Economic Opportunity, confirmed the President's summation.
The Westinghouse study focused on children who had been out of the program for three years. This was deliberate. The object was to find out if the Head Start experience helped children once they entered school. It didn't help significantly, the report indicated.
The results of the study, together with other evidence that Head Start was not achieving what was hoped for, led the president last April to shift the program to a new Office of Child Development in the Department of Health, Education and Welfare (HEW). It previously had been administered by the Office of Economic Opportunity (OEO).
"We believe this is going to strengthen the program in the long run," said Head Start Associate Director Richard Orton.
Even so, Orton acknowledges that the chief emphasis in the immediate future is going to be on trying to figure out where the program goes from here.
"We're uncertain about a number of things," he said.
"What, precisely, should Head Start consist of to be most effective? For how long should help be given? What is the best age for it to be given?"
It will take years to get answers to these and other questions, Orton said. "We have some studies in progress now

and we plan to start a number of others in the near future to find the answers.
"But, even as it is, Head Start is providing... a focus to alert the American people to the importance of these early years in a child's early growth."
Physician Blasts Pollution Board
CHARLESTON, W. Va. (AP) —Dr. Isador Buff of Charleston, a physician and member of the West Virginia Air Pollution Commission, claims the "Ohio Air Pollution Commission is impotent, industry-oriented, and never has co-operated with any interstate pact except by word of mouth."
Buff, who will address the Steubenville Citizens Committee on Air Pollution Friday evening, said he has been mapping areas of air pollution in Ohio and will name industries in various sections of the state which he claims are guilty of polluting the air.

New Wave Of Arctic Cold Brings Storms Across U.S.

By THE ASSOCIATED PRESS

A fresh outbreak of zero cold pushed into the midcontinent along a wide front today while thunderstorms lashed portions of the Southeast with wind and rain.

Cold-wave warnings were posted in parts of 11 states from Montana to Michigan and south to Missouri. Temperatures plunged far below zero in the northern plains where the cold was intensified by winds of 40 to 50 miles an hour.

Wind also accompanied the heavy weather in the Southeast. The Weather Bureau reported 11 tornadoes were counted Sunday as a storm system swept along the Gulf Coast from near Houston, Tex., to northeastern Florida.

Hurricane-force winds hit

New Orleans during an afternoon Mardi Gras parade and injured 11 persons. Several floats were tipped over and the parade was canceled.

Seventeen other persons also were injured, either in twisters or high winds, in other areas of southern Louisiana and in Mississippi.

The storms dumped 1 to 2 inches of rain over a wide stretch of the Southeast and scattered snow into the southern Appalachians. Two to 3 inches of snow fell during the night along the Tennessee-North Carolina border.

Drops in temperature frequently were sudden. Duluth, Minn., had a reading of 30 at 6 p.m. Sunday; at midnight the mercury had fallen to -5.

Unseasonably mild weather

continued from the eastern Great Lakes into New England with overnight lows in the 30s and 40s.

Temperatures before dawn ranged from 24 below zero at International Falls, Minn., to 72 at Key West Fla.

Some other reports: Boston 38 partly cloudy, New York 39 partly cloudy, Philadelphia 34 partly cloudy, Washington 44 cloudy, Atlanta 50 cloudy, Miami 70 clear, Detroit 38 cloudy, Chicago 40 cloudy, Minneapolis-St. Paul 41 clear, St. Louis 38 rain, Kansas City 42 cloudy, Dallas 45 cloudy, Denver 26 snow, Phoenix 34 clear, Los Angeles 60 clear, San Francisco 49 clear, Seattle 43 cloudy, Anchorage 18 cloudy, Honolulu 74 partly cloudy.

Cities Get \$30 Million Hike In Anticrime Funds

WASHINGTON (AP) — The nation's cities will get a \$30 million financial boost from the federal government in their efforts to solve pressing crime problems and launch special crime-control activities.

The money, available over the next five months from the Law Enforcement Assistance Admin-

istration, comes from special action funds that the crime-fighting agency may award at its own discretion during the current fiscal year.

Atty. Gen. John N. Mitchell said 112 cities, including the 69 largest and others with high crime rates, will be eligible to apply for assistance from a spe-

cial \$10 million crime control fund of the LEAA.

Mitchell also said another \$20 million fund will provide grants to cities and states seeking to develop more effective programs in several criminal justice fields.

LEAA Director Charles H. Rogovin said the agency expects to award from 60 to 90 grants from the \$10 million fund, ranging from a maximum \$250,000 for cities of more than 1 million population to a maximum of \$150,000 for other eligible cities.

News Association Provides Forum For Senate Hopefuls

COLUMBUS, Ohio (AP)—The Ohio Newspaper Association's annual convention opening here Thursday, Feb. 12, will provide a platform for at least three of the major candidates for U.S. Senator from Ohio.

During a Friday, Feb. 13 breakfast session, John H. Glenn Jr., Howard Metzger, the Democratic candidates for the nomination, and Robert Taft Jr., a Republican contender for the nomination, will participate in a panel program.

Gov. James A. Rhodes, who will be Taft's opponent, has a schedule conflict and won't be on the panel, but he will attend the ONA banquet Feb. 14 and present awards to outstanding Ohioans.

The panel plan calls for each of the three candidates to speak briefly, then answer questions from a panel of newsmen. Raymond E. Dix, publisher of the Wooster Daily Record and ONA board chairman, will be moderator.

Among speakers during sessions will be John W. Fisher, special assistant on international relations to the president of Abitibi Paper Co., Toronto; Kenneth A. Cox of the Federal Communications Commission.

Washington: Richard C. Steele, Worcester, Mass., publisher and president of the American Newspaper Publishers Association Research Institute; Dr. Werner von Braun, director of Space Agency center at Huntsville, Ala.; Jurate Kazickas, Associated Press Newsfeatures writer on youth, fashion, the home and consumer; B. E. Wright, vice president of staff operations, Lindsay-Schaub Newspapers, Decatur, Ill.; and Ohio Congressmen Samuel L. Devine of Columbus, Wayne L. Hays of Flushing, and J. William Stanton of Painesville.

YABLONSKI KEY — James C. Phillips (above), who reportedly gave information to the FBI on the three men indicted in Cleveland in the murders of UMW leader Joseph Yablonski and his wife and daughter, has been named as a co-conspirator in the case. Phillips, 23, reportedly backed out of the conspiracy before the murders.

Pomona Grange Program Announced

"When, What and Where of Success" is the theme selected for the Winter Session of Pomona Grange No. 26 scheduled to start 11 a.m. Saturday at the 4-H Grange building on the county fairgrounds.

The sharing of host responsibilities by Salt Creek Valley Grange 2314 is being arranged by Francis Fraumfelter, master and Mrs. Fred DeLong, chairman of women's activities.

Continue Probe Of Yablonski Family Slayings

CLEVELAND, Ohio (AP)—A federal grand jury resumes digging Tuesday into what U.S. Attorney Robert Krupansky calls the "broadening aspects" of the Joseph Yablonski family murder investigation.

The grand jury, before recessing last Thursday, returned conspiracy indictments against three Cleveland men in the slayings of Yablonski, 59, a United Mine Workers insurgent, his wife and daughter Dec. 31 at the family's home near Clarksville, Pa.

The three, Paul E. Gilly, 36, Claude E. Vealey, 26, and Aubran W. Martin, 21, have been charged with murder in the slayings by Pennsylvania authorities.

They were to be arraigned here today on the conspiracy charges and Pennsylvania authorities planned to begin extradition proceedings on the murder charges sometime this week.

The grand jury detailed an alleged murder-for-hire plot and named two other persons, Gilly's wife, Annette, 29, and James C. Phillips, 23, as co-conspirators. They were not indicted, however.

When the jury reconvenes Tuesday it is expected to hear testimony from Mrs. Gilly's father, retired miner Silious Huddleston of LaFollette, Tenn.

The indictments, issued after three days of testimony, said the conspirators traveled to LaFollette Nov. 12 and met Mrs. Gilly and "other persons unknown to the grand jury."

Phillips, also of Cleveland, was named as one of the original conspirators but, according to the indictment, backed out 10 days before the murders.

Head Start Failing In Purpose?

WASHINGTON (AP) — Head Start, the federal program designed to increase opportunities for children of the poor, nears the beginning of its fifth year with its top officials wondering whether it's headed in the right direction.

In human terms, Head Start has brought special training in cleanliness, nutrition and health to more than 200,000 preschool children annually. There have been eye-opening field trips for youngsters who had never been out of squalid neighborhoods. And there have been a myriad of other activities intended to give the disadvantaged children an even break.

To this end, just over one billion dollars has been budgeted

Brown Wants Call On Behalf Of POWs

COLUMBUS, Ohio (AP) — Atty. Gen. Paul Brown, himself a prisoner of war in World War II, has asked the legislature to adopt a joint resolution supporting "the 36 Ohio families involved in efforts to persuade the Hanoi government to release information about American servicemen in Southeast Asia."

Brown wrote House and Senate leaders over the weekend in behalf of the Ohio families with servicemen who are prisoners or missing in action in Viet Nam.

since the program began in 1965. Yet it has become increasingly clear that the money and the good will behind Head Start have not been enough. Head Start still is trying to get off the ground.

"There is mounting evidence that Head Start has not proved as effective as had earlier been thought," President Nixon told Congress last year.

"But the program still is experimental," he said. "If there is one clear lesson . . . it is that such intervention is more complicated and difficult than had been expected, and more fraught with frustration."

An evaluation by the Westinghouse Learning Corp. at Ohio University, carried out for the Office of Economic Opportunity, confirmed the President's summation.

The Westinghouse study focused on children who had been out of the program for three years. This was deliberate. The object was to find out if the Head Start experience helped children once they entered school. It didn't help significantly, the report indicated.

The results of the study, together with other evidence that Head Start was not achieving what was hoped for, led the president last April to shift the program to a new Office of Child Development in the De-

partment of Health, Education and Welfare (HEW). It previously had been administered by the Office of Economic Opportunity (OEO).

"We believe this is going to strengthen the program in the long run," said Head Start Associate Director Richard Orton.

Even so, Orton acknowledges that the chief emphasis in the immediate future is going to be on trying to figure out where the program goes from here.

"We're uncertain about a number of things," he said.

"What, precisely, should Head Start consist of to be most effective? For how long should help be given? What is the best age for it to be given?"

It will take years to get answers to these and other questions, Orton said. "We have some studies in progress now

and we plan to start a number of others in the near future to find the answers.

"But, even as it is, Head Start is providing . . . a focus to alert the American people to the importance of these early years in a child's early growth."

Physician Blasts Pollution Board

CHARLESTON, W. Va. (AP) — Dr. Isador Buff of Charleston, a physician and member of the West Virginia Air Pollution Commission, claims the "Ohio Air Pollution Commission is impotent, industry-oriented, and never has co-operated with any interstate pact except by word of mouth."

Buff, who will address the Steubenville Citizens Committee on Air Pollution Friday evening, said he has been mapping areas of air pollution in Ohio and will name industries in various sections of the state which he claims are guilty of polluting the air.

Mustangs Gallop Over Southeastern '5', 72-61

By BILL McGAFFNEY
Herald Sports Editor

Putting together a good team offense coupled with an adequate defense the Westfall Mustangs downed the Panthers of Southeastern, 72-61, Saturday night in the Mustangs' corral.

The two squads played the first half fairly even, a slow third quarter, but then the Mustangs reared up and stampeded to victory.

Greg Bigam set the gait for the Mustangs netting 12 of 24 attempts from the field and converting 10 of 10 from the charity stripe for a total of 34 points for the evening.

It took a solid team effort to tame the Panthers and the Mustangs were up to the challenge playing one of their best games of the season. With Bill Blair hitting from the sides, Tom Hawker, Randy Alkire, Steve Sines connecting from the lane and Bigam putting on a great display underneath the basket it was a well earned win.

HAWKER added 10 markers to the plus side of the Westfall ledger, Blair contributed nine, Alkire nine, Sines seven and Bruce Beatty had two completing the scoring.

Dwight Hill led the Panthers

with 17-points followed by Greg Prater with 16, John Skaggs 15, Steve Downs five, Mack Babbee four and Mike Wade had four to complete the total.

With Skaggs hitting from all angles the Southeastern cagers jumped off to an early lead in the first quarter and were out in front 21-16 when the buzzer signalled the end of the period. Bigam paced the Mustangs in the canto and kept them in the game.

Prater had a hot hand for the Panthers in the second period but the team from Westfall answered the "throwing of the gauntlet" with a fine effort by Hawker and Alkire. The close of the half saw the Panther lead cut to one point, 41-40.

The third quarter turned out to be a slowdown period and Westfall had the best of it gaining a 52-48 advantage at the conclusion of the canto.

In the final period the Mustangs came home free as Bigam and Blair took the bit in their teeth and led the Mustang herd to a conquest of the Panthers, 72-61.

WESTFALL won all the statistics hitting 29 of 61 from the floor for a 48 per cent average, 14 of 24 from the foul line for 58 per cent and gathered in 28 rebounds. Bigam pulled off 14 misses and got good help from Blair and Hawker.

Southeastern had 28 of 68 from the field, 41 per cent, connected on 5 of 12 from the charity stripe for 42 per cent and had 24 rebounds. Prater and Skaggs were the top rebounders for the Panthers.

The Southeastern reserves displayed a fine scoring punch downing the Mustang Ponies 66-51. Westfall tied the score, 36-36, with three minutes left in the third period but the little Panthers hit on two quick shots and the Mustangs never got close again.

Wayne Collins with 22-points led the scoring for Southeastern while Larry Harris put on a real performance for the Mustangs hitting 11 shots from the floor and 11 more from the foul stripe to garner 33 for the evening.

Coach Paul Hoskins' cagers will have a busy week meeting with the Vikings of Teays Valley Friday on the Viking court and hosting the Tigers of Circleville on Saturday. The Mustangs are now 7-9 on the season.

WESTFALL
Bigam, 12-10-34; Blair, 4-1-9; B. Beatty, 1-0-2; Hawker, 5-1-11; Sines, 3-1-7; Alkire, 4-1-9. Totals, 29-61-72.

SOUTHEASTERN
Wade, 2-0-4; Prater, 7-2-16; Skaggs, 9-1-15; Barber, 3-0-4; Hill, 8-1-17; Downs, 2-1-5. Totals, 28-52-68.

Imokalee Winner Of Key Stakes
By ED SCHUYER JR.
Associated Press Sports Writer

There's nothing like a quick return on your investment, and Imokalee, a 3-year-old colt, produced just that for A.H. and A.M. Stall.

Imokalee, purchased by the Stalls from Peter Fuller last Friday, won the \$22,550 Francis Scott Key Stakes Saturday at Bowie by two lengths over J.B. Farm's favored Rollicking, with David Shafer's Misty-brava third.

Catholic Schools Slate Track Meet
COLUMBUS, Ohio (AP) — Track coaches from 28 Catholic high schools in Ohio, aware that parochial school pupils generally do not fare well in competition with public schools, have organized their own group and plan to hold their own state track meet.

The coaches presented their plan Saturday at a coaches' clinic at Ohio State University attended by 400 - 500 Ohio coaches.

Yonkers, N.Y., Raceway averaged 20,091 fans for its first 102 nights of harness racing this season.

Maravich gave the arena-jamming crowd of 11,000 a happy ending as the Tigers toppled Ole Miss 109-66 in one of the top games in an otherwise upset-studded Saturday.

Vanderbilt shocked second-ranked Kentucky 89-81; Loyola of Chicago upset seventh-ranked Marquette 76-72 and Notre Dame surprised 10th-rated Illinois 86-83.

Elsewhere, top-rated UCLA raced to its 16th victory without a defeat this year by clouting Stanford 102-84; third-ranked St. Bonaventure beat Niagara, 89-81; No. 4 South Carolina stopped Duke 67-55; No. 8 North Carolina State clubbed Clemson 119-87 and No. 9 North Carolina tripped Maryland 77-69.

A Maravich one-hander from 23 feet out, a typical arching missile, with 4:43 left in the game pushed him past Robertson and triggered a spillover from the stands.

"Look, we've still got to finish the game," he pleaded, pointing to the game clock as teammates hoisted him aloft.

Maravich said he may have been pressing after tying Robertson's mark with his 28th point. He missed four shots in a row.

"I was off balance on a few of those shots," said the tousled-hair Maravich, famous for playing with ill-fitting socks.

Vanderbilt Coach Roy Skinner said it was the Commodores' ability to cut off Kentucky's

Pete Brown Wins San Diego Open; Edges Out Jacklin

By BOB GREEN
SAN DIEGO (AP) — Pete Brown, a one-time polio victim who learned his golf on the formula of "play three holes and run," was given a second chance by Tony Jacklin and Jack Nicklaus and ran right into the biggest payday of his life.

"I choked," the soft-spoken Brown said Sunday after missing a four-foot birdie putt on the 72nd hole that would have given him the title outright in the \$150,000 Andy Williams-San Diego Open.

But he conquered the growing pressure that built while he waited for Jacklin and Nicklaus to play the 501-yard, par-five final hole, then won a sudden-death playoff for his second title in a 17-year pro career.

Nicklaus, the leader or co-leader through the first three rounds, and Jacklin needed birdies on the final hole to tie. Nicklaus was short in two, chipped close and missed a four-foot putt.

Jacklin put a three-wood just on the back fringe in two, putted from 12 feet and missed. He tapped in for a bird.

But on the first extra hole the young Englishman put his tee shot behind a tree, hit the tree and was on in three, about 10 feet away. Brown was on the fringe in two, putted to within 18 inches and watched while Jacklin missed. He tapped in and it was over.

Brown, one of the few Negroes on the tour, fired a stunning, seven-under-par 65 on the final round to come from seven strokes back and gain a tie at 275. Jacklin had a 71 and the downcast Nicklaus a 72, with Jack finishing third at 276.

Nicklaus said he was dropping off the tour for an undetermined length of time.

Tom Weiskopf had a 69 for 278 and was followed by Grier Jones, 66, and Terry Dill, 74, at 279. The group at 280 included Frank Beard, Dave Hill, Don January, Tommy Aaron, and George Knudson.

Brown is sponsored by Jim Brown, the former pro football star. His only previous victory was in the 1964 Waco Turner Open. Brown, the father of four, made only \$20,000 on the tour last year and had to survive Monday qualifying rounds to make it into the tournament.

He had an opening 76, then followed with a pair of 67s before the charge that made up so much ground.

"I didn't think I had a chance to win," Brown said. "You just don't make up seven strokes with people like Jacklin and

Indiana Tops Rockets

By THE ASSOCIATED PRESS
The Indiana Pacers got their points across to the Denver Rockets in bunches of three.

The Eastern Division leading Pacers hit a club record of eight three-point field goals Sunday in whipping the Rockets 118-105 in an American Basketball Association game.

Six Pacers scored in double figures, including Fred Lewis, with 23, and John Barnhill and Roger Brown, 21 each. Rookie Spencer Haywood led Denver with 37 points and 29 rebounds for Denver, which fell 1 1/2 games behind idle, first-place New Orleans in the West.

Carolina topped Kentucky 109-104 and Pittsburgh thrashed Miami 122-107 in other ABA action Sunday.

Saturday, New Orleans trounced Miami 111-93, New York took Dallas 113-108, Pittsburgh edged Indiana 116-112 and Denver topped Carolina 109-104.

Niagara; South Carolina built an unsurmountable, 15-point halftime lead to conquer Duke; North Carolina State just ran Clemson off the floor and North Carolina came back from a 17-point first half deficit to down upstart Maryland.

Wake Forest shaded No. 11 Davidson 74-73; Utah State upset No. 12 Houston 91-84; Wisconsin turned back No. 13 Ohio U. 91-84; 14th-ranked Penn beat Cornell 64-60; No. 15 Southern California took California 78-73; No. 16 Drake defeated Memphis State 82-76; Columbia, No. 17, blasted Princeton 76-52; Florida State, No. 18, whacked Virginia Tech 83-73; No. 19 Kansas State squeaked by Missouri 64-63 and 20th-rated Iowa whipped Indiana 100-93 in other games.

Nicklaus in front of you."

Brown, who now lives in Los Angeles, has been a pro since he was 18 and started his golfing career as a caddy in his native Jackson, Miss., on segregated courses.

"We'd sneak on either real early, six in the morning, or real late, just before dark, play three holes and run," he said.

He suffered a polio attack in 1956 and was bed ridden the entire year. He still suffers muscular problems that force him to take a rest about every fourth week.

He came back—but didn't make it big until this tournament.

OSU, Bowling Green Win Games

By THE ASSOCIATED PRESS
Ohio State and Bowling Green stayed in contention for conference titles Saturday but Ohio University dropped its first contest with a Big Ten school this season.

Ohio State, 4-2 in the Big Ten behind Iowa (4-0) and Illinois (5-0), blew a couple of 10-point leads over Northwestern and had to work for a 68-64 victory. Dave Sorenson paced the Buckeyes with 23 points while OSU's defense held Northwestern's leading scorer, Dale Kelley, to 12.

Wisconsin's unpredictable Badgers upset 13th-ranked Ohio U. 79-69 behind a 30-point output by Clarence Sherrod, 11 points above his average. The Bobcats, now 13-3, passed up the Badgers at 64-63 with three minutes left, but Wisconsin's Lloyd Adams chipped off six straight points to ice the victory.

Bowling Green, just behind Ohio U. in the Mid-American Conference standings, capitalized on free throws to down Western Michigan 97-87. Both teams

Logan Elm Tops Unioto Shermans In SVC, 66-50

By MIKE VAUGHAN
Herald Sports Writer

Logan Elm's Braves dumped the Unioto Shermans Saturday night in a Scioto Valley Conference tilt on the Braves' floor, 66-50.

Unioto gave the Braves a close race through two periods of play but couldn't keep up with the pace of the locals in the second half. LE held the visitors to only six markers in the third period.

The Braves were led by the shooting accuracy of Jeff Jones who netted 20 counters hitting on eight of 12 shots from afield and adding four more at the charity line. Mark Kneec added 17 markers. K. C. Jones copped 15, Greg Fouch netted nine and Rod Riddle managed five to round out the LE offensive.

On the boards big 6-foot 3, Mark Kneec led the five with 19 rebounds while Jeff Jones pulled eight for second honors. The team got 37 rebounds compared to the Shermans' 23.

LOGAN connected on 25 of 59 attempts from the field for 41 per cent while adding 15 points from the charity stripe. The Shermans hit only 17 of 64 shots for 24 per cent and also hit 16 free throws. LE had 18 miscues in the tilt while Unioto had 12 turnovers.

Logan Elm travels to Paint Valley Saturday.

LOGAN ELM
Kneec, 8-1-17; K. C. Jones, 3-0-15; J. Jones, 8-4-20; Riddle, 2-1-5; Fouch, 4-1-9. Totals, 25-59-66.

Porsche Wins Daytona Race; Ferrari Plagued By Trouble

By BLOYS BRITT
AP Auto Racing Writer
DAYTONA BEACH, Fla. (AP) — Porsche of Germany, with crafty Britisher John Wyrer at the helm, has won its first skirmish with the Ferrari works of Italy in a new battle for supremacy in the world of endurance racing.

Wyrer, using a combination of brilliant driver assignments and quick pit work, brought two of his powerful new Porsche 917s home to a 1-2 finish in the Daytona 24 Hours Sunday, and in the process put a damper on Ferrari's return to sports car racing after a two-year absence.

The lead car was driven by Mexico's Pedro Rodriguez, a 30-year-old veteran of 10 years in the sport, and Leo Kinnunen, a 26-year-old rookie from Finland whose only previous experience was in lighter machinery.

The No. 2 Porsche was driven by Jo Siffert, a wily 34-year-old veteran from Switzerland, and Brian Redman, 33, a gentleman sports car buff from England.

The Rodriguez-Kinnunen pair completed 2,758 miles over the

rugged 3.81-mile Daytona International Speedway track and road course at a record speed of 114.866 miles per hour. They finished 171 miles in front.

Wyrer, a 49-year-old engineer-builder who has been in racing 25 years, was hired late last year to take charge of Porsche's 1970 bid for a second straight world constructor's title.

He had won Le Mans twice with ragged old Ford GT40s and the world endurance title once. And he was available for new duty because the GT40s were to be retired for lack of parts.

The new 12-cylinder, 600-horsepower Porsche 917s were introduced last summer in time to polish off the Germans' first endurance title.

Ferrari quit sports car racing in 1967 after the FIA raised the engine limits for group 4 engines to five liters. This year, the Italian works built 25 new 512s to meet homologation rules and five of them got to Daytona without the benefit of adequate testing.

One of them, driven by U.S. champion Mario Andretti and Belgian Jacky Ickx, tried val-

iantly to prevent the Porsche sweep. Despite uncountable troubles with such things as weak suspension, Andretti had the car in second place with only five minutes to go.

But Siffert caught him on Daytona's long back stretch as 35,570 chilled spectators cheered. Siffert and Redman completed 670 laps for 2,570 miles, shading the previous record set by Lloyd Rudy and the late Ken Miles in 1966 in a GT40 that Wyrer later inherited.

The Rodriguez-Kinnunen Porsche ran flawlessly. Siffert and Redman, however, had their problems all the way and Wyrer's pit work was their salvation.

At the end, the orange and blue second place car was being held together with adhesive tape and had spent almost two hours undergoing repairs.

The Ferrari problems were almost insurmountable. The one assigned to Andretti, Ickx and Italy's young Arturo Merzario spent more than an hour in the pits during the final six hours having suspension components repaired.

Tiger Grapplers Place Second In Three Way Meet

Circleville's wrestling team took second place in a triangular meet held at the Tiger gym Saturday afternoon.

Lancaster High School walked off with top honors scoring 62-points, Circleville was runnerup with 43 and Columbus Central finished in the third spot with 41-points.

"I was disappointed in the outcome of the match," Tiger Coach Grent Bell stated, "and thought we weren't aggressive enough in some of our matches.

"Jeff Harr, Doyle Kiser, Craig Dresbach, Bill Fowler, Doug Good and Mark Davey did an excellent job of wrestling for us," Coach Bell offered.

107-pound class — Jeff Harr (C) decisioned McClenaghan

(L) and decisioned Needles (CC).

115-pound class — Mike Fuller (C) lost to Schwartz (L) and lost to Levitt (CC).

123-pound class — Mark Ebert (C) lost to Stone (CC) and to Siefert (L).

130-pound class — Doug Good (C) decisioned Stebelton (L) and lost to Flemister (CC).

137-pound class — Doyle Kiser (C) decisioned McGraw (L) and tied Stewart (CC).

145-pound class — Craig Dresbach (C) pinned O'Neil (CC) and decisioned Spires (L). 155-pound class — John Myers (C) lost to Dawson (L) 2-1 and won over Central by forfeit.

165-POUND class — Doug Moore (C) lost to Schooley (L) 2-0 and won by forfeit over Central.

175-pound class — Bill Fowler (C) decisioned Lewis (L) and won over McGowan (CC) by default.

185-pound class — Mark Davey (C) decisioned Shannon (L) and lost to LaTella (CC).

Heavyweight — John Rogers (C) lost to Grove (L) and was pinned by Berry (CC).

Circleville's next match will be 1 p.m. Saturday with Hillsboro on the Tiger mats.

Lee Evans Wins 600-Yard Run; 'Disappointed'

By TOM SALADINO
Associated Press Sports Writer

Lee Evans, a disappointed loser at the Wanamaker Millrose Games, came back with a vengeance Saturday night in Boston only to become a disappointed winner.

Evans, the Olympic 400 meters champion and world record holder, was pitted against three other record breakers in the 600-yard run Friday night and came away second best to Martin McGrady.

"I was really psyched up to make a run at Martin after last night," Evans said shortly after his 1:10.8 victory in the 600 at Boston. "I'm disappointed he didn't run."

McGrady, the world's best with a 1:09 clocking indoors for 600 yards, scratched with a sore ankle in the Boston A.A. Games Saturday night, only moments before the event, after winning in New York with a 1:10.0 meet record clocking to Evans' 1:10.5.

Track Workers Approve Contract

LOS ANGELES (AP) — California race track employees ratified a new 2 1/2-year contract Sunday night, ending the longest track strike in the state's history.

The pact, approved by a 436 to 260 vote, of the Service Employees International Union, calls for a pay increase of \$3 the first year, \$2 the second year and \$2 for the final six months. The contract expires April 1972.

Maravich gave the arena-jamming crowd of 11,000 a happy ending as the Tigers toppled Ole Miss 109-66 in one of the top games in an otherwise upset-studded Saturday.

Vanderbilt shocked second-ranked Kentucky 89-81; Loyola of Chicago upset seventh-ranked Marquette 76-72 and Notre Dame surprised 10th-rated Illinois 86-83.

Elsewhere, top-rated UCLA raced to its 16th victory without a defeat this year by clouting Stanford 102-84; third-ranked St. Bonaventure beat Niagara, 89-81; No. 4 South Carolina stopped Duke 67-55; No. 8 North Carolina State clubbed Clemson 119-87 and No. 9 North Carolina tripped Maryland 77-69.

A Maravich one-hander from 23 feet out, a typical arching missile, with 4:43 left in the game pushed him past Robertson and triggered a spillover from the stands.

"Look, we've still got to finish the game," he pleaded, pointing to the game clock as teammates hoisted him aloft.

Maravich said he may have been pressing after tying Robertson's mark with his 28th point. He missed four shots in a row.

Pete Maravich Cracks College Scoring Record

By KEN RAPPOPORT
Associated Press Sports Writer

Drizzling socks, flopping hair and all, college basketball's crown prince was holding court.

Pete Maravich glided through helpless Mississippi with the greatest of ease, his regal form twitching toward the basket intent on The Goal.

Then the roar of the crowd rolled down from the stratosphere of the Louisiana State University Coliseum as the SU wonder boy cracked Oscar Robertson's career scoring record Saturday night.

"He was superb," exulted Coach Press Maravich after watching his panther-lean son score 53 points to give him 2,987 for his career—wiping out Robertson's 2,973.

Maravich gave the arena-jamming crowd of 11,000 a happy ending as the Tigers toppled Ole Miss 109-66 in one of the top games in an otherwise upset-studded Saturday.

Vanderbilt shocked second-ranked Kentucky 89-81; Loyola of Chicago upset seventh-ranked Marquette 76-72 and Notre Dame surprised 10th-rated Illinois 86-83.

Elsewhere, top-rated UCLA raced to its 16th victory without a defeat this year by clouting Stanford 102-84; third-ranked St. Bonaventure beat Niagara, 89-81; No. 4 South Carolina stopped Duke 67-55; No. 8 North Carolina State clubbed Clemson 119-87 and No. 9 North Carolina tripped Maryland 77-69.

A Maravich one-hander from 23 feet out, a typical arching missile, with 4:43 left in the game pushed him past Robertson and triggered a spillover from the stands.

"Look, we've still got to finish the game," he pleaded, pointing to the game clock as teammates hoisted him aloft.

Maravich said he may have been pressing after tying Robertson's mark with his 28th point. He missed four shots in a row.

"I was off balance on a few of those shots," said the tousled-hair Maravich, famous for playing with ill-fitting socks.

Vanderbilt Coach Roy Skinner said it was the Commodores' ability to cut off Kentucky's

Mustangs Gallop Over Southeastern '5', 72-61

By BILL McGAFFNEY
Herald Sports Editor

Putting together a good team offense coupled with an adequate defense the Westfall Mustangs downed the Panthers of Southeastern, 72-61, Saturday night in the Mustang's corral.

The two squads played the first half fairly even, a slow third quarter, but then the Mustangs reared up and stampeded to victory.

Greg Bigam set the gait for the Mustangs netting 12 of 24 attempts from the field and converting 10 of 10 from the charity stripe for a total of 34-points for the evening.

It took a solid team effort to tame the Panthers and the Mustangs were up to the challenge playing one of their best games of the season. With Bill Blair hitting from the sides, Tom Hawker, Randy Alkire, Steve Sines connecting from the lane and Bigam putting on a great display underneath the bucket it was a well earned win.

HAWKER added 10-markers to the plus side of the Westfall ledger, Blair contributed nine, Alkire nine, Sines seven and Bruce Beatty had two completing the scoring.

Dwight Hill led the Panthers

with 17-points followed by Greg Prater with 16, John Skaggs 15, Steve Downs five, Mack Baybee four and Mike Wade had four to complete the total.

With Skaggs hitting from all angles the Southeastern cagers jumped off to an early lead in the first quarter and were out in front 21-16 when the buzzer signalled the end of the period. Bigam paced the Mustangs in the canto and kept them in the game.

Prater had a hot hand for the Panthers in the second period but the team from Westfall answered the "throwing of the gauntlet" with a fine effort by Hawker and Alkire. The close of the half saw the Panther lead cut to one point, 41-40.

The third quarter turned out to be a slowdown period and Westfall had the best of it gaining a 52-48 advantage at the conclusion of the canto.

In the final period the Mustangs came home free as Bigam and Blair took the bit in their teeth and led the Mustang herd to a conquest of the Panthers, 72-61.

Pete Brown Wins San Diego Open; Edges Out Jacklin

By BOB GREEN
SAN DIEGO (AP) — Pete Brown, a one-time polio victim who learned his golf on the formula of "play three holes and run," was given a second chance by Tony Jacklin and Jack Nicklaus and ran right into the biggest payday of his life.

"I choked," the soft-spoken Brown said Sunday after missing a four-foot birdie putt on the 72nd hole that would have given him the title outright in the \$150,000 Andy Williams-San Diego Open.

But he conquered the growing pressure that built while he waited for Jacklin and Nicklaus to play the 501-yard, par-five final hole, then won a sudden-death playoff for his second title in a 17-year pro career.

Nicklaus, the leader or co-leader through the first three rounds, and Jacklin needed birdies on the final hole to tie. Nicklaus was short in two, chipped close and missed a four-foot putt.

Jacklin put a three-wood just on the back fringe in two, putted from 12 feet and missed. He tapped in for a bird.

But on the first extra hole the young Englishman put his tee shot behind a tree, hit the tree and was on in three, about 10 feet away. Brown was on the fringe in two, putted to within 18 inches and watched while Jacklin missed. He tapped in and it was over.

Brown, one of the few Negroes on the tour, fired a stunning, seven-under-par 65 on the final round to come from seven strokes back and gain a tie at 275. Jacklin had a 71 and the downcast Nicklaus a 72.

Nicklaus said he was dropping off the tour for an undetermined length of time.

Tom Weiskopf had a 69 for 278 and was followed by Grier Jones, 66, and Terry Dill, 74, at 279. The group at 280 included Frank Beard, Dave Hill, Don January, Tommy Aaron, and George Knudson.

Brown is sponsored by Jim Brown, the former pro football star. His only previous victory was in the 1964 Waco Turner Open. Brown, the father of four, made only \$20,000 on the tour last year and had to survive Monday qualifying rounds to make it into the tournament.

He had an opening 76, then followed with a pair of 67s before the charge that made up so much ground.

"I didn't think I had a chance to win," Brown said. "You just don't make up seven strokes with people like Jacklin and

Nicklaus in front of you."

Brown, who now lives in Los Angeles, has been a pro since he was 18 and started his golfing career as a caddy in his native Jackson, Miss., on segregated courses.

"We'd sneak on either early, six in the morning, or real late, just before dark, play three holes and run," he said.

He suffered a polio attack in 1956 and was bed ridden the entire year. He still suffers muscular problems that force him to take a rest about every fourth week.

He came back—but didn't make it big until this tournament.

Porsche Wins Daytona Race; Ferrari Plagued By Trouble

By BLOYS BRITT
AP Auto Racing Writer
DAYTONA BEACH, Fla. (AP) — Porsche of Germany, with crafty Britisher John Wyer at the helm, has won its first skirmish with the Ferrari works of Italy in a new battle for supremacy in the world of endurance racing.

Wyer, using a combination of brilliant driver assignments and quick pit work, brought two of his powerful new Porsche 917s home to a 1-2 finish in the Daytona 24 Hours Sunday, and in the process put a damper on Ferrari's return to sports car racing after a two-year absence.

The lead car was driven by Mexico's Pedro Rodriguez, a 30-year-old veteran of 10 years in the sport, and Leo Kinnunen, a 26-year-old rookie from Finland whose only previous experience was in lighter machinery.

The No. 2 Porsche was driven by Jo Siffert, a wily 34-year-old veteran from Switzerland, and Brian Redman, 33, a gentleman sports car buff from England.

The Rodriguez-Kinnunen pair completed 2,758 miles over the

rugged 3.81-mile Daytona International Speedway track and road course at a record speed of 114.866 miles per hour. They finished 171 miles in front.

Wyer, a 49-year-old engineer-builder who has been in racing 25 years, was hired last year to take charge of Porsche's 1970 bid for a second straight world constructor's title.

He had won Le Mans twice with ragged old Ford GT40s and the world endurance title once. And he was available for new duty because the GT40s were to be retired for lack of parts.

The new 12-cylinder, 600-horsepower Porsche 917s were introduced last summer in time to polish off the Germans' first endurance title.

Ferrari quit sports car racing in 1967 after the FIA raised the engine limits for group 4 engines to five liters. This year, the Italian works built 25 new 512s to meet homologation rules and five of them got to Daytona without the benefit of adequate testing.

One of them, driven by U.S. champion Mario Andretti and Belgian Jacky Ickx, tried val-

iantly to prevent the Porsche sweep. Despite uncountable troubles with such things as weak suspension, Andretti had the car in second place with only five minutes to go.

But Siffert caught him on Daytona's long back stretch as 35,570 chilled spectators cheered. Siffert and Redman completed 670 laps for 2,570 miles, shading the previous record set by Lloyd Rudy and the late Ken Miles in 1966 in a GT40 that Wyer later inherited.

The Rodriguez-Kinnunen Porsche ran flawlessly. Siffert and Redman, however, had their problems all the way and Wyer's pit work was their salvation.

At the end, the orange and blue second place car was being held together with adhesive tape and had spent almost two hours undergoing repairs.

The Ferrari problems were almost insurmountable. The one assigned to Andretti, Ickx and Italy's young Arturo Merzario spent more than an hour in the pits during the final six hours having suspension components repaired.

Tiger Grapplers Place Second In Three Way Meet

Circleville's wrestling team took second place in a triangular meet held at the Tiger gym Saturday afternoon.

Lancaster High School walked off with top honors scoring 62-points, Circleville was runnerup with 43 and Columbus Central finished in the third spot with 41-points.

"I was disappointed in the outcome of the match," Tiger Coach Grent Bell stated, "and thought we weren't aggressive enough in some of our matches."

"Jeff Harr, Doyle Kiser, Craig Dresbach, Bill Fowler, Doug Good and Mark Davey did an excellent job of wrestling for us," Coach Bell offered.

107-pound class — Jeff Harr (C) decisively McClenaghan

(L) and decisively Needles (CC).

115-pound class — Mike Fuller (C) lost to Schwartz (L) and lost to Levitt (CC).

123-pound class — Mark Ebert (C) lost to Stone (CC) and to Siefert (L).

130-pound class — Doug Good (C) decisively Stebelton (L) and lost to Flemister (CC).

137-pound class — Doyle Kiser (C) decisively McGraw (L) and tied Stewart (CC).

145-pound class — Craig Dresbach (C) pinned O'Neil (CC) and decisively Spires (L).

155-pound class — John Myers (C) lost to Dawson (L) 2-1 and won over Central by forfeit.

165-POUND class — Doug Moore (C) lost to Schooley (L) 2-0 and won by forfeit over Central.

175-pound class — Bill Fowler (C) decisively Lewis (L) and won over McGowan (CC) by default.

185-pound class — Mark Davey (C) decisively Shannon (L) and lost to LaTella (CC).

Heavyweight — John Rogers (C) lost to Grove (L) and was pinned by Berry (CC).

Circleville's next match will be 1 p.m. Saturday with Hillsboro on the Tiger mats.

WESTFALL won all the statistics hitting 29 of 61 from the floor for a 48 per cent average, 14 of 24 from the foul line for 58 per cent and gathered in 28 rebounds. Bigam pulled off 14 misses and got good help from Blair and Hawker.

Southeastern had 28 of 68 from the field, 41 per cent, connected on 5 of 12 from the charity stripe for 42 per cent and had 24 rebounds. Prater and Skaggs were the top rebounders for the Panthers.

The Southeastern reserves displayed a fine scoring punch downing the Mustang Ponies 66-51. Westfall tied the score, 36-36, with three minutes left in the third period but the little Panthers hit on two quick shots and the Mustangs never got close again.

Wayne Collins with 22-points led the scoring for Southeastern while Larry Harris put on a real performance for the Mustangs hitting 11 shots from the floor and 11 more from the foul stripe to garner 33 for the evening.

Coach Paul Hoskins' cagers will have a busy week meeting the Vikings of Teays Valley Friday on the Viking court and hosting the Tigers of Circleville on Saturday. The Mustangs are now 7-9 on the season.

WESTFALL Blair, 4-1-9; B. Beatty, 1-0-2; Hawker, 5-1-11; Sines, 3-1-7; Alkire, 4-1-9. Totals, 29-6-12.

SOUTHEASTERN 7-2-12; Skaggs, 7-1-15; Barber, 2-0-4; Hill, 8-1-17; Downs, 2-1-5. Totals, 26-5-32.

Score by Qtrs. 1 2 3 Total
Westfall 21 41 48 110
Southeastern 21 41 48 110
Reserve Game: Southeastern 63, Westfall 51.

Wisconsin's unpredictable Badgers upset 13th-ranked Ohio U. 79-69 behind a 30-point outburst by Clarence Sherrod, 11 points above his average. The Bobcats, now 13-3, passed up the Badgers at 64-63 with three minutes left, but Wisconsin's Lloyd Adams chipped off six straight points to ice the victory.

Bowling Green, just behind Ohio U. in the Mid-American Conference standings, capitalized on free throws to down Western Michigan 97-87. Both teams

shot 32 per cent from the floor, but the Falcons went 29 of 34 from the free throw line compared with the Bronco's 9 for 12. Jim Penix paced BG with 33 points.

The only other Mid-American game saw Miami pull out a 60-56 overtime victory over Kent State after letting a 16-point lead slip by. Mike Wren stole a pass and scored four points in the overtime period for Miami after scoring 17 points in the second half.

Toledo and Marshall swapped the lead several times in the second half before the Rockets got the better of the West Virginia team, 88-80. Mike Murnen had 20 points for the winners and Doug Hess added 17 points and 19 rebounds.

Cincinnati won a Missouri Valley Conference decision over St. Louis 83-58 behind Jim Ard's 20 points and John Fraley's 16. The Billikens have never won at Cincinnati.

The state's top two small college independents captured easy victories. No. 4 Ashland trounced Chicago State 71-56 and No.

3 Youngstown dumped Steubenville 86-52.

Five Dayton players scored in double figures, led by Al Bertke with 23 as the Flyers whipped Colgate 97-82.

In the Ohio Conference, Wittenberg got by Muskingum 59-54. Otterbein coasted past Hiram 77-65. Marietta shaded Baldwin-Wallace 89-83 and Capital trounced Mount Union 94-72.

Xavier hit only 33 per cent from the floor but edged Detroit 70-67 for its third victory in 16 starts. Akron snapped a seven-game Wooster winning streak 94-83.

Cedarville dropped Malone 77-73 in the Mid-Ohio Conference and Case Tech won a share of the lead in the Presidents Athletic Conference with a come-

back from behind 81-75 victory over Western Reserve.

In other games Saturday it was Urbana 109, Findlay 86; Northwood, Mich. 83, Wilberforce 84; William 118, Earlham 101; Central State 74, Eastern Michigan 71; Detroit College 98, Cleveland State 97; Heidelberg 82, Defiance 76; Kenyon 114, Centre, Ky. 92; Oberlin 66, Chicago 53; Transylvania, Ky. 93, Ohio Wesleyan 78; Ohio Dominican 119, Marian, Ind. 98, and Rio Grande 82, Campbellsville, Ky. 83.

In one game Sunday, Walsh, down by nine points with two minutes to go, shaded Marian, Ind. 78-77 on the strength of a stolen ball, a field goal and two free throws in the last 50 seconds.

Lee Evans Wins 600-Yard Run; 'Disappointed'

By TOM SALADINO
Associated Press Sports Writer

Lee Evans, a disappointed loser at the Wanamaker Millrose Games, came back with a vengeance Saturday night in Boston only to become a disappointed winner.

Evans, the Olympic 400 meters champion and world record holder, was pitted against three other record breakers in the 600-yard run Friday night and came away second best to Martin McGrady.

"I was really psyched up to make a run at Martin after last night," Evans said shortly after his 1:10.8 victory in the 600 at Boston. "I'm disappointed he didn't run."

McGrady, the world's best with a 1:09 clocking indoors for 600 yards, scratched with a sore ankle in the Boston A.A. Games Saturday night, only moments before the event, after winning in New York with a 1:10.0 meet record clocking to Evans' 1:10.5.

Track Workers Approve Contract
LOS ANGELES (AP) — California race track employees ratified a new 2½-year contract Sunday night, ending the longest track strike in the state's history.

The pact, approved by a 436 to 280 vote, of the Service Employees International Union, calls for a pay increase of \$3 for the first year, \$2 the second year and \$2 for the final six months. The contract expires April 1972.

Maravich gave the arena-jamming crowd of 11,000 a happy ending as the Tigers toppled Ole Miss 109-66 in one of the top games in an otherwise upset-studded Saturday.

Vanderbilt shocked second-ranked Kentucky 89-81. Loyola of Chicago upset seventh-ranked Marquette 76-72 and Notre Dame surprised 10th-rated Illinois 86-83.

Elsewhere, top-rated UCLA raced to its 16th victory without a defeat this year by clouting Stanford 102-84; third-ranked St. Bonaventure beat Niagara, 89-81; No. 4 South Carolina stopped Duke 67-55; No. 8 North Carolina State clubbed Clemson 119-87 and No. 9 North Carolina tripped Maryland 77-69.

Imokalee Winner Of Key Stakes

By ED SCHUYER JR.
Associated Press Sports Writer

There's nothing like a quick return on your investment, and Imokalee, a 3-year-old colt, produced just that for A.H. and A.M. Stall.

Imokalee, purchased by the Stalls from Peter Fuller last Friday, won the \$22,650 Francis Scott Key Stakes Saturday at Bowie by two lengths over J.B. Farm's favored Rollicking, with David Shear's Misty-brava third.

Catholic Schools State Track Meet
COLUMBUS, Ohio (AP) — Track coaches from 28 Catholic high schools in Ohio, aware that parochial school pupils generally do not fare well in competition with public schools, have organized their own group and plan to hold their own state track meet.

The coaches presented their plan Saturday at a coaches' clinic at Ohio State University attended by 400 - 500 Ohio coaches.

Yonkers, N.Y., Raceway averaged 20,091 fans for its first 102 nights of harness racing this season.

Logan Elm Tops Unio to Shermans In SVC, 66-50

By MIKE VAUGHAN
Herald Sports Writer

Logan Elm's Braves dumped the Unio to Shermans Saturday night in a Scioto Valley Conference tilt on the Braves' floor, 66-50.

Unio gave the Braves a close race through two periods of play but couldn't keep up with the pace of the locals in the second half. LE held the visitors to only six markers in the third period.

The Braves were led by the shooting accuracy of Jeff Jones who netted 20 counters hitting on eight of 12 shots from afield and adding four more at the charity line. Mark Knece added 17 markers. K. C. Jones copped 15, Greg Fouch netted nine and Rod Riddle managed five to round out the LE offensive.

On the boards big five-foot 3, Mark Knece led the five with 19 rebounds while Jeff Jones pulled eight for second honors. The team got 37 rebounds compared to the Shermans' 23.

LOGAN connected on 25 of 59 attempts from the field for 41 per cent while adding 15 points from the charity stripe. The Shermans hit only 17 of 64 shots for 24 per cent and also hit 16 free throws. LE had 18 miscues in the tilt while Unio had 12 turnovers.

Logan Elm travels to Paint Valley Saturday.

LOGAN ELM

Indiana Tops Rockets

By THE ASSOCIATED PRESS

The Indiana Pacers got their points across to the Denver Rockets in bunches of three.

The Eastern Division leading Pacers hit a club record of eight three-point field goals Sunday in whipping the Rockets 118-105 in an American Basketball Association game.

Six Pacers scored in double figures, including Fred Lewis, with 23, and John Barnhill and Spencer Haywood led Denver with 37 points and 29 rebounds for Denver, which fell 1½ games behind idle, first-place New Orleans in the West.

Carolina topped Kentucky 109-104 and Pittsburgh thrashed Miami 122-107 in other ABA action Sunday.

Saturday, New Orleans trounced Miami 111-93, New York took Dallas 113-108, Pittsburgh edged Indiana 116-112 and Denver topped Carolina 109-104.

Saltcreek And Ashville To Meet In County Finals

The semi-final games in the Pickaway County Junior High tournament were played Saturday at the Walnut Township School with Saltcreek downing Scioto, 43-41, and Ashville upsetting Walnut, 28-26.

This sets the stage for the finals Saturday at Walnut School when Walnut will meet Scioto in the consolation contest and Saltcreek and Ashville will battle for the top honors in the tournament.

Saltcreek led the first three periods but had to fight for their lives as Scioto came on strong in the final quarter. It was a real thriller and kept the fans in an uproar throughout the contest.

Jay Justice paced Saltcreek with 17 points and Mark Moss added nine to their total.

THE Scioto cagers were led by their big gun, Larry Hollingshead, who netted 20 markers and played a fine floor game.

Ashville led the Walnut cagers for the first two cantos but fell behind in the third period when Walnut came up with a big third quarter.

Scoring 12 points in the final period and limiting Walnut to six the Ashville cagers pulled it out of the fire and garnered a 28-26 victory.

It made up for a one point loss the Ashville squad had suffered at the hands of Walnut during the regular season.

Lambert with nine and Beatty with eight were the main cogs in the Ashville attack and Logsdon was leading scorer for Walnut meshing 12 markers in the fray.

Walnut and Scioto meet 1:30 p.m. Saturday and Saltcreek and Ashville meet in the big one at 3 p.m.

Logan Elm Tops Unio to Shermans In SVC, 66-50

The semi-final games in the Pickaway County Junior High tournament were played Saturday at the Walnut Township School with Saltcreek downing Scioto, 43-41, and Ashville upsetting Walnut, 28-26.

This sets the stage for the finals Saturday at Walnut School when Walnut will meet Scioto in the consolation contest and Saltcreek and Ashville will battle for the top honors in the tournament.

Saltcreek led the first three periods but had to fight for their lives as Scioto came on strong in the final quarter. It was a real thriller and kept the fans in an uproar throughout the contest.

Jay Justice paced Saltcreek with 17 points and Mark Moss added nine to their total.

THE Scioto cagers were led by their big gun, Larry Hollingshead, who netted 20 markers and played a fine floor game.

Ashville led the Walnut cagers for the first two cantos but fell behind in the third period when Walnut came up with a big third quarter.

Scoring 12 points in the final period and limiting Walnut to six the Ashville cagers pulled it out of the fire and garnered a 28-26 victory.

It made up for a one point loss the Ashville squad had suffered at the hands of Walnut during the regular season.

Lambert with nine and Beatty with eight were the main cogs in the Ashville attack and Logsdon was leading scorer for Walnut meshing 12 markers in the fray.

Walnut and Scioto meet 1:30 p.m. Saturday and Saltcreek and Ashville meet in the big one at 3 p.m.

Pete Maravich Cracks College Scoring Record

By KEN RAPPOPORT
Associated Press Sports Writer

Drooping clogs, flopping hair and all, college basketball's crown prince was holding court.

Pete Maravich glided through helpless Mississippi with the greatest of ease, his regal form twirling toward the basket intent on The Goal.

Then the roar of the crowd rolled down from the stratosphere of the Louisiana State University Coliseum as the SU wonder boy cracked Oscar Robertson's career scoring record Saturday night.

"He was superb," exulted Coach Press Maravich after watching his panther-lean son score 53 points to give him 2,987 for his career—wiping out Robertson's 2,973.

A Maravich one-hander from 23 feet out, a typical arching missile, with 4:43 left in the game pushed him past Robertson and triggered a spillover from the stands.

"Look, we've still got to finish the game," he pleaded, pointing to the game clock as teammates hoisted him aloft.

Maravich said he may have been pressing after tying Robertson's mark with his 38th point. He missed four shots in a row.

"I was off balance on a few of those shots," said the tousled-hair Maravich, famous for playing with ill-fitting socks.

Vanderbilt Coach Roy Skinner said it was the Commodores' "ability to cut off Kentucky's

fast break" that toppled the tough Wildcats.

Tom Arnhold scored 28 points for Vanderbilt and Dan Issel led Kentucky with 26. The defeat spilled the Wildcats from first place in the Southeastern Conference.

Notre Dame's Austin Carr rifled in 36 points as the Irish whipped Illinois in the second game of a doubleheader at the Chicago Coliseum. Ball-stealing Chicago of Loyola, with five players hitting in double figures, stole the opener from Marquette.

UCLA remained the only unbeaten team in the Top Ten with its victory over Stanford; Bob Lanier scored 22 points to lead St. Bonaventure over arch-rival

Niagara; South Carolina built an unsurmountable, 15-point halftime lead to conquer Duke; North Carolina State just ran Clemson off the floor and North Carolina came back from a 17-point first half deficit to down upstart Maryland.

Wake Forest shaded No. 11 Davidson 74-73; Utah State upset No. 12 Houston 91-84; Wisconsin turned back No. 13 Ohio U. 91-84; 14th-ranked Penn beat Cornell 64-60; No. 15 Southern California took California 78-73; No. 16 Drake defeated Memphis State 82-76; Columbia, No. 17, blasted Princeton 76-52; Florida State, No. 18, whacked Virginia Tech 83-73; No. 19 Kansas State squeaked by Missouri 64-63 and 20th-rated Iowa whipped Indiana 100-93 in other games.

LOGAN ELM
Knece, 8-1-17; K. C. Jones, 3-3-15; J. Jones, 8-4-20; Riddle, 2-1-5; Fouch, 4-1-9. Totals, 25-16-66.

UNIO
Lovely, 8-15-31; Pope, 3-0-6; Crider, 2-1-5; Hice, 1-0-2; Matson, 1-0-2; Young, 2-0-4. Totals, 17-16-50.

Frick, Combs And Haines In Baseball Hall Of Fame

NEW YORK (AP) — Ford C. Frick, the former commissioner, and a couple of players who sparked in baseball's spotlight four decades ago have been elected to the Hall of Fame.

The ex-players are center fielder Earle Combs of the New York Yankees and knuckleball pitcher Jesse "Pop" Haines.

The three, all in their 70s, were elected to the Hall Sunday by the Old Timers Selection Committee. Together with Lou Boudreau, they will be enshrined in the Hall in Cooperstown, N.Y. next July.

Frick, 75, was honored for his contributions to baseball as a long-time executive who served from 1934 until his retirement in 1965.

Frick did not become eligible until he resigned Sunday morning as chairman of the selection committee.

Frick joined the National League in 1933 as a member of its publicity staff and a year later was named league president. He held that post until he became commissioner in 1951.

As commissioner, Frick said the baseball expansion program and founding of the Hall of Fame were among the most

notable achievements of his tenure. He termed the Hall's establishment as "one of the greatest things that ever happened to baseball."

Combs is now 70. He was the leadoff hitter on some of the Yankees' greatest clubs in the 1920s. Often, he was on base when Babe Ruth, Lou Gehrig or Tony Lazzeri came to bat.

Joe Cronin, American League president and a member of the selection committee, described Combs as the "tablesetter for Ruth and Gehrig."

Combs batted left-handed and threw right. He collected more than 200 hits in a season three times and scored more than 100 runs eight years in succession from 1925 through 1932, hit more than 300 eight times with a high of 356 in 1927.

Haines, 76, said he "was in hopes, and my hopes came true. I'd hoped that if I was ever going to get into the Hall, it would come before I passed on."

Most of the right-hander's career was with the St. Louis Cardinals. He pitched one game for Cincinnati in 1918 before he hurled 18 straight seasons for the Cards.

ACCUSED OF PLOT — Mrs. Billie Clodfelter, 40, breaks down in Houston, Tex., after being accused of having her husband murdered so she could collect \$250,000 in insurance. Her husband, auto dealer Tony W. Clodfelter, was shot to death Jan. 8 in the office of his used car lot. Wesley Leon Colter, 56, was charged with the murder and placed in custody.

Lakers Turn Back 76ers; Atlanta Hawks Now 2nd

By THE ASSOCIATED PRESS

The Los Angeles Lakers won in Philadelphia for the first time since 1967 and put the Atlanta Hawks somewhere they haven't been since last Nov. 2—in second place in the National Basketball Association's Western Division.

Elgin Baylor scored 33 points and Jerry West hit a pair of clinching foul shots Sunday as the Lakers beat the 76ers 113-112, while Atlanta lost 133-124 to Baltimore.

Los Angeles, winning for the eighth straight time, took a half-game lead over Atlanta, which lost its fourth straight and 10th in the last 13 games.

In other NBA action, the East-leading New York Knicks edged Detroit 117-111, Seattle upset Milwaukee 118-116, Chicago

topped Cincinnati 115-108, San Francisco trounced Boston 23-105 and Phoenix nipped San Diego 105-103.

Saturday, New York drubbed Chicago 123-104, Milwaukee nipped Phoenix 107-106, Baltimore downed Boston 120-117 and Cincinnati edged Detroit 117-115.

Baylor helped gun the Lakers from 18 points behind in the second quarter to a 111-110 lead, then West clinched it on two free throws with two seconds left. West finished with 19 points, Billy Cunningham connected for 28 points and Archie Clark for 27 for Philadelphia.

Baltimore knocked off Atlanta behind the shooting of Kevin Loughery, who scored 15 of his 29 points in the third period, and Jack Marin, who got 18 of his 26 in the fourth. Lou Hudson pumped in 45 for Atlanta.

The Knicks surged from a 63-49 deficit to an 88-87 lead and went on to make Detroit their eighth straight victim. Willis Reed hit for 30 points and Dave DeBusschere 25 for New York. Jimmy Walker scored 32 and Dave Bing 30 for Detroit.

Seattle dropped Milwaukee seven games behind New York when Barry Clemens hit a jump shot with 21 seconds left in the game. Tom Meschery sparked Seattle with 27 points. Milwaukee got 33 from Flynn Robinson and 31 from Bob Dandridge.

Oil Companies Are Picketed

CINCINNATI (AP) — Five major oil companies here were being picketed after more than 150 union tank truck drivers and warehousemen voted down a new contract offer Sunday by a 10-1 margin.

On strike against Pure, Shell, Texaco, Tresler and Gulf Oil companies are members of Local 103 of the Petroleum Haulers Union, affiliated with the Teamsters.

The union, demanding 50-cent-an-hour hikes, rejected a 19-cent-an-hour offer plus nine cents in fringe benefits.

Canadians Are Worldly

CALGARY, Canada (AP) — The Calgary Chamber of Commerce defines a Canadian as a fellow who drives home from a French movie in his German car, slips out of his Hong Kong suit and Italian shoes, puts on his Japanese robe and Mexican slippers and sips Brazil coffee from English china at his Danish desk while he takes his American per to write his MP to demand that Ottawa must do something about the imbalance of payments situation.

NEW YORK (AP) — Ford C. Frick, the former commissioner, and a couple of players who sparkled in baseball's spotlight four decades ago have been elected to the Hall of Fame.

The ex-players are center fielder Earle Combs of the New York Yankees and knuckleball pitcher Jesse "Pop" Haines.

The three, all in their 70s, were elected to the Hall Sunday by the Old Timers Selection Committee. Together with Lou Boudreau, they will be enshrined in the Hall in Cooperstown, N.Y. next July.

Frick, 75, was honored for his contributions to baseball as a long-time executive who served from 1934 until his retirement in 1965.

Frick did not become eligible until he resigned Sunday morning as chairman of the selection committee.

Frick joined the National League in 1933 as a member of its publicity staff and a year later was named league president. He held that post until he became commissioner in 1951.

As commissioner, Frick said the baseball expansion program and founding of the Hall of Fame were among the most notable achievements of his tenure. He termed the Hall's establishment as "one of the greatest things that ever happened to baseball."

Combs is now 70. He was the leadoff hitter on some of the Yankees' greatest clubs in the 1920s. Often, he was on base when Babe Ruth, Lou Gehrig or Tony Lazzeri came to bat.

Joe Cronin, American League president and a member of the selection committee, described Combs as the "tablesetter for Ruth and Gehrig."

Combs batted left-handed and threw right. He collected more than 200 hits in a season three times and scored more than 100 runs eight years in succession from 1925 through 1932, hit more than 300 eight times with a high of 356 in 1927.

Haines, 76, said he "was in hopes, and my hopes came true. I'd hoped that if I was ever going to get into the Hall, it would come before I passed on."

Most of the right-hander's career was with the St. Louis Cardinals. He pitched one game for Cincinnati in 1918 before he hurled 13 straight seasons for the Cards.

Train Crash Injures 5

CADIZ, Ohio (AP)—Five Norfolk & Western Railway employees were injured, one seriously, Sunday when two N&W freight trains collided near the Harrison County community of Conotton.

The sheriff's office said three cars of an eastbound freight remained on the main line after the other 128 cars had been pulled off on a siding. The exposed cars were hit by a westbound freight, causing five engines and six cars to derail.

Merl Willing of Massillon, one of three trainmen who jumped from the oncoming freight before the collision, was in fair condition at Twin City Hospital in Dennison after undergoing surgery.

The other four men were treated for cuts and bruises at area hospitals.

They are LeRoy Dinger of Canton, Carlton Burdge of Wooster, Robert Gutshaw of Massillon and J. C. Otto of Navarre. Dinger and Burdge jumped from the westbound train along with Willing. Gutshaw and Otto were on the stopped freight.

Legion Leader Speaks Of Young

COLUMBUS, Ohio (AP)—The national commander of the American Legion says he was "shocked and amazed" that Sen. Stephen M. Young had resigned from the organization.

J. Milton Patrick said the Legion does not condone efforts by its Florida post to raise a legal defense fund for Lt. William Calley charged in the alleged massacre of South Vietnamese civilians in My Lai.

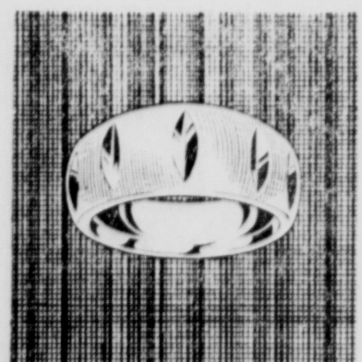

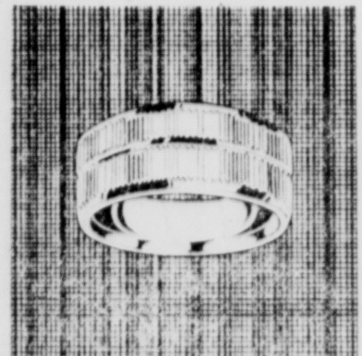

But Patrick said he did not believe Young should have publicly resigned from his Legion post in Cleveland over the matter.

CLEAN SHAVEN, hippie cult leader Charles Manson looks a bit less picaresque than heretofore as he appears in court in Los Angeles, where over his "objections" the judge entered a plea of innocent in the seven-murder Sharon Tate-Labianca case.

Normal waves created by the wind measure only a few hundred feet from crest to crest and attain a top speed of 60 miles an hour.

Concept Of Canada As Monarchy Fading

By MAX HARRELSON
Associated Press Writer
OTTAWA (AP) — There's still debate on the subject, but no doubt remains that the concept of Canada as a monarchy is fading.

Many Canadians look to Britain as their mother country. For years such Canadians have rebuked Americans who happened to mention the king or queen "of England" when speaking in a Canadian context. Their argument: the sovereign living at Buckingham Palace is as much

the monarch of Canada as of Britain.

This is technically so, and Queen Elizabeth II on her trips to Canada is greeted as the sovereign. But Canada's autonomy has been acknowledged in progressive degrees for more than a century, and is now to all practical purposes complete.

Not all French-speaking Canadians scoff at the country's ties with a London-based sovereignty, but some of them do.

Years ago Canadian citizens ceased to receive knighthoods and similar honors from Lon-

don: Lord Thomson of Fleet, the Canadian-born magnate of publishing, went to live in Britain before he was named a baron in 1964.

A few weeks ago Canada officially foreswore the awarding of the Victoria Cross and other British military decorations to Canadians.

Another recent development is the elimination of the queen's portrait from several values of paper money.

The Union Jack, or a flag akin to it, was flown in Canada officially until a distinctive Cana-

dian flag with a maple leaf design was adopted by the administration of Prime Minister Lester B. Pearson.

Pearson's successor, Pierre Elliott Trudeau, disavows any intention to end the monarchy. The government is discussing with the provinces a new constitution for Canada, and the question of the monarchy may eventually be reached, but probably not for years.

However, a House of Commons leader of the opposition Conservative party, Gerald Baldwin, has accused the Trudeau government of "racing headlong" toward establishment of a presidential system. The Conservatives, especially under their former leader John G. Diefenbaker, have often expressed their devotion to the monarchy.

Some believe the end may come in the present decade but others, including Secretary of State Gerard Pelletier, say it may take a generation. Pelletier is close to Trudeau and prominent in the Liberal party.

A Toronto Telegram columnist, McKenzie Porter, observes: "Clearly the monarchists are in disarray." He thinks some of the apathy toward the monarchy is due to the influence of American professors on the faculties of Canadian universities. No matter how impartial they may try to be, he says, they are bound to pass on to the students "some of their own alien precepts."

George Bain, veteran Ottawa political commentator, expresses doubt that present-day youth can continue to accept much longer the idea of having a head of state who lives in England.

"It isn't necessary to be anti-monarchist to wonder about the credibility of the Canadian monarchy," he said in the Toronto

Globe and Mail. "Can young Canadians be expected to accept as the living symbol of the state a monarch that does not look Canadian, does not live in Canada, and whose children have never put foot in the place?"

Under the British system the sovereign is head of state while the prime minister is head of government. In an uncertain political situation the monarch may influence the naming of a government, but generally periodic elections leave no doubt about who gets the job. The U.S. president combines the duties of head of state and head of government.

Man Held In Slaying

Train Crash Injures 5

CADIZ, Ohio (AP)—Five Norfolk & Western Railway employees were injured, one seriously, Sunday when two N&W freight trains collided near the Hrisson County community of Conotton.

The sheriff's office said three cars of an eastbound freight remained on the main line after the other 128 cars had been pulled off on a siding. The exposed cars were hit by a westbound freight, causing five injuries and six cars to derail.

Merl Willing of Massillon, one of three trainmen who jumped from the oncoming freight before the collision, was in fair condition at Twin City Hospital in Dennison after undergoing surgery.

The other four men were treated for cuts and bruises at area hospitals.

They are LeRoy Dinger of Canton, Carlton Burdge of Wooster, Robert Gutshaw of Massillon and J. C. Otto of Navarre. Dinger and Burdge jumped from the westbound train along with Willing. Gutshaw and Otto were on the stopped freight.

Legion Leader Speaks Of Young

COLUMBUS, Ohio (AP)—The national commander of the American Legion says he was "shocked and amazed" that Sen. Stephen M. Young had resigned from the organization.

J. Milton Patrick said the Legion does not condone efforts by its Florida post to raise a legal defense fund for Lt. William Calley charged in the alleged massacre of South Vietnamese civilians in My Lai.

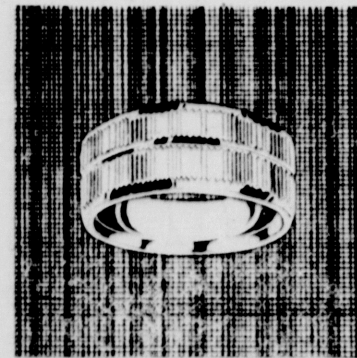

But Patrick said he did not believe Young should have publicly resigned from his Legion post in Cleveland over the matter.

CLEAN SHAVEN, hippie cult leader Charles Manson looks a bit less picaresque than heretofore as he appears in court in Los Angeles, where over his "objections" the judge entered a plea of innocent in the seven-murder Sharon Tate-LaBianca case.

Normal waves created by the wind measure only a few hundred feet from crest to crest and attain a top speed of 60 miles an hour.

Concept Of Canada As Monarchy Fading

By MAX HARRELSON
Associated Press Writer

OTTAWA (AP)—There's still debate on the subject, but no doubt remains that the concept of Canada as a monarchy is fading.

Many Canadians look to Britain as their mother country. For years such Canadians have rebuked Americans who happened to mention the king or queen "of England" when speaking in a Canadian context. Their argument: the sovereign living at Buckingham Palace is as much

the monarch of Canada as of Britain.

This is technically so, and Queen Elizabeth II on her trips to Canada is greeted as the sovereign. But Canada's autonomy has been acknowledged in progressive degrees for more than a century, and is now to all practical purposes complete.

Not all French-speaking Canadians scoff at the country's ties with a London-based sovereignty, but some of them do.

Years ago Canadian citizens ceased to receive knighthoods and similar honors from Lon-

don: Lord Thomson of Fleet, the Canadian-born magnate of publishing, went to live in Britain before he was named a baron in 1964.

A few weeks ago Canada officially foreswore the awarding of the Victoria Cross and other British military decorations to Canadians.

Another recent development is the elimination of the queen's portrait from several values of paper money.

The Union Jack, or a flag akin to it, was flown in Canada officially until a distinctive Cana-

dian flag with a maple leaf design was adopted by the administration of Prime Minister Lester B. Pearson.

Pearson's successor, Pierre Elliott Trudeau, disavows any intention to end the monarchy. The government is discussing with the provinces a new constitution for Canada, and the question of the monarchy may eventually be reached, but probably not for years.

However, a House of Commons leader of the opposition Conservative party, Gerald Baldwin, has accused the Trudeau government of "racing headlong" toward establishment of a presidential system. The Conservatives, especially under their former leader John G. Diefenbaker, have often expressed their devotion to the monarchy.

Some believe the end may come in the present decade but others, including Secretary of State Gerard Pelletier, say it may take a generation. Pelletier is close to Trudeau and prominent in the Liberal party.

A Toronto Telegram columnist, McKenzie Porter, observes: "Clearly the monarchists are in disarray." He thinks some of the apathy toward the monarchy is due to the influence of American professors on the faculties of Canadian universities. No matter how impartial they may try to be, he says, they are bound to pass on to the students "some of their own alien precepts."

George Bain, veteran Ottawa political commentator, expresses doubt that present-day youth can continue to accept much longer the idea of having a head of state who lives in England.

"It isn't necessary to be anti-monarchist to wonder about the credibility of the Canadian monarchy," he said in the Toronto

Globe and Mail. "Can young Canadians be expected to accept as the living symbol of the state a monarch that does not look Canadian, does not sound Canadian, does not live in Canada, and whose children have never put foot in the place?"

Under the British system the sovereign is head of state while the prime minister is head of government. In an uncertain political situation the monarch may influence the naming of a government, but generally periodic elections leave no doubt about who gets the job. The U.S. president combines the duties of head of state and head of government.

Man Held In Slaying

DAYTON, Ohio (AP)—Police were holding Robert W. Benson, 59, of Dayton in the Saturday night shooting of Cleatus Cobb, 18, of Dayton. Police said Cobb was shot in the head during an argument in a West Side home.
